Levana Nala

Levana Nala 5.5" HD Video Baby Monitor User Manual

Model: Nala

1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Levana Nala 5.5" HD Video Baby Monitor. This system is designed to provide secure, high-definition video and audio monitoring of your child without relying on Wi-Fi, ensuring privacy and reliability.

Key features include a 5.5-inch 1080P HD display, a Pan-Tilt-Zoom (PTZ) camera with night vision, two-way talk functionality, and an extended battery life of up to 22 hours.

2. SAFETY INFORMATION

- **Strangulation Hazard:** Keep all power cords and cables out of reach of children (at least 3 feet / 1 meter away). Never place the camera or cords within a crib or playpen.
- **Water and Moisture:** Do not expose the monitor or camera to water or moisture. This product is for indoor use only.
- **Heat Sources:** Keep the device away from heat sources such as radiators, heat registers, stoves, or other heat-producing appliances.
- **Ventilation:** Ensure proper ventilation around the camera and monitor. Do not block ventilation openings.
- **Adult Supervision:** This product is intended to assist in monitoring your child and is not a substitute for proper adult supervision.
- **Secure Signal:** The Levana Nala monitor utilizes GigaXtreme wireless technology, providing a secure, unhackable connection without Wi-Fi or Bluetooth, enhancing your privacy.

4. SETUP

4.1 Camera Placement

1. Place the camera on a flat surface or mount it to a wall using the included hardware. Ensure the camera is at least 3 feet (1 meter) away from the crib or playpen to prevent cord entanglement.
2. Position the camera to provide a clear view of your child. The PTZ (Pan-Tilt-Zoom) function allows for remote adjustment after placement.
3. Plug the camera charger into the camera and then into a power outlet.

4.2 Monitor Setup

1. Place the monitor in a convenient location where you can easily view the screen.
2. Plug the monitor charger into the monitor and then into a power outlet. The monitor's internal battery will begin charging.
3. Press and hold the Power button on the monitor to turn it on. The monitor and camera should automatically

connect.

4.3 Pairing Additional Cameras (Optional)

If you have purchased additional cameras, they may need to be manually paired. Refer to the Quick Start Guide for specific pairing instructions, typically found within the monitor's menu settings under 'Camera Management' or 'Add Camera'.

BEAUTIFUL, VIBRANT 1080P CAMERA & MONITOR

The image shows the Levana Nala monitor and camera. The monitor displays a baby in a crib and features three orange callouts: 'HD 1080P', 'ClearVu', and '5.5"'. The camera is white and black, with orange arrows indicating its 360-degree pan and 110-degree tilt capabilities. The Levana logo is visible on both the monitor and camera.

4X Digital Zoom **360° Pan, 110° Tilt**

Family Choice AWARD™ **2024 NATIONAL Parenting Product AWARDS *WINNER***

5. OPERATING INSTRUCTIONS

5.1 Monitor Controls

Familiarize yourself with the buttons on your monitor:

- **Power Button:** Press and hold to turn the monitor on/off. Press briefly to turn the screen on/off while audio continues.

- **Menu Button:** Access settings, camera management, lullabies, and other features.
- **Navigation Buttons (Up/Down/Left/Right):** Used to navigate menus and control camera pan/tilt.
- **OK/Select Button:** Confirm selections in the menu.
- **Zoom Button:** Magnify the image on the screen (digital zoom up to 4x).
- **Two-Way Talk Button:** Press and hold to speak through the camera to your child.
- **Volume Buttons:** Adjust the audio level from the camera.

5.2 Video Monitoring

The 5.5" HD display provides a clear 1080P view of your child. The monitor automatically switches to night vision in low-light conditions, displaying a clear black and white image.

Image: The Levana Nala monitor showcasing its crystal clear night vision capability, allowing monitoring without disturbing the baby.

5.3 Two-Way Talk

To comfort your child, press and hold the Two-Way Talk button on the monitor. Speak clearly into the monitor's

microphone. Your voice will be transmitted through the camera's speaker.

Image: The Levana Nala monitor demonstrating the two-way talk feature, allowing parents to soothe their baby remotely.

5.4 Pan, Tilt, and Zoom (PTZ)

Use the navigation buttons on the monitor to remotely adjust the camera's view:

- **Pan:** Move the camera horizontally (left/right).
- **Tilt:** Move the camera vertically (up/down).
- **Zoom:** Press the dedicated Zoom button to digitally zoom in or out on the image.

5.5 Battery Life

The monitor features a powerful 5000mAh rechargeable battery, providing up to 22 hours of continuous video monitoring. Battery life may vary based on usage and settings (e.g., screen brightness, VOX mode).

Image: The Levana Nala monitor highlighting its extended 22-hour battery life for day and night use.

5.6 VOX Mode (Cry Detection)

The monitor can be set to VOX (Voice Operated eXchange) mode, where the screen and/or audio activate only when sound is detected from the camera. This conserves battery and reduces screen light during quiet periods.

Image: The monitor demonstrating its ability to activate when sound is detected, showing a sleeping baby with the screen off and an awake baby with the screen on.

5.7 Lullabies

The camera can play built-in lullabies to help soothe your child. Access this feature through the monitor's menu.

Image: A baby sleeping peacefully with musical notes originating from the camera, illustrating the lullaby function.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the monitor and camera surfaces. Do not use liquid cleaners or aerosol sprays.
- **Battery Care:** To prolong battery life, avoid fully discharging the monitor's battery frequently. Charge the monitor regularly.
- **Storage:** If storing the device for an extended period, ensure the battery is partially charged (around 50%) and store in a cool, dry place.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No image/sound on monitor	Monitor or camera is off; Out of range; Low battery; Not paired.	Ensure both units are powered on and charged. Move monitor closer to camera. Re-pair units if necessary (refer to Section 4.3).
Poor image quality	Low light (night vision active); Camera lens dirty; Obstructions.	Ensure adequate lighting if color vision is desired. Clean camera lens. Remove any objects blocking the camera's view.
No sound or low volume	Monitor volume too low; VOX sensitivity too low.	Increase monitor volume. Adjust VOX sensitivity in the menu.
Monitor not charging	Charger not properly connected; Faulty charger/cable.	Ensure charger is securely plugged into both monitor and outlet. Try a different compatible charger/cable if available.
Camera PTZ not responding	Out of range; Interference.	Move monitor closer to the camera. Ensure no large metal objects or other wireless devices are causing interference.

8. SPECIFICATIONS
