KUNSANA Home Sauna

KUNSANA 2-3 Person Ceramic Infrared Corner Sauna Instruction Manual

Model: Home Sauna (B0CSFKF28M)

1. INTRODUCTION

Thank you for choosing the KUNSANA 2-3 Person Ceramic Infrared Corner Sauna. This manual provides essential information for the safe and effective assembly, operation, and maintenance of your new sauna. Please read this manual thoroughly before installation and use, and retain it for future reference.

This infrared sauna is designed to provide a relaxing and therapeutic experience in the comfort of your home. It features low EMF far-infrared heating, chromotherapy lights, Bluetooth speakers, and is constructed from durable Eastern Canadian Hemlock wood.

2. SAFETY INFORMATION

Always prioritize safety when using electrical appliances. Adhere to the following guidelines:

- Consult a physician before using the sauna, especially if you have pre-existing medical conditions, are pregnant, or are taking medication.
- Do not use the sauna under the influence of alcohol or drugs.
- Stay hydrated by drinking water before, during, and after sauna sessions.

- Limit sauna sessions to recommended durations (e.g., 15-30 minutes) to avoid overheating.
- Ensure the sauna is properly grounded and connected to a suitable power supply (120V, 15A American Standard plug).
- Keep children and pets away from the sauna during operation.
- Do not place flammable materials inside or near the sauna.
- Avoid touching heating elements directly during operation.
- If you feel dizzy, nauseous, or unwell, exit the sauna immediately.
- Ensure proper ventilation in the room where the sauna is installed.

3. PACKAGE CONTENTS

Upon receiving your KUNSANA Infrared Sauna, please verify that all components are present and undamaged. The package typically includes:

- Sauna Wall Panels (Front, Back, Side, Door)
- Base and Roof Panels
- Bench Seating
- Ceramic Heating Tubes (4)
- Carbon Crystal Infrared Heating Panels (5)
- Intelligent Control Panel
- Bluetooth Speakers (2)
- Reading Lamps
- Chromotherapy Lights
- Power Cord
- Assembly Hardware and Instructions

4. SETUP AND ASSEMBLY

The KUNSANA sauna is designed for straightforward assembly, often requiring no special tools. It is recommended to have at least two people for assembly due to the size and weight of the panels.

1. **Preparation:** Choose a level, dry indoor location with access to a standard 120V power outlet. Ensure sufficient space around the sauna for assembly and ventilation.
2. **Base Installation:** Place the base panel on the chosen location.
3. **Wall Panel Assembly:** Carefully connect the wall panels, ensuring they interlock securely. Follow the numerical or alphabetical sequence indicated in the detailed assembly guide provided with your product.
4. **Bench Installation:** Install the bench seating according to the instructions.
5. **Electrical Connections:** Connect the internal wiring for the heating elements, control panel, lights, and speakers. Ensure all connections are firm and correct.
6. **Roof Panel Placement:** Carefully place the roof panel on top, ensuring all wires are properly routed and connected to the

components on the roof (e.g., speakers, lights).

7. **Final Checks:** Verify all panels are securely fastened and all electrical connections are correct before plugging the sauna into a power source.

Infrared Sauna Size

Larger interior space for a more comfortable sauna experience

5. OPERATING INSTRUCTIONS

Your KUNSANA sauna is equipped with an intelligent control panel for easy operation.

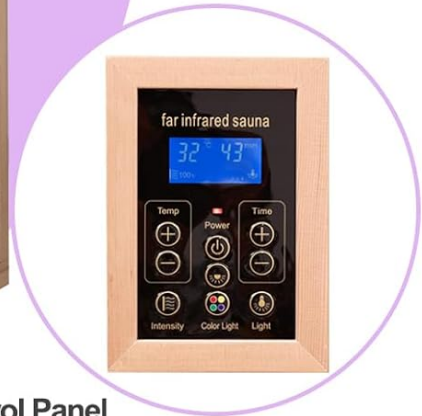

Sauna Functions

Chromotherapy Lights

Bluetooth Speaker

Intelligent Control Panel

Image: Details of the sauna's features, including chromotherapy lights, Bluetooth speaker, and the intelligent control panel.

5.1 Powering On and Temperature Setting

- Plug the sauna into a dedicated 120V outlet.
- Press the **Power** button on the control panel to turn on the sauna.
- Use the temperature controls (usually up/down arrows) to set your desired temperature, ranging from 77°F to 149°F (25°C to 65°C).
- The sauna will begin to preheat. It can reach operating temperature quickly, with a 10-minute quick preheat to a comfortable level.

