

EasyKeys LS001

EasyKeys RV Replacement Key for Southco LS001

Instruction Manual

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your EasyKeys RV Replacement Key for Southco LS001 locks. This key is specifically designed to replace lost or damaged keys for recreational vehicles equipped with Southco LS001 locking mechanisms. Please read these instructions carefully to ensure correct application and longevity of your key.

2. KEY FEATURES

- **RV Replacement Key:** Specifically manufactured for Southco LS001 locks found in RVs.
- **Custom Cut Key:** Each key is precisely cut to match the LS001 specification.
- **Durable Material:** Constructed from brass for reliability and extended use.
- **Adjustable Fit:** Designed for a secure and functional fit with compatible locks.

3. COMPATIBILITY

This replacement key is compatible with Southco LS001 locks. It is crucial to verify that your lock code and manufacturer match the product title to ensure proper function. The key works with locks from the following manufacturers:

- ESP, Keystone RV, Braxton Creek, Coachmen, Cruiser RV, Dutchmen, Fleetwood RV, Forest River, Grand Design RV, Gulf Stream, Heartland RV, Highland Ridge RV, HL Enterprise, KZ RV, Newmar, Pacific Coachworks, Palomino RV, Prime Time Manufacturing, Redwood RV, Thor Motor Coach, Venture RV, Crossroads RV, East To West RV, Advanced RV, Adventurer Manufacturing, Alaskan Campers, Allen Camper Mfg Co., Aliner
- Alliance RV, American Coach, Americana RV, Armadillo Trailers, Bigfoot Industries, Bowlus, Bundutec, Capri Camper, Casita Travel Trailers, Chalet RV, Chinook RV, Coach House, Cortes Campers, DRV Luxury Suites, Dynamax RV, EarthRoamer, Eclipse RV, Entegra Coach, Escape Trailer Industries, Four Wheel Campers, General Coach Canada, Genesis Supreme RV, Hallmark RV, Holiday Rambler, Host Industries, InTech RV
- KampaRoo Campers, Lance Camper, Lazy Daze, Leisure Travel Vans, Little Guy Trailers, Luxe, Midwest Automotive Designs, Monaco Coach Corporation, New Horizons, Nexus RV, Northern Lite, Northstar Campers, NuCamp, Oliver Travel Trailers, Outdoors RV Manufacturing, Panoramic RV,

Phoenix USA RV, Pleasure-Way, Regency RV, Renegade RV, Riverside RV, Roadtrek, Roulottes Prolite, Rugged Mountain Custom RV

- Safari Condo, Scamp Trailers, Shasta RV, Starcraft RV, Sunset Park RV, Tiffin Motorhomes, TrailManor, Travel Lite RV, VanLeigh RV, Weekend Warrior

4. IDENTIFYING YOUR LOCK CODE

Before ordering or using your replacement key, it is essential to correctly identify the lock code on your existing lock or key. This ensures you receive and use the correct replacement. Lock codes are manufacturer-specific, and key cuts differ even if codes appear similar.

Where to Find Your Lock Code

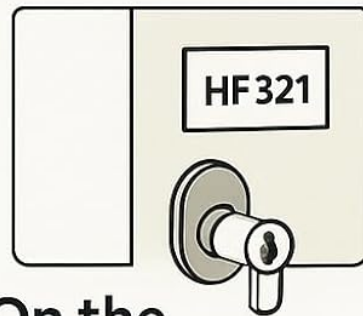

On the Key

On the Lock Face

**On a Label Inside/
Behind the Lock**

**On the
Cabinet/Door Label**

Important Notes

- Order by Manufacturer → Lock codes are manufacturer-specific.
- Key Cuts Differ → Even if codes look similar, they vary by brand.

Image 1: This diagram illustrates common locations where you can find your lock code. These include directly on the key, on the face of the lock cylinder, on a label positioned inside or behind the lock mechanism, or on a label affixed to the cabinet or door itself.

Image 2: A close-up view of the EasyKeys RV Replacement Key, clearly showing the 'LS001' code stamped on the key head, indicating its specific compatibility.

Common Locations for Lock Codes:

- **On the Original Key:** The code is often stamped directly on the head or shaft of your existing key.
- **On the Lock Face:** Look for the code engraved or printed on the visible part of the lock cylinder.
- **Inside/Behind the Lock:** Some codes are located on a sticker or engraving on the lock body, which may require opening the cabinet or panel to access.
- **On Cabinet/Door Label:** Occasionally, the lock code is provided on a label inside the RV cabinet or on the door frame.

5. USAGE

To use your EasyKeys RV Replacement Key:

1. **Insert the Key:** Gently insert the key into the Southco LS001 lock cylinder. Do not force the key.
2. **Turn to Operate:** Once fully inserted, turn the key clockwise or counter-clockwise as required to lock or unlock the mechanism.
3. **Remove the Key:** After operating the lock, turn the key back to its original position (usually vertical) and gently pull it out.

6. MAINTENANCE

Proper maintenance can extend the life of your key and lock:

- **Keep Clean:** Periodically wipe the key with a dry cloth to remove dirt or debris.
- **Lubrication:** If the lock mechanism becomes stiff, apply a small amount of graphite lubricant (not oil-based lubricants) into the keyway. Insert and remove the key several times to distribute the lubricant.
- **Avoid Bending:** Do not use excessive force when turning the key, as this can bend or break it.
- **Storage:** Store spare keys in a dry, safe place away from extreme temperatures or corrosive materials.

7. TROUBLESHOOTING

If you encounter issues with your replacement key, consider the following:

- **Key Does Not Insert Fully:** Check for obstructions in the keyway. Ensure the key is oriented

correctly. Verify that the key code matches your lock.

- **Key Inserts but Does Not Turn:** The key code may be incorrect for your specific lock. The lock mechanism might be jammed or corroded. Try applying graphite lubricant.
- **Key Feels Stiff:** Apply graphite lubricant to the lock cylinder. Ensure the lock mechanism is not under tension (e.g., a door pressing against the latch).

8. SPECIFICATIONS

| Specification | Detail |
|-----------------------------|--------------------------------|
| Brand | EasyKeys |
| Model Name | LS001 |
| Lock Type | Cam |
| Material | Brass |
