- Enable battery saver mode in **Settings** > **Battery**.

10. MAINTENANCE

10.1 Cleaning the Tablet

- Use a soft, lint-free cloth to clean the screen and body of the tablet.
- For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics.
- Avoid using harsh chemicals, abrasive materials, or excessive moisture.

10.2 Software Updates

Regularly check for and install software updates to ensure optimal performance and security.

1. Go to **Settings** > **System** > **System update**.
2. Follow the on-screen instructions to check for and install any available updates.

10.3 Data Backup

It is recommended to regularly back up your important data to cloud storage or an external device to prevent data loss.

11. TROUBLESHOOTING

This section addresses common issues you might encounter with your ANTEMPER D116 tablet.

Problem	Possible Solution
Tablet does not power on.	Ensure the tablet is charged. Connect the charger and wait a few minutes before attempting to power on again. If unresponsive, perform a hard reset by holding the power button for 10-15 seconds.
Wi-Fi connection issues.	Check if Wi-Fi is enabled in settings. Restart your router and the tablet. Forget the network and reconnect. Ensure you are within range of the Wi-Fi signal.
Bluetooth device not pairing.	Ensure Bluetooth is enabled on both devices and the accessory is in pairing mode. Move devices closer together. Restart both devices.
Tablet is slow or unresponsive.	Close unused background applications. Clear cache for frequently used apps. Restart the tablet. Check available storage space.
Screen is unresponsive.	Restart the tablet. If the issue persists, contact customer support.
SD card not detected.	Ensure the SD card is properly inserted. Try reinserting it. Test with another SD card if possible. Format the SD card (this will erase all data).