5.2 Timer Setting

- Use the **Timer** controls on the panel to set your session duration, up to 60 minutes.
- The sauna will automatically shut off once the set time expires.

5.3 Lighting and Chromotherapy

- The control panel allows you to adjust the reading lamps and chromotherapy lights.

- Press the **Light** button to turn on/off the reading lamp.
- Use the **Color Light** button to cycle through different chromotherapy colors or set a specific color.

5.4 Bluetooth Connectivity

- Activate Bluetooth on your mobile device.
- Search for the sauna's Bluetooth name (refer to the control panel display or specific instructions for the exact name, typically "KUNSANA Sauna").
- Pair your device. Once connected, you can play audio through the integrated Bluetooth speakers.

Far Infrared Heating

4 Ceramic Heating Tubes

Good high temperature resistance and insulation to ensure the safety and stability of the heating process

5 Low EMF Heating Panels

Excellent thermal conductivity and stability, can quickly and evenly emit far infrared rays

360° Surround Heating

360° surround heating that penetrates deep into the body's tissues to stimulate blood circulation and metabolism

Image: Illustrates the 4 ceramic heating tubes and 5 low EMF heating panels, emphasizing the 360-degree surround heating for deep tissue penetration.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your sauna.

- **Cleaning:**
 - Wipe down the interior wood surfaces with a clean, damp cloth after each use to remove sweat and residue.
 - For deeper cleaning, use a mild, non-toxic wood cleaner. Avoid harsh chemicals or abrasive materials that could damage the wood.
 - Clean the glass door and windows with a standard glass cleaner.
- **Ventilation:** Ensure the sauna room is well-ventilated to prevent moisture buildup.
- **Wood Care:** The Eastern Canadian Hemlock wood is durable. Avoid excessive moisture or direct water contact to prevent warping or damage. Do not paint or varnish the interior wood, as this can interfere with the wood's natural properties and off-gas harmful fumes when heated.
- **Electrical Components:** Regularly inspect the power cord and connections for any signs of wear or damage. If any issues are found, contact customer support immediately.

7. TROUBLESHOOTING

If you encounter any issues with your KUNSANA sauna, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Sauna does not power on.	No power supply; loose connection; tripped circuit breaker.	Ensure power cord is securely plugged in. Check household circuit breaker. Verify all internal electrical connections are firm.
Sauna not heating sufficiently.	Temperature set too low; heating elements not fully engaged; door not sealed.	Increase temperature setting. Ensure all heating elements are active. Check door seal for gaps. Allow sufficient preheat time.
Bluetooth not connecting.	Device too far; incorrect pairing; sauna Bluetooth off.	Ensure device is within range. Restart both sauna and device Bluetooth. Re-attempt pairing.
Lights not working.	Loose connection; bulb issue (if applicable); control panel issue.	Check light connections in the roof panel. If problem persists, contact customer support.

If the problem persists after attempting these solutions, please contact KUNSANA customer support for further assistance.

8. SPECIFICATIONS

Key technical specifications for the KUNSANA 2-3 Person Ceramic Infrared Corner Sauna:

- **Product Dimensions:** 47.63 x 47.63 x 76.37 inches (Length x Width x Height)
- **Internal Dimensions:** Approximately 44 x 44 x 72 inches
- **Capacity:** 2-3 Person
- **Power Supply:** 120V / 50Hz
- **Power Output:** 1750W
- **Power Plug:** American Standard (15A)
- **Temperature Control Range:** 77-149 degrees Fahrenheit (25-65 degrees Celsius)
- **Maximum Temperature:** 149°F / 65°C
- **Time Setting:** Up to 60 Minutes
- **Main Material:** Eastern Canadian Hemlock Wood

- **Heating Material:** 4 Ceramic Heating Tubes, 5 Carbon Crystal Infrared Heating Panels
- **Seat Load Capacity:** Up to 600 lbs (300KG)
- **Applicable Height:** 55 inches to 78 inches
- **Features:** Low EMF Far Infrared, Bluetooth Speakers, Reading Lamps, Chromotherapy Lights

9. WARRANTY AND SUPPORT

KUNSANA stands behind the quality of its products. Your 2-3 Person Ceramic Infrared Corner Sauna comes with the following warranty:
