Product Features

- **Cooling Comfort:** Features a top layer of ultra-breathable gel-infused Airflow Memory Foam designed to keep you cool and comfortable throughout the night.
- **Pressure Relief:** The Airflow memory foam maximizes air circulation while conforming to your body's shape, relieving pressure on joints.
- **Optimal Temperature:** A soft, breathable cover promotes airflow, helping to maintain an optimal sleep temperature.
- **Certified Safe Materials:** Constructed with CertiPUR-US® certified foam and an OEKO-TEX® certified mattress cover, ensuring the absence of harmful chemicals for a healthier sleep environment.

Made with certified safe foam & fabric

Setup Instructions

1. **Unpack the Box:** Carefully remove the compressed mattress from its shipping box. The mattress is rolled and vacuum-sealed in plastic.
2. **Position the Mattress:** Place the rolled mattress on your bed frame or foundation. Ensure it is positioned correctly before removing the plastic.
3. **Remove Plastic Packaging:** Carefully cut and remove the outer plastic layers. The mattress will begin to decompress immediately.
4. **Allow for Expansion:** Unroll the mattress and allow it to expand to its full shape. This process typically takes 24–72 hours. During this time, the mattress may have a new foam odor, which is normal and will dissipate. Ventilate the room if necessary.

Smaller boxes, reduced carbon footprint

Operating Instructions

Once fully expanded, your Zinus Cooling Essential Memory Foam Mattress is ready for use. This mattress is designed to provide a medium feel, offering a balance of softness and support. The cooling layers work continuously to dissipate heat, ensuring a comfortable sleep environment.

For optimal performance, ensure the mattress is placed on a sturdy, flat foundation or bed frame. Regular rotation of the mattress (head to foot) every 3-6 months can help promote even wear and extend its lifespan.

Maintenance

- **Spot Clean Only:** For spills or stains, clean the mattress cover using a mild detergent and a damp cloth. Do not machine wash or dry clean the cover, as this may damage the material and void the warranty.
- **Ventilation:** Periodically air out your mattress by removing bedding to allow for fresh air circulation, which helps maintain freshness and prevent moisture buildup.
- **Protection:** Consider using a mattress protector to shield against spills, stains, and allergens, extending the life of your mattress.

Troubleshooting

- **New Mattress Odor:** A slight odor is common with new foam mattresses. This 'new mattress smell' is harmless and typically dissipates within a few days in a well-ventilated room.
- **Incomplete Expansion:** If your mattress has not fully expanded after 72 hours, ensure it is on a flat surface and the room temperature is moderate. Cooler temperatures can slow down the expansion process. Contact customer support if issues persist.

- **Firmness Level:** The mattress is designed for a medium feel. Initial perception of firmness can vary. Allow a few weeks for your body to adjust to the new mattress and for the foam to fully settle.

Specifications

Feature	Detail
Product Dimensions	80"L x 60"W x 10"Th
Item Weight	56.76 Pounds
Item Firmness Description	Medium
Number of Layers	2.0
Fill Material	Memory Foam, High Density Foam
Cover Material	Plush
Age Range Description	Adult
Weight Limit	500 Pounds
