OPERATING AND USAGE

Once loaded into your Phomemo printer, these labels are ready for printing. Use the Phomemo app or software provided with your printer to design and print your desired content.

Application Examples:

- Business labels
- Express shipping labels
- Address labels
- Barcode and QR code labels
- Home storage organization labels
- Clothing tags
- Price tags

MAINTENANCE AND STORAGE

To ensure the longevity and quality of your Phomemo labels, follow these storage guidelines:

- Store labels in a cool, dry place, away from direct sunlight and high humidity.
- Avoid exposure to extreme temperatures (recommended storage temperature: 5°C - 40°C).
- Keep labels in their original packaging until ready for use to protect them from dust and damage.
- Do not expose labels to chemicals or abrasive materials.

TROUBLESHOOTING

Common Issues and Solutions:

Issue	Possible Cause	Solution
Labels not sticking	Surface is dirty, oily, or wet; label applied incorrectly.	Ensure surface is clean and dry before application. Apply firm, even pressure.

Issue	Possible Cause	Solution
Poor print quality	Printer head dirty; incorrect printer settings; labels stored improperly.	Clean printer head according to printer manual. Check printer settings. Ensure labels are stored in a cool, dry place.
Labels tearing or jamming	Incorrect label loading; damaged label roll.	Refer to your printer manual for correct label loading. Inspect label roll for damage before loading.

SPECIFICATIONS

| Attribute	Detail
