

MAONO UL11

MAONO UL11 USB C Lavalier Microphone Instruction Manual

Model: UL11 | Brand: MAONO

INTRODUCTION

Thank you for choosing the MAONO UL11 USB C Lavalier Microphone. This omnidirectional condenser lapel microphone is designed to provide clear, high-fidelity audio for various applications, including recording, interviews, video podcasts, vlogging, YouTube, and TikTok. This manual will guide you through the setup, operation, and maintenance of your new microphone to ensure optimal performance.

WHAT'S IN THE BOX

- 1 x MAONO UL11 USB Type-C Lavalier Microphone (78 inches / 2 meters cable)
- 1 x Aluminum Lapel Clip
- 1 x Foam Windscreen
- 1 x User Manual

SETUP INSTRUCTIONS

The MAONO UL11 microphone is designed for plug-and-play convenience. No additional drivers or software are typically required for most compatible devices.

1. **Attach the Lapel Clip:** Securely attach the aluminum lapel clip to the microphone body.

PLUG AND PLAY, EASY TO USE

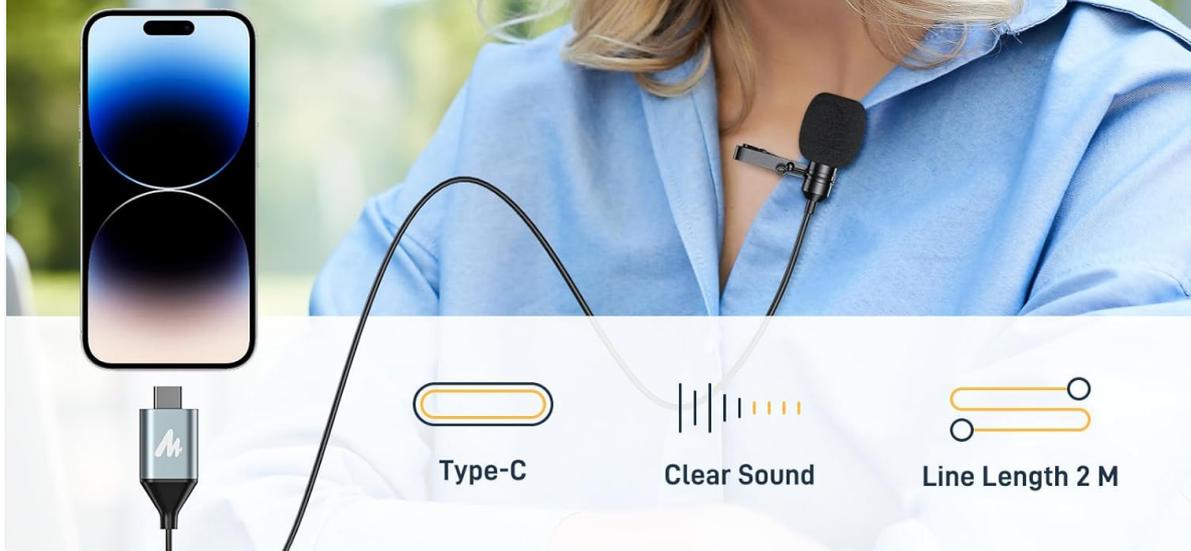

Image: Attaching the lapel clip to the microphone.

2. **Attach the Foam Windscreen:** Gently slide the foam windscreen over the microphone capsule. This helps reduce plosive sounds and wind noise.
3. **Connect to Device:** Plug the USB Type-C connector of the microphone directly into the USB-C port of your compatible device (smartphone, tablet, laptop, PC).

Image: The USB-C connector of the microphone being plugged into a device.

4. **Device Recognition:** Your device should automatically recognize the microphone as an external audio input. You may need to select it as the default input device in your device's sound settings or recording application.

OPERATING INSTRUCTIONS

The MAONO UL11 is an omnidirectional microphone, meaning it picks up sound equally from all directions. This makes it ideal for capturing ambient sound and voices from multiple speakers.

1. **Placement:** Clip the microphone to your clothing, ideally about 6-8 inches (15-20 cm) below your chin, to ensure clear voice capture. Avoid placing it too close to your mouth to prevent plosives.

Image: Proper placement of the lavalier microphone on clothing.

2. **Recording:** Open your preferred recording application on your device. Ensure the MAONO UL11 is selected as the audio input. Begin recording.
3. **Monitoring (if supported by device/app):** Some devices or applications allow real-time audio monitoring. If available, use headphones to listen to your audio as you record to ensure optimal levels and clarity.
4. **Sound Quality:** The microphone features a high sampling rate (192kHz) and bit depth (24bit) for detailed and lifelike audio capture. The high-density spray-proof sponge and omnidirectional pickup ensure clear natural sound.

CRYSTAL-CLEAR AUDIO

Designed for high quality sound

COMPATIBILITY

The MAONO UL11 USB C Lavalier Microphone offers wide compatibility with various devices:

- **Compatible with:** iOS (iPhone 15 and above), Android smartphones, iPads, Computers (PC, Laptops, Desktops, Macs, Notebooks) with a USB-C port.
- **Not compatible with:** Android phones with a Micro USB port, laptops with only a USB-A port (unless using an adapter, not included), iPhone models without a USB-C port (e.g., iPhone 14, iPhone 13, etc.).

TROUBLESHOOTING

If you encounter any issues, please refer to the following common solutions:

- **"USB accessory not supported," "Device not recognized," or "Port function temporarily disabled" message:** Unplug the microphone from the recording device. Inspect the recording device's USB-C port for dust or other debris that might be blocking it. Clean the port carefully if necessary. Restart the recording device and then re-plug the microphone.
- **No Sound/Low Volume:**
 - Ensure the microphone is securely plugged into the USB-C port.
 - Check your device's sound settings to confirm the MAONO UL11 is selected as the input device.
 - Adjust the input volume/gain settings within your recording application or device's sound preferences.
 - Ensure the microphone is clipped correctly and not obstructed.

SPECIFICATIONS

Microphone Form Factor	Lavalier
------------------------	----------

Polar Pattern	Omnidirectional
Connectivity Technology	USB Type C
Connector Type	USB Type-C
Signal-to-Noise Ratio	80 dB
Hardware Platform	Laptop, PC, Smartphone
