Faroro WF01

Faroro WF01 Wireless Cat Water Fountain User Manual

Model: WF01

1. INTRODUCTION

This manual provides instructions for the Faroro WF01 Wireless Cat Water Fountain. This automatic, battery-powered pet fountain is designed to provide fresh water for cats, small dogs, and other small animals. It is intended for indoor use only. Key features include wireless operation, a long-lasting 5000 mAh rechargeable battery, a safe design with battery separation, multiple water dispensing modes, an ultra-quiet pump, and a multi-level filtration system for optimal water quality.

Image 1.1: The Faroro WF01 Wireless Cat Water Fountain, a compact and modern pet hydration solution.

120° Wide View Infrared Sensing

Senses your pet within 2m and activates water flow

Image 1.2: Illustration demonstrating the flexibility of placing the wireless cat fountain in various indoor locations such as a bedroom, aisle, or parlor.

2. SETUP AND ASSEMBLY

The Faroro WF01 fountain features a detachable structure for easy assembly. Follow these steps to set up your fountain:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components listed in the diagram below are present.

2. **Install Filter:** Place the filter pack into the designated slot within the water tank. Ensure the high-density sponge is correctly positioned.
3. **Assemble Water Pump and Dispensing Tube:** Connect the water pump to the water dispensing tube, then securely attach this assembly to the main engine unit.
4. **Place Drinking Tray:** Position the drinking tray onto the water tank, ensuring it aligns correctly with the water dispensing tube.
5. **Secure Main Engine:** Place the main engine unit onto the drinking tray, ensuring it is firmly seated and the water dispensing tube connects properly.
6. **Charge Battery:** Before first use, fully charge the integrated 5000 mAh battery using the provided Type-C charging cord. The battery section is designed for easy removal for charging.
7. **Fill Water Tank:** Fill the water tank with clean, fresh water up to the maximum fill line, visible through the transparent window.

Easier and Safer Recharge

Removable battery, no need to
move the whole fountain for recharging

Image 2.2: A cat resting near the fountain's main engine, which is detached and connected to a wall charger via a Type-C cable, illustrating the convenient separate battery charging feature.

3. OPERATING INSTRUCTIONS

The Faroro WF01 offers three distinct water dispensing modes to suit your pet's needs. Use the 'SET' button on the main engine to cycle through the modes.

- **Induction Mode:** Water is dispensed for 15 seconds when your pet is detected within a 2-meter range and a 120° angle. This

mode conserves battery life and encourages drinking when needed.

- **Timer Mode:** Water is dispensed for 15 seconds every 15 minutes, providing regular access to fresh water.
- **Continuous Mode:** Water is dispensed continuously. This mode only operates when the fountain is plugged into a power source.

Cordless Restraint, Place it Anywhere

Flexible to set up wherever they want

Image 3.1: A cat approaching the fountain, demonstrating the 120° wide-view infrared sensing that activates water flow when a pet is within 2 meters.

Long-lasting Battery

Over 40 days of running on a single charge

5000
mAh Battery

Note: Battery life is calculated based on 1 cat household daily in induction mode

Image 3.2: An overhead view of a cat drinking from the fountain, highlighting the 'SET' button on the main engine for mode selection and the 5000 mAh battery capacity.

The integrated 5000 mAh rechargeable battery provides extended operation. Battery life is calculated based on 1 cat household daily in induction mode, offering over 40 days of use on a single charge.

Work in Ultra Silence (30dB)

Pets Sleep Soundly

Image 3.3: A cat sleeping peacefully next to the fountain, emphasizing its ultra-quiet operation at less than 30dB, ensuring minimal disturbance.

4. MAINTENANCE AND CLEANING

Regular cleaning and maintenance are crucial for your pet's health and the longevity of the fountain.

4.1. Cleaning the Fountain

1. **Disassemble:** Turn off the fountain and unplug if in continuous mode. Disassemble all components as shown in the setup diagram.
2. **Wash Components:** Wash the water tank, drinking tray, and water dispensing tube with mild soap and water. Rinse thoroughly to remove all soap residue.
3. **Clean Pump:** Gently clean the water pump. Ensure no debris obstructs the impeller.
4. **Dry:** Dry all components completely before reassembly.

Easy Setup and Cleaning

Detachable structure for a easy assembly
and a quick cleaning

Image 4.1: The fountain disassembled with water splashing, illustrating the ease of cleaning due to its detachable structure.

4.2. Filter Replacement

The fountain features a 5-level filtration system to ensure fresh and healthy water.

- **Filtration Layers:** Non-woven fabric, ion exchange resin, activated carbon, medical stone, and high-density sponge.
- **Replacement Frequency:** It is recommended to replace the filter and filter sponge every 2 to 4 weeks, depending on usage and water quality.
- **Replacement Filters:** Search for "B0D46BNW2W" to purchase replacement filters.

4 - Layer Water Circulation Filtration System

*It is recommend to replace filter once every 2-4 weekes

Image 4.2: A detailed diagram illustrating the 4-layer water circulation filtration system, including non-woven fabric, ion exchange resin, activated carbon, medical stone, and high-density sponge.

5. TROUBLESHOOTING

If you encounter issues with your Faroro WF01 Cat Water Fountain, refer to the following common solutions:

Problem	Possible Cause	Solution
No water dispensing	Low water level, discharged battery, clogged pump/filter, incorrect mode.	Refill water tank. Recharge battery. Clean pump and replace filter. Check operating mode.
Fountain is noisy	Low water level, debris in pump, improper assembly.	Ensure water level is adequate. Clean the pump impeller. Reassemble components correctly.
Water quality issues	Expired filter, infrequent cleaning.	Replace filter and sponge. Clean the fountain regularly (weekly recommended).
Motion sensor not activating	Obstruction, sensor dirty, incorrect mode.	Ensure clear path to sensor. Clean sensor window. Verify Induction Mode is selected.
Pump stops unexpectedly	Low water level (safety shutdown).	Refill water tank immediately. The pump automatically shuts off to prevent overheating when water levels are too low.

6. SPECIFICATIONS

- **Brand:** Faroro
- **Model Number:** WF01
- **Color:** White
- **Product Dimensions (L x W x H):** 26 x 17 x 17.5 cm
- **Item Weight:** 700 grams
- **Capacity:** 2.5 Liters
- **Power:** 5 Watts
- **Voltage:** 12 Volts (DC)
- **Material:** Acrylonitrile Butadiene Styrene (ABS)
- **Battery:** 1 C-cell (included), 5000 mAh rechargeable
- **Noise Level:** ≤ 30 dB
- **Certifications:** CE
- **UPC:** 810112232844

7. WARRANTY AND SUPPORT

Faroro provides a 2-year warranty for this product. For any issues or inquiries, please do not hesitate to contact us. Customer satisfaction is our priority.

Please refer to your purchase documentation for specific contact information or visit the official Faroro website for support.
