Nine West NW/2099WTTT

Nine West Women's Crystal Accented Bracelet Watch

Model: NW/2099WTTT

INTRODUCTION

This manual provides essential instructions for the setup, operation, and maintenance of your Nine West Women's Crystal Accented Bracelet Watch. Please read this guide thoroughly to ensure proper use and care of your timepiece.

PRODUCT OVERVIEW

The Nine West Women's Crystal Accented Bracelet Watch features a classic analog display with a white dial, gold-tone hands, and genuine crystal accented markers. It is designed with a two-tone adjustable link bracelet and a fold-over clasp with double push-button safety for secure wear.

SETUP

Setting the Time

1. Locate the crown (small knob) on the right side of the watch case.
2. Gently pull the crown outwards until you feel a click. This is the time-setting position.
3. Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
4. Once the correct time is set, push the crown back into its original position to engage the movement and

start the watch.

Adjusting the Bracelet

The watch features an adjustable link bracelet. For optimal fit, it may be necessary to remove or add links. It is recommended to have this adjustment performed by a professional jeweler to prevent damage to the bracelet or clasp mechanism.

OPERATING THE WATCH

Your Nine West watch is an analog timepiece designed for accurate timekeeping. Once the time is set, the Japanese Quartz movement will maintain precise time. No further daily adjustments are typically required unless the time needs to be reset due to battery change or travel.

Clasp Operation

To open the fold-over clasp with double push-button safety:

1. Press the two small buttons on the sides of the clasp simultaneously.
2. The clasp will release, allowing you to put on or take off the watch.
3. To close, align the two parts of the clasp and press firmly until you hear a click, ensuring both safety buttons are engaged.

MAINTENANCE

Cleaning Your Watch

To maintain the appearance of your watch, wipe it regularly with a soft, dry cloth. For the metal bracelet, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals or abrasive materials, as these can damage the finish and crystal.

Battery Replacement

This watch is powered by a battery. When the watch stops running, the battery will need to be replaced. It is recommended to take your watch to a qualified watch repair technician for battery replacement to ensure the integrity of the watch and prevent damage.

Water Resistance

IMPORTANT: This watch is NOT water resistant.

Avoid all contact with water, including showering, swimming, and heavy rain, to prevent damage to the internal components.

TROUBLESHOOTING

- **Watch Not Running:** Ensure the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **Incorrect Time:** If the time is incorrect, pull out the crown and reset the time as described in the 'Setting the Time' section.
- **Bracelet Discomfort:** If the bracelet is too tight or too loose, consider having links adjusted by a professional.
