1. PRODUCT OVERVIEW

This manual provides instructions for the Generic Baidi Air Space Fighter Aircraft Model 1:50. This highly detailed plastic model is designed for display and collection, accurately representing a military aircraft at a 1:50 scale. It comes brand new in its original box, ready for immediate display.

Key Features:

- Scale: 1:50
- Material: Durable Plastic
- Color: Gray
- Height: Approximately 14.2 inches
- Condition: Brand New with original box

2. SAFETY INFORMATION

Please read all safety information before handling the model.

- **Age Recommendation:** This product is recommended for individuals aged 15 and older. It is not a toy and may contain small parts that could pose a choking hazard for younger children.
- **Handling:** Handle the model with care to avoid damage to delicate parts.
- **Placement:** Place the model on a stable, flat surface to prevent it from falling and causing injury or damage.

3. SETUP

The Baidi Air Space Fighter Model comes pre-assembled and ready for display. No complex assembly is required.

Unboxing and Placement:

1. Carefully remove the model from its original packaging. Ensure all protective materials are removed without forcing or bending any parts.
2. Inspect the model for any signs of damage during transit.
3. Choose a suitable display location. The model is designed for tabletop display. Ensure the surface is level and free from vibrations.

4. Place the model gently on the chosen surface.

4. OPERATING (DISPLAY AND HANDLING)

This model is a static display item and does not require any operational procedures in the traditional sense. Its primary function is for exhibition and appreciation.

Display Guidelines:

- **Environment:** Display the model in a clean, dry environment away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation and color fading.
- **Stability:** Always ensure the model is placed on a stable surface to prevent accidental falls.
- **Handling:** When moving or adjusting the model, always lift it from its main body, avoiding delicate

parts like wings, antennas, or landing gear.

5. MAINTENANCE

Proper maintenance will help preserve the appearance and longevity of your model.

Cleaning Instructions:

- **Dusting:** Regularly dust the model with a soft, dry cloth or a soft-bristled brush to prevent dust buildup.
- **Wipe Clean:** For more stubborn dirt, lightly dampen a soft cloth with water (and a mild, non-abrasive cleaner if necessary) and gently wipe the surface. Avoid harsh chemicals or abrasive materials, as these can damage the matte finish and paint.
- **Drying:** Ensure the model is completely dry after cleaning before returning it to display.

Storage:

If storing the model, keep it in its original packaging or a protective container in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

As a static display model, troubleshooting is generally limited to physical damage or missing components.

Common Issues and Solutions:

- **Minor Scratches/Scuffs:** For minor surface imperfections, gentle cleaning as described in the Maintenance section may help. Avoid abrasive rubbing.
- **Missing or Broken Parts:** If you discover any parts are missing or broken upon unboxing, please contact the retailer or manufacturer immediately for assistance. Do not attempt to force parts or make unauthorized repairs.
- **Model Instability:** Ensure the display surface is level and stable. If the model itself feels unstable, check if any components are loose or bent.
