## DOOGEE Smini

# DOOGEE Smini Rugged Smartphone User Manual

Model: Smini

## INTRODUCTION

---

This manual provides essential instructions for the safe and efficient use of your DOOGEE Smini Rugged Smartphone. Please read this manual thoroughly before operating the device and retain it for future reference.

The DOOGEE Smini is a compact, rugged smartphone designed for durability and performance, featuring Android 13, a Helio G99 Octa Core processor, a 4.5-inch QHD+ display, a 50MP camera, and a 3000mAh battery.

## SAFETY INFORMATION

---

Always follow basic safety precautions when using this product to reduce the risk of injury, fire, or electric shock.

- Do not expose the device to extreme temperatures or direct sunlight for prolonged periods.
- Use only manufacturer-approved chargers and accessories.
- Avoid dropping or subjecting the device to severe impact, despite its rugged design.
- Keep the device away from medical devices to avoid interference.
- Do not attempt to disassemble or repair the device yourself. Refer all servicing to qualified personnel.

## PACKAGE CONTENTS

---

Verify that all items are present in your package:

- DOOGEE Smini Rugged Smartphone
- USB Type-C Cable
- Power Adapter
- SIM Ejector Tool
- User Manual (this document)

256GB ROM

NFC for  
Google Pay

4.5" QHD+  
IPS Display

**Image:** Front and back view of the DOOGEE Smini, illustrating its compact size, innovative rear display, and main camera module. Key features like Android 13, 15GB RAM + 256GB ROM, NFC, and 4.5" QHD+ IPS Display are highlighted.

- **Front Display:** 4.5-inch QHD+ IPS screen.
- **Rear Display:** Innovative secondary screen for quick information access (time, date, battery, temperature, humidity, charging status).
- **Main Camera:** 50MP AI Main Camera.
- **Front Camera:** 8MP.
- **Macro Camera:** 2MP.
- **USB Type-C Port:** For charging and data transfer.
- **SIM/SD Card Slot:** Supports 2 Nano SIM cards or 1 Nano SIM and 1 TF card.
- **Power Button/Fingerprint Sensor:** Located on the side.
- **Volume Buttons:** Located on the side.

## 1. Inserting SIM/SD Card

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool into the small hole next to the tray and push gently until the tray pops out.
3. Place your Nano SIM card(s) and/or TF card into the tray with the gold contacts facing down, ensuring they are correctly aligned.
4. Carefully push the tray back into the slot until it is flush with the device.

## 2. Charging the Battery

Before first use, fully charge the device battery.

**Image:** The DOOGEE Smini connected to its charger, illustrating the 18W fast charging capability and the 3000mAh battery. Icons indicate 1-2 days normal use, 15 hours calling, and 5.5 days standby.

1. Connect the USB Type-C cable to the charging port on the device.
2. Connect the other end of the cable to the power adapter.
3. Plug the power adapter into a wall outlet.

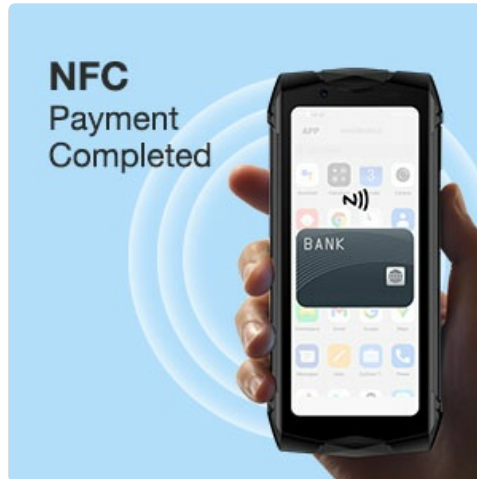

4. The device supports 18W fast charging. A full charge typically takes approximately 2 hours.

### 3. Powering On/Off

- **To Power On:** Press and hold the Power button until the DOOGEE logo appears.
- **To Power Off:** Press and hold the Power button until the power options appear on the screen, then select "Power off".
- **To Restart:** Press and hold the Power button until the power options appear, then select "Restart".

### 4. Initial Setup Wizard

Upon first power-on, follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, Google account setup, and security settings (Face ID/Fingerprint ID).

**Image:** A user unlocking the DOOGEE Smini using Face ID, with "Face ID" and "Fingerprint ID" text indicating available biometric security features.

## OPERATING INSTRUCTIONS

---

### 1. Basic Navigation

- **Touch Screen:** Tap to select, swipe to scroll, pinch to zoom.
- **Home Screen:** Access apps, widgets, and notifications.
- **Notification Panel:** Swipe down from the top of the screen to view notifications and quick settings.
- **App Drawer:** Swipe up from the bottom of the screen to access all installed applications.

