- **Display:** Place the completed model on a stable surface as a decorative item. Its detailed design makes it suitable for desks, shelves, or display cabinets.
- **Gentle Play:** The model can withstand gentle handling. Avoid rough play, dropping, or applying excessive force, as this may cause parts to detach or the model to break.
- **Movable Parts:** Some components, such as the turret, may have limited articulation. Operate these parts gently to prevent damage.

6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your MEIEST M1128 Mobile Gun System model, follow these simple care guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.

- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the plastic colors to fade over time. Store or display the model in a shaded area.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss and protect them from dust.

7. TROUBLESHOOTING

Should you encounter any issues during assembly or with the completed model, consider the following:

- **Loose Connections:** If parts feel loose or detach easily, re-examine the assembly step in the instruction booklet. Ensure blocks are fully pressed together. Gentle application of a small amount of model adhesive (not included) can be used for permanent connections, but this is generally not recommended for standard building block sets.
- **Missing Pieces:** In the rare event of missing components, carefully re-check the packaging and your work area. If pieces are genuinely missing, please contact MEIEST customer support for assistance.
- **Difficulty with Instructions:** If the assembly instructions are unclear, try reviewing the illustrations carefully or seeking online community resources for similar building block sets.
