> 3in1 Connecting three devices simultaneously Upgraded USB Dongle Receiver for Valve Index Controllers for HTC Vive N7R for Steam VR Activity Receive

GFTVRCE USB Dongle Receiver N7R

GFTVRCE 3-in-1 USB Dongle Receiver User Manual

Model: USB Dongle Receiver N7R

PRODUCT OVERVIEW

The GFTVRCE 3-in-1 USB Dongle Receiver is designed to wirelessly connect your PC with SteamVR compatible devices. This upgraded dongle allows simultaneous connection of up to three devices, providing a seamless virtual reality experience. It is pre-flashed with watchman firmware, functioning similarly to Steam Controller, or HTC Vive Tracker dongles.

PACKAGE CONTENTS

Upon opening the package, please ensure all items listed below are present and in good condition:

- 1 x GFTVRCE 3-in-1 USB Dongle Receiver

SETUP INSTRUCTIONS

1. **Connect the Dongle:** Insert the GFTVRCE USB dongle into an available USB port on your PC.

2. **Driver Installation:** The necessary drivers will automatically install upon connection.
3. **Launch SteamVR:** Open the SteamVR application on your computer.
4. **Pair Devices:** Use the SteamVR app to pair your compatible devices (e.g., Valve Index Controllers, HTC Vive Tracker, HTC Vive Controllers, VR Ink Pilot) with the dongle. Follow the on-screen instructions within SteamVR for pairing.

Note: This dongle is not compatible with REVVL 4 PLUS devices.

OPERATING THE DEVICE

Once paired, the dongle facilitates wireless communication between your PC and the connected VR devices. Ensure your devices are charged and within range for optimal performance.

- **Simultaneous Connection:** The 3-in-1 version supports connecting up to three devices concurrently.
- **Compatibility:** This dongle is designed for pairing with Valve Index Controllers, HTC Vive Tracker, HTC Vive Controllers, and VR Ink Pilot for your PC VR setup.
- **Firmware:** The dongle comes pre-flashed with watchman firmware, ensuring compatibility and functionality similar to official Steam Controller or HTC Vive Tracker dongles.

MAINTENANCE

The GFTVRCE USB Dongle Receiver requires minimal maintenance to ensure longevity and optimal performance.

- **Cleaning:** Use a soft, dry cloth to gently wipe the exterior of the dongle. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the dongle in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the dongle by its body, avoiding excessive force on the USB connector.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Dongle not recognized by PC.	Loose connection, faulty USB port, driver issue.	Try a different USB port. Restart your PC. Ensure the dongle is fully inserted.
Devices not pairing.	Devices out of range, low battery, SteamVR issue.	Ensure devices are close to the dongle. Check device battery levels. Restart SteamVR.

Problem	Possible Cause	Solution
Interference or unstable connection.	Other wireless devices, USB 3.0 interference.	Move the dongle away from other wireless devices. Use a USB 2.0 port or a shielded USB extension cable if interference persists.
Cannot connect more than one device.	Incorrect dongle version, software limitation.	Ensure you have the 3-in-1 version. Verify SteamVR settings for multiple device support.

SPECIFICATIONS

- **Model:** USB Dongle Receiver N7R
- **Connectivity:** Wireless USB
- **Compatibility:** Valve Index Controllers, HTC Vive Tracker, HTC Vive Controllers, VR Ink Pilot (for PC VR setup)
- **Simultaneous Connections:** Up to 3 devices
