Scosche BTFM9

Product Instruction Manual

Scosche BTFM9 FM Bluetooth Transmitter

Introduction

Welcome to the instruction manual for your Scosche BTFM9 FM Bluetooth Transmitter. This device is designed to enhance your in-car audio experience by providing wireless music streaming, hands-free calling, and convenient charging capabilities.

Key Features

- **Car FM Transmitter:** Experience superior sound quality and seamless connectivity with our Bluetooth FM Transmitter for Car. Effortlessly connecting to your car's FM radio, the Bluetooth car adapter enables wireless music streaming from your device via Bluetooth. It's the perfect solution to integrate Bluetooth for cars without Bluetooth.
- **Hands-Free Car Kit:** Make and receive calls effortlessly while driving with the Scosche Handsfree Bluetooth Car Kit. This Bluetooth car adapter makes it possible to connect your smartphone to your car stereo through the Bluetooth transmitter, allowing you to keep your hands on the wheel and eyes on the road.
- **12V Cigarette Lighter Adapter:** Plugs directly into your car's 12V cigarette lighter socket for unlimited transmitting and listening hours. This FM Bluetooth Transmitter car adapter doubles as a cigarette lighter charger and features dual USB-A and USB-C 12W charging ports, allowing you to charge multiple devices on the go.
- **Voice Command:** Equipped with easy-to-use controls for volume up/down, play/pause, answer/hang up the phone, our Scosche FM Bluetooth transmitter car is a must-have in Bluetooth car accessories. This versatile accessory supports Siri and Google Voice commands, enhancing your car audio receiver and providing a safer, hands-free driving experience.
- **Universal Compatibility:** Effortlessly connect any iPhone, iPod, Galaxy, MP3 player, smartphone, USB-A, USB-C, or other mobile devices with a 3.5mm aux port or Bluetooth. Enjoy your favorite music and make

hands-free calls with our Bluetooth FM transmitter car. For added peace of mind, it comes with a 3-year limited warranty.

Setup Guide

Package Contents

- Scosche BTFM9 FM Bluetooth Transmitter

Installation

Insert the Scosche BTFM9 into your vehicle's 12V cigarette lighter socket. The device will power on automatically.

The Scosche BTFM9 FM Bluetooth Transmitter plugged into a car's 12V power outlet.

Bluetooth Pairing

On your smartphone or Bluetooth-enabled device, navigate to the Bluetooth settings.

Search for available devices and select "Scosche BTFM9" to pair. A confirmation tone will sound upon successful connection.

A smartphone displaying a call screen, with the Scosche BTFM9 transmitter visible, illustrating its hands-free calling capability.

FM Frequency Tuning

Find an unused FM frequency on your car's radio. This should be a frequency with no active broadcast to minimize interference.

On the BTFM9, press the 'CH' (Channel) button to enter frequency adjustment mode.

Rotate the multi-function knob to match the frequency displayed on the BTFM9 to the unused frequency on your car's radio.

Operating Instructions

Music Playback

Once paired and tuned, play audio from your device. The sound will be transmitted through your car's speakers.

Use the multi-function knob on the BTFM9 to control playback:

- **Press:** Play/Pause
- **Rotate:** Adjust volume (or use your phone's volume control).
- **Press and Hold (left/right):** Skip tracks.

The Scosche BTFM9 transmitter plugged into a car's 12V outlet, with text indicating 'Low Latency Encoding Ensures Smooth and Stable Bluetooth Audio Streaming'.

Hands-Free Calling

The built-in microphone allows for clear hands-free calls.

When a call comes in, press the multi-function knob to answer. Press again to end the call.

To reject a call, press and hold the multi-function knob.

Maintenance

Keep the device clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.

Ensure the 12V socket and USB ports are free of dust and debris for optimal performance.

Store the device in a cool, dry place when not in use.

Troubleshooting

Issue	Possible Cause	Solution
Static or Poor Audio Quality	FM frequency interference	Find a new, clear FM frequency on your car radio and match the transmitter to it.
Device Not Powering On	Loose connection or vehicle's 12V socket issue	Ensure the transmitter is firmly seated in the 12V socket. Check if the vehicle's 12V socket is functional.
Bluetooth Not Connecting	Device not in pairing mode or already connected	Ensure Bluetooth is enabled on your phone. Forget the device from your phone's Bluetooth list and re-pair.
Charging Not Working	Cable issue or device not fully inserted	Try a different charging cable. Ensure the transmitter is fully inserted into the 12V socket.
