Canarm 36x42-Inch LED Bathroom Mirror

INSTRUCTION MANUAL - MODEL LR8D01A3642D

1. Important Safety Instructions

Please read all instructions carefully before installation and use. Retain this manual for future reference.

- Ensure the power supply is disconnected at the circuit breaker before installation or maintenance.
- Installation must be performed by a qualified electrician in accordance with local electrical codes.
- Do not attempt to modify the mirror or its electrical components.
- Avoid using abrasive cleaners or sharp objects on the mirror surface.
- This mirror is designed for indoor use in bathroom environments.

2. Product Overview

The Canarm 36x42-Inch LED Bathroom Mirror is a frameless, rectangular mirror featuring integrated LED lighting, a touch-sensitive switch, and a built-in defogger. It is designed for wall-mounted installation.

This image displays the Canarm 36x42-Inch LED Bathroom Mirror from a slight angle, showcasing its frameless design and the illuminated LED border. The touch switch is visible at the bottom center of the mirror surface.

3. Specifications

Feature	Detail
Brand	Canarm
Model Number	LR8D01A3642D
Dimensions (L x W)	42 inches x 36 inches
Shape	Rectangular
Mounting Type	Wall Mount

Frame Material	Glass (Frameless)
Special Features	Fogless, Hardwired, Touch Sensor, Adjustable LED Lighting (3000-6000K)
Item Weight	39 Pounds
UPC	062345458557

This image illustrates the precise dimensions of the Canarm LED Bathroom Mirror, showing a width of 36 inches and a height of 42 inches, with measurement indicators.

4. Installation

The mirror is designed for hardwired installation. All necessary mounting hardware is included. Professional installation is recommended.

- 1. Preparation:** Ensure the power supply to the installation area is turned off at the main circuit breaker. Identify the desired mounting location and mark the positions for the mounting brackets.

2. **Mounting Brackets:** Securely attach the mounting brackets to the wall using appropriate fasteners for your wall type. Ensure they are level and spaced correctly for the mirror.
3. **Electrical Connection:** Connect the mirror's electrical wiring to the household wiring. Follow all local electrical codes and wiring diagrams provided. Ensure all connections are secure and insulated.
4. **Mounting the Mirror:** Carefully lift the mirror and align it with the wall brackets. Secure the mirror onto the brackets according to the specific design.
5. **Testing:** Once the mirror is securely mounted and wired, restore power at the circuit breaker and test all functions.

This image shows a side profile of the Canarm LED Bathroom Mirror, highlighting its slim design and how it sits flush against the wall, indicating its wall-mounted nature.

5. Operation

The mirror features a touch-sensitive control panel for its functions.

- **Power On/Off:** Lightly touch the power icon on the mirror surface to turn the LED lighting on or off.
- **Adjust LED Lighting:** With the light on, press and hold the power icon to cycle through the color temperature settings (3000K warm white to 6000K cool white). Release when the desired setting is reached.
- **Defogger Activation:** The defogger function is typically integrated with the main power or has a separate icon. Refer to the specific icon on your mirror for defogger activation. A single touch usually activates or deactivates the defogger.

This image provides a clear front view of the Canarm LED Bathroom Mirror, prominently displaying the touch-sensitive power icon at the bottom center, which controls the lighting and defogger functions.

6. Maintenance

Regular cleaning will help maintain the mirror's appearance and functionality.

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the

cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into electrical components.

- **Cleaning the Frame (if applicable):** For frameless mirrors, simply clean the edges with the same method.
- **Avoid:** Do not use harsh chemicals, abrasive pads, or acidic cleaners, as these can damage the mirror surface or electrical components.

7. Troubleshooting

If you encounter issues with your mirror, refer to the following common solutions:

- **LED Lights Not Working:**
 - Check if the power supply to the mirror is active at the circuit breaker.
 - Ensure all electrical connections are secure.
 - Verify the touch switch is functioning correctly by gently pressing it.
- **Defogger Not Activating:**
 - Confirm the defogger function is turned on via its dedicated touch control (if separate).
 - Allow a few minutes for the defogger to heat up and clear the mirror surface.
- **Touch Switch Unresponsive:**
 - Ensure the mirror surface around the touch switch is clean and dry.
 - Briefly cycle the power to the mirror at the circuit breaker to reset the system.

If problems persist after attempting these solutions, contact customer support.

8. Warranty and Support

For warranty information or technical assistance, please contact Canarm customer support. Details regarding warranty coverage and duration are typically provided with the product packaging or on the manufacturer's official website.

Contact Information: Refer to the contact details provided in your purchase documentation or visit the official Canarm website for support resources.
