

SUPVAN E10

SUPVAN KATASYMBOL E10/E11/E16 Thermal Adhesive Labels User Manual

Model: E10, E11, E16 Compatible Labels

1. PRODUCT OVERVIEW

These SUPVAN KATASYMBOL thermal adhesive labels are designed for use with SUPVAN E10, E11, and E16 label printers. Each roll contains 280 labels, measuring 12 mm x 22 mm, with black text on a yellow background. They utilize thermal printing technology, eliminating the need for ink or toner, and are engineered for durability across various applications.

2. SETUP AND INSTALLATION

To begin using your SUPVAN KATASYMBOL labels, ensure you have a compatible SUPVAN E10, E11, or E16 label printer. Follow these steps for proper installation:

1. Open the label compartment of your SUPVAN label printer.
2. Insert the label roll into the designated slot, ensuring the labels feed correctly.
3. **Important Note:** Do not remove the small sticker located on the back of the label roll. This sticker contains a smart chip that the Katasymbol application uses to automatically identify the label type and size. Removing it will prevent the printer from recognizing the label tape.
4. Close the label compartment securely.

Convient à l'étiqueteuse SUPVAN E10/E16.

NOTES DE MONTAGE

Image 2.2: Installation notes highlighting the smart chip sticker on the label roll. This sticker must remain intact for the printer to recognize the labels.

3. OPERATING INSTRUCTIONS

The SUPVAN KATASYMBOL labels are designed for easy use with the dedicated Katasymbol application. This application streamlines the printing process and offers extensive customization options.

3.1 Using the Katasymbol Application

- Download and install the Katasymbol application on your smartphone or tablet.
- Connect your SUPVAN label printer to the application via Bluetooth.
- The application will automatically identify the label type and size from the smart chip on the label roll.
- Utilize the application's features to design your labels:
 - Choose from over 600 templates.
 - Select from 35 fonts.
 - Access over 1000 icons.
 - Add text, barcodes, QR codes, graphics, frames, dates, shapes, and tables.

- Preview your label design and then send it to the printer.

Image 3.1: The Katasymbol application offers multiple personalized printing templates and powerful functions for text, barcodes, QR codes, and more.

3.2 Application Examples

These versatile labels are suitable for a wide range of organizational and identification needs:

- **School Use:** Labeling school supplies, books, water bottles, and lunchboxes.
- **Home Use:** Organizing food containers, spice jars, storage bins, and personal items.
- **Office Use:** Labeling files, folders, office supplies, cables, and inventory.

Compatible avec Différentes Tailles d'Étiquettes

Image 3.3: Examples of label use in a home environment, including on storage boxes and cosmetic bottles.

Image 3.4: Examples of label use in an office environment, such as on files and desk organizers.

4. MAINTENANCE AND DURABILITY

SUPVAN KATASYMBOL labels are constructed with a multi-layer design and synthetic materials to ensure long-lasting performance and resistance to various environmental factors.

4.1 Durability Features

- **Lifespan:** Designed for a lifespan of over 5 years.
- **Waterproof:** Resistant to water, making them suitable for items that may encounter moisture.
- **Oil-Proof:** Resistant to oil, ideal for kitchen or industrial applications.
- **High Adhesion Strength:** Ensures labels stay firmly attached to surfaces.
- **Temperature Resistance:** Maintains integrity in both high and low-temperature environments.
- **Scratch-Resistant:** Designed to withstand minor abrasions, keeping text clear.

Compatible avec les Étiqueteuses SUPVAN E10/E11/E16

Offre un fort effet hydrofuge.

Image 4.2: A hand washing a mug with a label attached, illustrating the label's waterproof capability.

4.2 Storage Recommendations

To maintain the quality and adhesive properties of your labels, store them in a cool, dry place away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues while using your SUPVAN KATASYMBOL labels, consider the following common solutions:

- **Label Not Recognized:** Ensure the small sticker with the smart chip on the back of the label roll has not been removed. The Katasymbol application relies on this chip for automatic identification.
- **Poor Print Quality:** Check if the label roll is correctly inserted and seated in the printer. Ensure the printer's thermal print head is clean. Refer to your printer's manual for cleaning instructions.
- **Labels Not Feeding:** Verify that the label roll is properly aligned and not jammed. Ensure there are no obstructions in the label path.

6. SPECIFICATIONS

Feature	Detail
Brand	SUPVAN
Model Number	E10, 12 mm*22 mm, 280, Yellow
Label Dimensions	12 mm x 22 mm
