Leadfan B0CSFZR5HQ

Leadfan 10.26" Wireless Apple Carplay Screen User Manual

Model: B0CSFZR5HQ

1. PRODUCT OVERVIEW

The Leadfan 10.26" Wireless Apple Carplay Screen is a portable car stereo receiver designed to enhance your in-car entertainment and navigation experience. It offers seamless integration with Apple CarPlay and Android Auto, along with advanced features like a 2.5K dash cam, 1080P backup camera, GPS navigation, mirror link capabilities, and multiple audio output options.

Image: The main unit of the Leadfan 10.26" Wireless Apple Carplay Screen, showcasing its large display and integrated dash cam. Various accessories like the backup camera, 64GB SD card, and mounting brackets are also visible.

2. SAFETY INFORMATION

Always prioritize safety while operating this device. Ensure the unit is securely mounted and does not obstruct your view of the road or interfere with vehicle controls. Avoid operating the touchscreen or adjusting settings while driving. Utilize voice control features for hands-free operation whenever possible. Adhere to all local traffic laws and regulations regarding the use of in-car electronic devices.

3. WHAT'S IN THE BOX

- Car Stereo & User Manual
- Dash Cam & Backup Camera
- 64GB SD Card
- Suction Mount Bracket & Adhesive Sticker Bracket
- Cigarette Lighter Power Cord & AUX Audio Cable

4. SETUP AND INSTALLATION

The Leadfan Carplay Screen is designed for easy plug-and-play installation, requiring no professional assistance. It is compatible with a wide range of car brands and models (12-32V).

4.1 Mounting the Unit

Choose between the suction mount bracket for windshield mounting or the adhesive sticker bracket for dashboard mounting. Ensure the chosen location does not obstruct your view or interfere with airbags. The flexible base allows for angle adjustment to suit various dashboard designs.

Image: Demonstrates various mounting options for the unit, including dashboard mounting, windshield mounting, and telescopic regulation for optimal positioning.

4.2 Power Connection

Connect the unit to your car's cigarette lighter port using the provided power cord. The unit also features a USB-C port for power.

4.3 Camera Installation

The unit includes a 2.5K front camera (integrated) and a 1080P waterproof reversing camera. Install the backup camera at the rear of your vehicle, ensuring a clear view. Connect the camera cables to the designated ports on the main unit.

5. OPERATING INSTRUCTIONS

5.1 Wireless Apple CarPlay & Android Auto

To connect your smartphone, enable Bluetooth and Wi-Fi on your phone. On the Carplay screen, select the Apple CarPlay or Android Auto option. Follow the on-screen prompts to pair your device. Once connected, you can access your phone's apps, maps, music, and utilize voice control via Siri or Google Assistant.

Image: Illustrates the wireless connection process for both Apple CarPlay and Android Auto, showing the phone and screen interfaces.

5.2 Mirror Link Function

Use the Mirror Link function to display your phone's screen content directly on the portable stereo. This allows you to stream videos or other media from your smartphone. Ensure your phone's Wi-Fi and Bluetooth are enabled for this feature.

5.3 Audio Output Options

- **Built-In Speaker:** The unit has an integrated speaker for direct audio output.
- **Bluetooth:** Connect via Bluetooth to stream audio to your car's existing speakers.
- **AUX:** Plug the provided AUX cable into your car's AUX port for audio output.

- **FM Transmitting:** Adjust the FM transmitter on the unit to an empty radio channel and tune your car's FM radio to the same frequency to receive audio through your car speakers.

5.4 Camera Features

The unit features a 2.5K front dash cam and a 1080P waterproof reversing camera. Both cameras support high-definition color night vision and loop recording. The included 64GB TF card stores recorded footage. You can view live camera feeds or recorded playback directly on the screen. The screen supports split-screen display for simultaneous viewing of front and rear camera feeds.

Image: Shows the dual camera functionality, with split-screen display for both front (2.5K) and rear (1080P) camera views, highlighting loop recording and video playback.

5.5 Smart Voice Control & GPS Navigation

Utilize voice commands through Siri or Google Assistant for navigation, calls, and other functions. The 10.26-inch screen provides a clear display for GPS navigation, enhancing safety and convenience.

Image: Displays the voice control and GPS navigation interface, showing common voice commands and a map view.

5.6 Split-Screen Display

The unit supports various split-screen configurations, allowing you to view multiple applications simultaneously, such as navigation and music, or camera feeds alongside other functions.

5.7 Hands-Free Calling and Music

Make and receive calls hands-free through the connected smartphone. Enjoy your favorite music and audio content streamed from your phone to the car's speakers via Bluetooth or other audio output methods.

Video: This video demonstrates the user interface and key features of the Leadfan 10.26" Wireless Apple Carplay Screen. It shows the Google Maps navigation, switching to the reversing camera view (including split-screen for front and rear cameras), accessing Android Auto apps like Spotify and TuneIn Radio, setting up the FM transmitter, adjusting screen brightness, and navigating through the main menu options. It also highlights the playback feature for recorded dash cam footage and discusses the unit's power and connectivity options.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Leadfan Carplay Screen, follow these maintenance guidelines:

- Keep the screen clean using a soft, lint-free cloth. Avoid abrasive cleaners.
- Ensure all cables are securely connected to prevent signal loss or power interruptions.
- Periodically check the mounting brackets for stability.
- If the unit is not continuously powered, the internal clock may reset after about a week. Re-adjust the time settings as needed.
- The included 64GB TF card for the dash cam may require occasional formatting to maintain optimal recording performance. The unit will prompt you when formatting is needed.

7. TROUBLESHOOTING

If you encounter issues with your Leadfan Carplay Screen, refer to the following common problems and solutions:

- **Screen turns off or gets hot:** Ensure proper ventilation around the unit. If the issue persists, contact customer support.
- **Connectivity issues (Bluetooth/Wi-Fi):** If the unit doesn't connect immediately, try toggling your phone's Bluetooth on and off. Ensure both devices are within range.
- **Time/Date Reset:** If the unit's internal battery is not continuously powered, the time and date may reset. Access the settings menu to manually adjust the date and time.
- **Dash Cam Recording Issues:** Ensure the 64GB TF card is properly inserted. If prompted, format the card through the unit's settings.
- **Poor Audio Quality via FM Transmitter:** Ensure your car's FM radio is tuned to an empty channel and that the frequency on the Carplay screen matches your car radio's frequency.

8. SPECIFICATIONS

Feature	Specification
