GRSICO GRA15

GRSICO Wireless Home Alarm System 15-Piece Kit (Model GRA15) Instruction Manual

Brand: GRSICO | Model: GRA15

1. INTRODUCTION AND SYSTEM OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your GRSICO Wireless Home Alarm System 15-Piece Kit. This system is designed to enhance home security with easy DIY setup, remote control via a smartphone application, and compatibility with smart home assistants.

Key Features:

- **Easy DIY Installation:** Set up the system in minutes without the need for complex wiring or drilling.
- **No Monthly Fees:** Enjoy comprehensive 24-hour home security protection with a one-time purchase.
- **Remotely Control:** Arm, disarm, and monitor your system anytime, anywhere using the Smart Life App.
- **Instant Alerts:** Receive immediate notifications on your smartphone and deter intruders with a 120dB alarm siren.
- **Smart Home Integration:** Works with Alexa and Google Assistant for convenient voice control.

2. WHAT'S INCLUDED IN YOUR KIT

Your GRSICO Wireless Home Alarm System 15-Piece Kit includes the following components:

- 1x Base Station (Alarm Siren)
- 2x Keypads
- 2x Remote Controls
- 2x Motion Sensors

- 8x Contact Sensors (for doors/windows)
- 1x Power Adapter
- 1x USB Charging Cable
- Mounting accessories (e.g., double-sided tape)
- User Manual

Image: A GRSICO contact sensor, consisting of two parts that detect when a door or window is opened.

3. Setup and Installation

The GRSICO Wireless Home Alarm System is designed for easy, do-it-yourself installation. Follow these steps to set up your system:

3.1. Powering the Base Station

1. Connect the power adapter to the base station and plug it into a wall outlet.
2. The base station has an internal backup battery that provides up to 8 hours of power during outages.

Image: The GRSICO base station, which serves as the central hub for the alarm system.

3.2. Installing Sensors

All sensors come with pre-installed batteries and can be easily mounted using the provided double-sided tape. No drilling is required.

Motion Sensors:

1. Choose a location where the motion sensor can cover a wide area, such as a corner of a room or a hallway.
2. Ensure the sensor is placed at an appropriate height (typically 6-8 feet from the floor) to optimize detection.
3. Peel off the backing from the double-sided tape and firmly press the motion sensor onto a clean, dry surface.

Easy DIY Setup in Minutes

Image: A person demonstrating the easy installation of a GRSICO motion sensor on a wall.

Contact Sensors (Door/Window Sensors):

1. Attach one part of the contact sensor to the door or window frame and the other part to the moving door or window.
2. Ensure the two parts are aligned and are no more than 1 cm apart when the door/window is closed.
3. Use the provided double-sided tape for secure attachment.

Image: A GRSICO door sensor installed on a window, designed to trigger an alarm if the window is opened.

3.3. Pairing Devices and App Setup

1. Download the **Smart Life App** from your smartphone's app store (available on iOS and Android).
2. Follow the in-app instructions to create an account and add your GRSICO Home Alarm System.
3. The app will guide you through pairing the base station, keypads, remote controls, and all sensors.
4. Ensure your home Wi-Fi network is stable for optimal performance.

4. OPERATING INSTRUCTIONS

Your GRSICO Home Alarm System offers multiple ways to arm and disarm, providing flexibility for your security needs.

4.1. Arming and Disarming the System

Using the Keypad:

1. Enter your personalized PIN code.
2. Press the appropriate button for your desired mode:
   - **Arm Away:** Activates all sensors.
   - **Arm Home:** Activates perimeter sensors (e.g., doors/windows) while allowing movement inside.
   - **Disarm:** Deactivates the alarm system.

Image: A GRSICO keypad with numerical buttons and mode selection for arming and disarming the system.

Using the Remote Control:

The remote control allows for quick arming and disarming with dedicated buttons:

- Press the **Lock** button to Arm Away.
- Press the **Home** button to Arm Home.
- Press the **Unlock** button to Disarm.

4.2. Panic Function

In case of an emergency, press the **Panic** button on the keypad or remote control to immediately trigger the 120dB alarm siren and send instant alerts to your smartphone.

4.3. App Control

The Smart Life App provides full control over your alarm system from anywhere with an internet connection. You can:

- Arm or disarm the system.
- Switch between Home and Away modes.
- View real-time status of all sensors.
- Receive instant notifications for triggered alarms or system status changes.
- Set schedules for arming and disarming.

5. SMART HOME INTEGRATION

The GRSICO Home Alarm System is compatible with popular smart home platforms, allowing for convenient voice control.

5.1. Voice Control with Alexa and Google Assistant

Integrate your alarm system with Amazon Alexa or Google Assistant for hands-free operation:

1. Enable the Smart Life skill/action in your Alexa or Google Home app.
2. Link your Smart Life account.

3. Use voice commands such as "Alexa, arm my system" or "Hey Google, disarm the alarm."

6. MAINTENANCE

Regular maintenance ensures the optimal performance and longevity of your alarm system.

6.1. Battery Replacement

- Sensors, keypads, and remote controls are battery-powered. The Smart Life App will notify you when batteries are low.
- Refer to the individual sensor/device instructions for specific battery types and replacement

procedures.

6.2. Base Station Charging

- The base station has a built-in backup battery. Ensure it is regularly connected to power to keep the backup battery charged.
- Use the provided USB-C charging cable and power adapter for charging.

7. TROUBLESHOOTING

If you encounter any issues with your GRSICO Home Alarm System, please refer to the following common solutions:

- **Device Not Responding:** Check battery levels and ensure the device is within range of the base station. Re-pair the device if necessary.
- **App Connectivity Issues:** Ensure your smartphone has a stable internet connection and that the Smart Life App is updated to the latest version. Restart the app or your phone.
- **False Alarms:** Verify that motion sensors are not placed in areas with pets or moving objects. Ensure contact sensors are securely attached and properly aligned.
- **Alarm Not Triggering:** Check if the system is armed in the correct mode (e.g., Arm Away for motion sensors). Verify sensor battery levels.

For further assistance, please contact GRSICO customer support.

8. SPECIFICATIONS