### 2. Using the Rear Display

The innovative rear display provides quick access to essential information without fully activating the main screen.

# Innovative Rear Display Brings Convenient Operating Experience

**Image:** A close-up of the DOOGEE Smini's innovative rear display, showcasing its ability to show battery level, humidity, current time, date, temperature, and charging status. The display can be customized.

- **Activating:** Gently tap the rear display or use a designated gesture (refer to settings).
- **Information Displayed:** Battery level, time, date, temperature, humidity, and charging status.
- **Customization:** The rear display can be customized via the phone's settings menu to show preferred information.

### 3. Camera Operation

The DOOGEE Smini features a 50MP main camera, an 8MP front camera, and a 2MP macro camera.

# 50MP AI Main Camera

 **8MP**  
Front Camera

 **50MP**  
AI Main Camera

 **2MP**  
Macro Camera

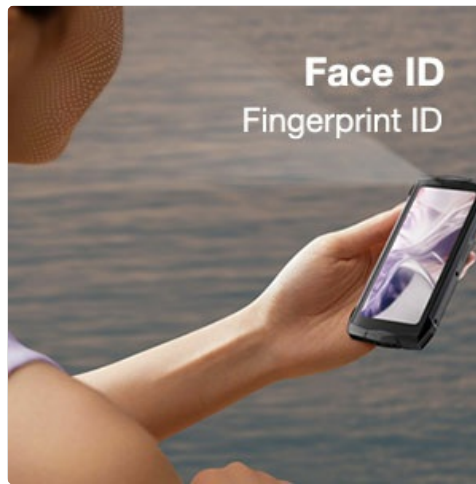

**Image:** The DOOGEE Smini's camera capabilities, highlighting the 50MP AI Main Camera, 8MP Front Camera, and 2MP Macro Camera. Example photos show diverse scenarios like underwater photography, mountain climbing, and hiking.

1. Open the Camera application.
2. Select your desired shooting mode (e.g., Photo, Video, Portrait, Macro, Underwater).
3. Tap the shutter button to capture an image or start/stop recording a video.
4. Use the zoom function by pinching the screen or using the volume buttons.

## 4. NFC and Google Pay

The device supports NFC for contactless payments and data transfer.

**Image:** A hand holding the DOOGEE Smini near a payment terminal, with "NFC Payment Completed" text, illustrating the device's NFC capability for mobile payments.

1. Ensure NFC is enabled in your phone's settings.
2. Set up Google Pay or another preferred payment app with your payment cards.
3. To make a payment, hold the back of your phone near the contactless payment terminal.

## MAINTENANCE

---

### 1. Cleaning the Device

- Use a soft, lint-free cloth to clean the screen and body of the phone.
- For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive materials.
- Ensure all port covers are securely closed before cleaning with any moisture, especially if the device has been exposed to water.

### 2. Water and Dust Resistance (IP68/IP69K)

The DOOGEE Smini is rated IP68 and IP69K for water and dust resistance, and MIL-STD-810H for durability.

# Triple Protection MIL-STD-810HIP68/P69K

**30Min**  
1.5M Water Deep

**18M**  
Drop Resistance

**24 Hrs**  
1M Concrete Deep

**Image:** The DOOGEE Smini undergoing various durability tests, including submersion in water (1.5m for 30 min), drop resistance (1.8m), and concrete immersion (1m for 24 hrs), highlighting its MIL-STD-810H, IP68, and IP69K ratings.

- The device can withstand submersion in up to 1.5 meters of water for 30 minutes.
- It is protected against high-pressure, high-temperature water jets.
- It offers drop resistance up to 1.8 meters.
- Always ensure all port covers are tightly sealed before exposing the device to water or dust.
- Rinse the device with fresh water after exposure to saltwater or chemicals and dry thoroughly.

### 3. Software Updates

Regularly check for and install software updates to ensure optimal performance and security.

1. Go to **Settings > System > System update**.
2. Follow the on-screen prompts to download and install any available updates.

## TROUBLESHOOTING

---

## 1. Device Not Turning On

- Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- Press and hold the Power button for at least 10-15 seconds to force a restart.

## 2. Poor Signal Reception

- Check if your SIM card is correctly inserted.
- Move to an area with better network coverage.
- Restart the device.
- Verify your network settings (Settings > Network & internet > Mobile network).

## 3. Apps Crashing or Freezing

- Close and reopen the app.
- Clear the app's cache and data (Settings > Apps > [App Name] > Storage & cache).
- Update the app to the latest version from the Google Play Store.
- Restart the device.

## 4. Battery Draining Quickly

- Reduce screen brightness.
- Close unused apps running in the background.
- Turn off Wi-Fi, Bluetooth, and GPS when not in use.
- Check battery usage in Settings > Battery to identify power-hungry apps.
- Enable Battery Saver mode.
