

## BAIMNOCM UVC-76

# BAIMNOCM UVC-76 UV Light Sanitizer with Ozone Instruction Manual

Model: UVC-76 | Brand: BAIMNOCM

## 1. INTRODUCTION

This manual provides essential instructions for the safe and effective operation, setup, and maintenance of your BAIMNOCM UVC-76 UV Light Sanitizer with Ozone. This device is designed to utilize UV-C light and ozone for disinfection and odor removal in various indoor environments.

### Important Safety Warnings

**UV-C light and ozone can be harmful. Please read and adhere to all safety precautions.**

- **Direct Exposure Hazard:** UV-C rays can cause severe burns to skin and eyes. Never look directly at the operating lamp.
- **Evacuate Area:** Ensure all humans, pets, and plants are removed from the room before operating the lamp.
- **Ozone Ventilation:** This product generates ozone. After use, ventilate the treated area thoroughly by opening windows and doors for at least 30-60 minutes before re-entry.
- **Indoor Use Only:** This device is intended for indoor use in unoccupied spaces.

# 99.99% Sterilization Rate

## 2. PACKAGE CONTENTS

Verify that all items are present in the package:

- BAIMNOCM UVC-76 UV Light Sanitizer Unit
- UV-C Bulb(s) (pre-installed or included separately)
- Remote Control
- Hanging Chain (for optional installation)

## 3. SETUP

The BAIMNOCM UVC-76 is designed for simple setup. No complex installation is required.

### Placement

- Place the unit on a stable, flat surface in the center of the room to be treated.

- Alternatively, use the included chain to hang the unit from a suitable hook or fixture. Ensure it is securely fastened and positioned to allow for maximum light distribution.
- Ensure the unit is positioned away from flammable materials and heat sources.

## Giving you a clean, pure, and fresh room like nature

### 4. OPERATING INSTRUCTIONS

Always ensure the room is empty of people, pets, and plants before operating the device.

#### Manual Operation

1. Plug the power cord into a standard 110V AC outlet.
2. Locate the power switch on the unit. Press the switch to the 'ON' position.
3. The lamp will emit a series of beeps and automatically turn on after a 10-second delay, allowing time to exit the room.

#### Remote Control Operation

1. Plug the power cord into a standard 110V AC outlet.
2. Ensure the manual power switch on the unit is in the 'ON' position.

- Using the remote control, press the 'ON/OFF' button. The lamp will beep and begin a 10-second countdown before activating.
- Select the desired disinfection time using the timer buttons: 5 minutes, 15 minutes, 30 minutes, or 60 minutes. The lamp will operate for the selected duration and then automatically turn off.

## Instruction for Use

### 1, Turn on the lamp manually

**Step 1:** Press the **○ —** switch to **—** ON position You'll hear a beep, beep, beep. The lamp will automatically turn on after 10 seconds

## Post-Operation Ventilation

After the disinfection cycle is complete, it is crucial to ventilate the room. Open windows and doors to allow fresh air to circulate for at least 30-60 minutes to dissipate any residual ozone before re-entering the area.

Image 4: Comparison illustrating the difference between UVC-only disinfection, which is obstructed by objects, and UVC with Ozone, where ozone can reach hard-to-access areas, highlighting the need for ventilation after ozone use.

## 5. MAINTENANCE

### Cleaning

- Always unplug the device before cleaning.
- Wipe the exterior of the unit with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Gently clean the UV-C bulbs with a soft, lint-free cloth to ensure optimal performance. Avoid touching the bulbs directly with bare hands, as oils can reduce their effectiveness.

### Bulb Replacement

UV-C bulbs have a limited lifespan. If a bulb ceases to function, contact customer support for replacement instructions and compatible bulbs. Do not attempt to replace bulbs with non-approved alternatives.

## 6. TROUBLESHOOTING

If you encounter issues with your BAIMNOCM UVC-76, refer to the following common problems and

solutions:

Problem	Possible Cause	Solution
Lamp does not turn on	No power; Manual switch off; Faulty bulb; Remote control issue	Check power connection; Ensure manual switch is ON; Check if bulbs are securely seated; Replace remote batteries; Contact support if issue persists.
Remote control not working	Dead batteries; Obstruction; Unit not in remote mode	Replace remote batteries; Ensure clear line of sight to unit; Ensure manual switch is ON.
Weak or no ozone smell after use	Room too large; Unit not operating long enough; Bulb degradation	Increase operating time; Ensure proper room size for unit; Consider bulb replacement.
