4. SETUP

4.1 Initial Charging

Before first use, fully charge the tablet using the provided 5V/2A adapter and Type-C cable. The charging indicator will typically show progress and turn off or change color when fully charged.

4.2 Powering On/Off

- **To Power On:** Press and hold the Power Button (refer to Product Overview diagram) until the ApolloSign logo appears on the screen.
- **To Power Off:** Press and hold the Power Button until a power-off menu appears. Select 'Power off' to shut down the device.
- **To Restart:** Press and hold the Power Button until a power-off menu appears. Select 'Restart' to reboot

the device.

4.3 Initial Setup Wizard

Upon the first power-on, the tablet will guide you through an initial setup process. Follow the on-screen prompts to:

1. Select your preferred language.
2. Connect to a Wi-Fi network.
3. Set up your Google account (optional, but recommended for full access to Google services and app downloads).
4. Configure date and time settings.

5. OPERATING INSTRUCTIONS

5.1 Parental Controls and Google Kids Space

The ApoloSign Kids Tablet is equipped with advanced parental controls and comes pre-installed with Google Kids Space to ensure a safe and enriching experience for children.

- **Accessing Parental Controls:** Parental controls can typically be accessed through the tablet's settings menu or via the Google Family Link app on a parent's device.
- **Content Filtering:** Parents can filter content to ensure children only access age-appropriate material.
- **Screen Time Limits:** Set daily screen time limits and schedule bedtime settings to automatically switch off the screen.
- **Learning Time Settings:** Configure specific time allocations for educational apps and activities.
- **Google Kids Space:** This feature provides a library of teacher-approved apps, books, and videos. Content is categorized and curated for different age groups.

5.2 App Management

- **Downloading Apps:** Access the Google Play Store (or other pre-approved app stores) to download additional applications. Parental approval may be required for new downloads.
- **Uninstalling Apps:** To uninstall an app, long-press its icon on the home screen or app drawer, then drag it to the 'Uninstall' option, or go to Settings > Apps > [App Name] > Uninstall.

5.3 Basic Navigation

- **Touchscreen Gestures:** Use taps, swipes, and pinch-to-zoom for navigation and interaction.
- **Home Screen:** The main screen where app icons and widgets are displayed.
- **App Drawer:** Swipe up from the home screen to access all installed applications.
- **Notifications & Quick Settings:** Swipe down from the top of the screen to view notifications and access quick settings like Wi-Fi, Bluetooth, and brightness.

5.4 Camera Usage

The tablet features both front and rear cameras.

1. Open the 'Camera' app from the home screen or app drawer.
2. Tap the camera switch icon to toggle between the front and rear cameras.

3. Tap the shutter button to take a photo or start/stop video recording.

6. MAINTENANCE

Proper care will extend the life of your ApoloSign Kids Tablet.

- **Cleaning:** Use a soft, lint-free cloth to clean the screen. For the case, a damp cloth with mild soap can be used, ensuring no moisture enters ports.
- **Battery Care:** Avoid fully discharging the battery frequently. Charge the tablet when the battery level is low, and avoid leaving it plugged in for extended periods after it's fully charged.
- **Software Updates:** Regularly check for and install system updates to ensure optimal performance and security. Go to Settings > System > System update.
- **Storage Management:** Periodically clear unnecessary files and uninstall unused apps to free up storage space. The tablet supports SD card expansion up to 128GB for additional storage.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Solution
Tablet won't turn on.	Ensure the tablet is fully charged. Connect it to the charger for at least 30 minutes, then try powering it on again.
Wi-Fi connection issues.	Check if Wi-Fi is enabled in Quick Settings. Restart your Wi-Fi router. Forget the network and reconnect.
Apps are crashing or freezing.	Close the app and reopen it. Clear the app's cache (Settings > Apps > [App Name] > Storage > Clear cache). Restart the tablet.
Slow performance.	Close unused apps running in the background. Clear cache and data for frequently used apps. Consider uninstalling unnecessary apps or moving media to an SD card.
Parental controls not working as expected.	Ensure the Google Family Link app is updated on both parent and child devices. Verify settings are correctly applied and synced.
Screen is unresponsive.	Perform a forced restart by holding the Power Button for about 10-15 seconds until the tablet reboots.

If issues persist, please refer to the Warranty and Support section for contact information.
