BIGASUO Frame Stand Instruction Manual

For Digital Picture Frame Models 102K and 102KZ

INTRODUCTION

This manual provides instructions for the BIGASUO Frame Stand, designed exclusively for BIGASUO Digital Picture Frame models 102K and 102KZ. This stand is engineered to provide stable support for your digital picture frame, allowing for both horizontal and vertical display orientations.

The stand's compact and durable structure ensures the safety and steadiness of your displayed pictures by effectively shielding them from external vibrations.

SETUP INSTRUCTIONS

Follow these steps to correctly attach the frame stand to your digital picture frame.

- Identify the Stand Slot:** Locate the designated slot on the back of your BIGASUO Digital Picture Frame (models 102K or 102KZ). This slot is specifically designed to receive the frame stand.
- Align the Stand:** Take the BIGASUO Frame Stand. Align the insertion tab of the stand with the slot on the back of the digital picture frame. Ensure the stand is oriented correctly for the desired display angle.
- Insert the Stand:** Gently push the stand's tab into the slot until it is securely seated. You may feel a slight click or resistance, indicating it is properly engaged. Do not force the stand if it does not slide in easily; re-check alignment.
- Verify Stability:** Once inserted, place the digital picture frame on a flat, stable surface. Gently test the stability of the frame with the attached stand to ensure it is firm and does not wobble.

OPERATING THE STAND

The BIGASUO Frame Stand allows for flexible display options for your digital picture frame.

- **Horizontal Display:** Position the frame stand to support the digital picture frame in a landscape (horizontal) orientation.
- **Vertical Display:** Reposition the frame stand to support the digital picture frame in a portrait (vertical) orientation. The stand's design accommodates both orientations for versatile viewing.

Ensure the stand is fully inserted and stable in the desired orientation before leaving the frame unattended.

MAINTENANCE

To ensure the longevity and appearance of your BIGASUO Frame Stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the stand with a soft, dry, lint-free cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth.

- **Avoid Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the plastic material and finish of the stand.
- **Storage:** If storing the stand separately, keep it in a clean, dry place away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your frame stand, refer to the following common solutions:
