## MAINTENANCE

Proper care will extend the life and appearance of your cushion.

- **Cleaning:** The bench cushion is **not washable**. For cleaning, use a spot clean method only.
- **Storage:** To prolong the cushion's lifespan, especially in harsh weather conditions or during periods of non-use, it is recommended to store it in a dry, protected area.
- **Sun Exposure:** While designed for outdoor use, prolonged direct sun exposure can lead to color fading over time. Consider placing the cushion in shaded areas or covering it when not in use to minimize fading.

## TROUBLESHOOTING

- Cushion Appears Flat:** If the cushion appears flat after unpacking, allow it 24-48 hours to fully expand in a warm, well-ventilated space. Gently fluffing it can also help.
- Cushion Slides:** Ensure all six fastening ties are securely attached to your furniture frame. Re-tie them if necessary.
- Color Fading:** This is a natural process for outdoor fabrics exposed to sunlight. To minimize, store the cushion out of direct sunlight when not in use or use a protective cover.
