uniHimal bed tent-0

uniHimal Twin Size Bed Tent Instruction Manual

Model: bed tent-0

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your uniHimal Twin Size Bed Tent. Designed to create a portable, light-reducing, and breathable private space, this bed tent offers enhanced comfort for indoor use. Please read these instructions carefully before assembly and use.

SETUP INSTRUCTIONS

The uniHimal Bed Tent is designed for effortless assembly, typically taking less than five minutes. Follow these steps to set up your tent:

1. **Unpack Components:** Carefully remove all items from the compact carrying bag (17" x 5" x 3.9" diameter). Verify all parts are present: tent body and fiberglass poles.
2. **Assemble Poles:** Connect the sections of the fiberglass poles. The poles are designed to snap together easily.
3. **Insert Poles into Sleeves:** Lay the tent body flat on the bed. Locate the fabric sleeves on the tent and carefully thread the assembled poles through them.
4. **Secure Poles:** Once the poles are fully threaded, insert the ends of the poles into the designated pockets at the base of the tent. This will create the arched structure.
5. **Position Tent:** Place the assembled tent over your twin-size bed (fits beds approximately 75"L x 39"W x 47"H).

BUILD YOUR FORT ON ANY OCCASION

EASY TO INSTALL ON ANY OCCASION IN 5MINS

OPERATING INSTRUCTIONS

The uniHimal Bed Tent offers several features for comfort and privacy:

- **Dual-Entry Doors:** The tent features dual doors for easy access from either side of the bed. Each door can be fully zipped closed for privacy or rolled up and secured with attached ties for an open feel and increased ventilation.
- **Dual-Layered Windows:** Each window is equipped with a mesh screen for breathability and a blackout curtain fabric layer for privacy and light reduction. The blackout curtains can be folded and stored using integrated hooks.
- **Light Reduction:** The solid, dark-colored design of the tent effectively reduces ambient light, creating a darker environment conducive to restful sleep or daytime rest.
- **Internal Hooks:** Utilize the built-in hooks inside the tent for hanging small items such as lights, fans, or personal belongings.

ALL-ROUND VENTILATION

ALWAYS BE IN A COMFORTABLE SLEEP ENVIRONMENT

Ventilated Design

MAINTENANCE

To ensure the longevity and cleanliness of your uniHimal Bed Tent, follow these maintenance guidelines:

- **Cleaning:** The tent is made from washable peach skin fabric. For best results, **hand wash** the fabric. Avoid harsh detergents or bleach.
- **Drying:** Air dry the tent fabric completely before folding and storing to prevent mildew.
- **Storage:** When not in use, disassemble the tent and store it in its compact carrying bag in a cool, dry place.

EASY TO CLEAN AND REUSABLE

DETACHABLE DESIGN ENSURES CLEANLINESS

MACHINE WASHABLE

Create a Fresh and Hygienic Sleeping Environment

Figure 6: The detachable design allows for easy cleaning, ensuring a fresh and hygienic sleeping environment.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Light Leakage:** While designed to be light-reducing, the tent may not achieve complete blackout in brightly lit environments. Ensure all zippers are fully closed and window flaps are secured. For maximum darkness, consider placing the tent in a room with minimal external light sources.
- **Poles Bending:** The fiberglass poles are robust but can bend under excessive force. Ensure proper assembly by gently guiding poles through sleeves and avoiding sudden pressure. If a pole bends, carefully straighten it or contact support for replacement parts.
- **Stuffy Interior:** If the tent feels stuffy, open the mesh windows and/or the main doors to improve air circulation. The dual-layered windows are designed to balance breathability with privacy.

SPECIFICATIONS

Feature	Detail
Brand	uniHimal
Model Name	bed tent
Model Number	bed tent-0
Size	TWIN
Product Dimensions (L x W x H)	75"L x 39"W x 47"H
