

EasyKeys RL03

EasyKeys RV Replacement Key for Bauer RL03 Instruction Manual

Brand: EasyKeys | Model: RL03

1. INTRODUCTION

This instruction manual provides essential information for the proper identification, use, and maintenance of your EasyKeys RV Replacement Key, specifically designed for Bauer lock series RL01-RL50. Please read this manual thoroughly to ensure correct application and optimal performance of your replacement key.

2. PRODUCT OVERVIEW

The EasyKeys RV Replacement Key is a custom-cut brass key designed to replace lost or damaged keys for recreational vehicles equipped with Bauer locks. This specific key is coded RL03, ensuring compatibility with locks requiring this particular key code within the Bauer RL series.

Figure 1: EasyKeys RV Replacement Key (Example shown with RL01 code for illustration)

This image displays a single replacement key, made of brass, with a circular head and a standard key blade. The key head is stamped with a code (e.g., "RL01" in the example image, but your key will be "RL03"). The key is designed for durability and precise fit.

3. COMPATIBILITY

This replacement key is specifically for Bauer lock series RL01 - RL50. It is crucial to verify that your existing lock requires an RL03 key code. The key is compatible with locks found on various RV manufacturers' models, including but not limited to:

- Keystone RV, Braxton Creek, Coachmen, Cruiser RV, Dutchmen, Fleetwood RV, Forest River, Grand Design RV, Gulf Stream, Heartland RV, Highland Ridge RV, HL Enterprise, KZ RV, Newmar, Pacific Coachworks, Palomino RV, Prime Time Manufacturing, Redwood RV, Thor Motor Coach, Venture RV, Crossroads RV, East To West RV, Advanced RV, Adventurer Manufacturing, Alaskan Campers, Allen Camper Mfg Co., Aliner
- Alliance RV, American Coach, Americana RV, Armadillo Trailers, Bigfoot Industries, Bowlus, Bundutec, Capri Camper, Casita Travel Trailers, Chalet RV, Chinook RV, Coach House, Cortes Campers, DRV Luxury Suites, Dynamax RV, EarthRoamer, Eclipse RV, Entegra Coach, Escape Trailer Industries, Four Wheel Campers, General Coach Canada, Genesis Supreme RV, Hallmark RV, Holiday Rambler, Host Industries, InTech RV
- KampaRoo Campers, Lance Camper, Lazy Daze, Leisure Travel Vans, Little Guy Trailers, Luxe, Midwest Automotive Designs, Monaco Coach Corporation, New Horizons, Nexus RV, Northern Lite, Northstar Campers, NuCamp, Oliver Travel Trailers, Outdoors RV Manufacturing, Panoramic RV, Phoenix USA RV, Pleasure-Way, Regency RV, Renegade RV, Riverside RV, Roadtrek, Roulottes Prolite, Rugged Mountain Custom RV
- Safari Condo, Scamp Trailers, Shasta RV, Starcraft RV, Sunset Park RV, Tiffin Motorhomes, TrailManor, Travel Lite RV, VanLeigh RV, Weekend Warrior

This key is also compatible with BAUER / ROLL N LOCK (GCODE) truck topper/cap locks and features a double-sided cut key design.

4. KEY IDENTIFICATION AND VERIFICATION

Before using your new replacement key, it is essential to verify that the key code matches your existing lock. The code for this key is RL03. You can typically find your lock code in several locations:

Where to Find Your Lock Code

On the Key

On the Lock Face

**On a Label Inside/
Behind the Lock**

**On the
Cabinet/Door Label**

Important Notes

- Order by Manufacturer → Lock codes are manufacturer-specific.
- Key Cuts Differ → Even if codes look similar, they vary by brand.

Figure 2: Where to Find Your Lock Code

This diagram illustrates common locations for lock codes: directly on an existing key (e.g., "FR322"), engraved on the face of the lock cylinder (e.g., "FR322"), on a sticker or label located inside or behind the lock mechanism (e.g., "CODE: G38"), or on a label affixed to the cabinet or door itself (e.g., "HF321"). Always ensure the code on your new key matches the code required by your lock.

- **On the Key:** If you have an existing key, the code is often stamped directly on the key head.

- **On the Lock Face:** The code may be engraved on the visible face of the lock cylinder.
- **Inside/Behind the Lock:** For some locks, the code is on a label or sticker located inside the door or behind the lock mechanism.
- **On a Cabinet/Door Label:** Occasionally, the code is provided on a label near the lock on the RV door or cabinet.

Important Note: Always order by manufacturer and lock code. Key cuts can differ significantly between brands, even if codes appear similar. Verify your lock code and manufacturer carefully before use.

5. OPERATING INSTRUCTIONS

1. **Insert the Key:** Gently insert the RL03 replacement key into the keyway of the Bauer lock. Do not force the key.
2. **Turn the Key:** Once fully inserted, turn the key clockwise or counter-clockwise, depending on the lock mechanism, to engage or disengage the lock.
3. **Remove the Key:** After locking or unlocking, return the key to its original insertion position (usually vertical) before gently pulling it out.

If the key does not insert smoothly or turn easily, do not force it. Refer to the Troubleshooting section.

6. MAINTENANCE

- **Keep Clean:** Keep your key clean and free from dirt, debris, or corrosive substances.
- **Lubrication:** If the lock mechanism becomes stiff, apply a small amount of graphite-based lubricant (not oil) into the keyway.
- **Storage:** Store spare keys in a safe, dry place to prevent loss or damage.
- **Avoid Bending:** Do not use the key for purposes other than operating the lock, as this can bend or break the key.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Key does not insert fully.	Obstruction in keyway, incorrect key, or bent key.	Check for debris in the keyway. Verify the key code (RL03) matches your lock. Inspect the key for bends or damage.
Key inserts but does not turn.	Incorrect key, worn lock mechanism, or lock is jammed.	Double-check the key code. Apply graphite lubricant to the lock. If the issue persists, the lock mechanism may require professional inspection or replacement.
Key feels stiff or difficult to turn.	Lack of lubrication, minor misalignment, or wear.	Apply a small amount of graphite lubricant into the keyway. Wiggle the key gently while turning.

8. SPECIFICATIONS

Brand: EasyKeys

Model Name: RL03

Manufacturer: Bauer (for compatible locks)

Material: Brass

Lock Type: Cam (for compatible locks)

Special Feature: Custom Cut Key, Durable

Item Dimensions (L x W x H): Approximately 0.5 x 0.5 x 1 inches

Item Weight: Approximately 4 ounces

Included Components: 1 Key
