This image displays the fully assembled Diagon Alley 3D model kit, featuring four distinct buildings from the Harry Potter series, ready for display.

Key Features:

- **Detailed Replica:** Construct film-accurate models of Quality Quidditch Supplies, Weasley's Wizard Wheezes, Gringotts Bank, and Ollivanders Wand Shop.
- **Easy Assembly:** The kit includes 287 durable punch-out pieces and clear instructions, requiring no glue or tools.
- **Designed for Display:** The finished models are ideal for room decor, office decor, or as collectible display items.

2. Assembly Instructions

Before beginning assembly, ensure you have a clean, flat workspace. Carefully review all included sheets and instructions. The kit is designed for intuitive assembly, with pieces interlocking securely.

The model kit includes multiple sheets of pre-cut, durable pieces that are ready to be punched out for assembly.

Step-by-Step Guide:

1. **Unpack Components:** Carefully remove all sheets of puzzle pieces and the instruction manual from the packaging.
2. **Identify Pieces:** Familiarize yourself with the different sheets and the numbering system for the pieces.
3. **Punch Out Pieces:** Gently punch out the required pieces from the sheets as indicated in the instructions. Avoid forcing pieces to prevent damage.
4. **Follow Instructions:** Assemble the model by following the step-by-step diagrams provided in the manual. Each piece is designed to interlock with others.
5. **Secure Connections:** Ensure all tabs are fully inserted into their corresponding slots for a stable structure.
6. **Complete Each Building:** Assemble each of the four Diagon Alley buildings individually before arranging them as desired.

The durable pieces are designed for easy assembly, making the building process accessible for teens and adults.

3. Displaying Your Model

Once assembled, your 4D Build Diagon Alley model is ready for display. Choose a prominent location where its intricate details can be appreciated.

Once assembled, the Diagon Alley model serves as an authentic display piece for home or office decor.

Display Recommendations:

- Place on a stable, flat surface to prevent accidental falls.
- Avoid direct sunlight to prevent fading of colors over time.
- Keep away from high-traffic areas where it might be bumped or damaged.
- Consider displaying with other Harry Potter collectibles to create a themed arrangement.

4. Care and Maintenance

To ensure the longevity and appearance of your 4D Build model, follow these simple care guidelines:

- **Dusting:** Gently dust the model regularly with a soft, dry cloth or a soft-bristled brush to prevent dust buildup in crevices.
- **Cleaning:** For stubborn dirt, lightly dampen a cloth with water (do not use cleaning agents) and gently wipe the surface. Ensure the model is completely dry afterward.

- **Handling:** Handle the model with care, especially when moving it, to avoid bending or breaking delicate pieces.
- **Storage:** If storing, place the model in a sturdy box away from moisture and extreme temperatures.

5. Troubleshooting

While the 4D Build kit is designed for straightforward assembly, you might encounter minor issues. Here are some common troubleshooting tips:

- **Pieces Not Fitting:** If a piece seems difficult to fit, double-check the instruction manual to ensure it is the correct piece for that step and oriented correctly. Sometimes, gently wiggling or applying slight, even pressure can help. Avoid forcing pieces, as this can cause damage.
- **Bent Tabs:** If a tab bends during assembly, try to gently straighten it. If it's severely damaged, you may need to reinforce the connection with a small amount of craft glue (not included) as a last resort, though the kit is designed to be glue-free.
- **Missing Pieces:** Carefully check all sheets and packaging. If a piece is genuinely missing, refer to the warranty and support section for assistance.
- **Instability:** Ensure all connections are fully secured. If a section feels wobbly, re-examine the joints to confirm all tabs are properly inserted.
