PRODUCT OVERVIEW

The Joyway 20-inch Carry-On Luggage is designed for convenience and durability, featuring a hardside construction and smart travel functionalities.

Key Features:

- **Durable Construction:** Made from PP+ABS material for lightweight strength and impact resistance.
- **Expandable Design:** Offers 20% more packing space for increased capacity.
- **360° Spinner Wheels:** Dual, lockable wheels provide smooth, multi-directional movement.
- **Adjustable Telescoping Handle:** Ergonomic 3-step handle for comfortable maneuvering.
- **Integrated Smart Features:** Includes a smart cup holder, USB and USB-C charging ports (power bank not included), and front/side hooks.
- **TSA Combination Lock:** Ensures security and compliance with travel regulations.

- **Organized Interior:** Features mesh pockets and elastic cross straps for secure packing.

SETUP

Initial Inspection:

Upon receiving your Joyway luggage, inspect it for any signs of damage during transit. If any damage is found, please contact customer support immediately.

Setting the TSA Combination Lock:

Your luggage is equipped with a 3-digit TSA combination lock. The default combination is 0-0-0.

1. Ensure the dials are set to the original numbers, 0-0-0.
2. Locate the reset button (b), usually a small hole on the side of the lock. Use a pen or a pointed tool to press down the reset button until you hear a "click" sound.
3. While the reset button is pressed, set your desired 3-digit combination by turning the dials (a). For example, 8-8-8.
4. Push the button (c) in the direction of the arrow. You will hear another "click" sound, indicating your new combination is set.

Remember your new combination. If you forget it, you will need to contact customer support for assistance.

OPERATING INSTRUCTIONS

Using the Expandable Design:

To increase your packing capacity by 20%, locate the expansion zipper around the perimeter of the luggage. Unzip this zipper to expand the luggage compartment. Zip it back up to return to the standard size.

USB Charging Ports:

Your luggage includes external USB and USB-C charging ports. To use these, connect your own power bank (not included) to the internal cable located within the luggage. Then, connect your device to the external port to charge.

Smart Cup Holder and Hooks:

- **Cup Holder:** A retractable cup holder is located on the back of the luggage. Gently pull it out to hold

your beverage and push it back in when not in use.

- **Front Portable Hook:** Use the front hook to hang small bags or accessories, freeing your hands.
- **Side Hook:** A dedicated side hook is provided for easy access to items like boarding passes.

Spinner Wheels:

The four dual spinner wheels rotate 360 degrees, allowing for effortless movement in any direction. The wheels are also lockable for stability when stationary. To lock, press down on the small lever located on each wheel. To unlock, lift the lever.

Expandable & Cup Holder Function

The duffel bag can be easily attached to the extended handle of the luggage by its rear pocket sleeve

MAINTENANCE

Cleaning:

To clean the exterior of your hardside luggage, wipe it with a soft cloth dampened with warm water and mild soap. For stubborn marks, a gentle cleaner suitable for ABS/PP plastics can be used. Avoid abrasive cleaners or solvents that may damage the surface. For the interior, vacuum or wipe with a damp cloth as needed.

Storage:

Store your luggage in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is clean and dry before storage to prevent mold or mildew.

TROUBLESHOOTING

Wheels Not Rolling Smoothly:

Check for debris (hair, lint, dirt) caught in the wheel mechanisms. Clean the wheels thoroughly. If the issue persists, ensure the wheels are not locked.

Telescoping Handle Sticks:

Ensure no items are obstructing the handle mechanism inside the luggage. Gently extend and retract the handle a few times. Avoid forcing the handle.

TSA Lock Issues:

If you cannot open the lock, double-check your combination. If you have forgotten your combination, there is no universal reset code; you may need to contact Joyway customer service for guidance.

USB Port Not Charging:

Verify that your power bank is fully charged and correctly connected to the internal cable. Ensure your device's charging cable is securely plugged into the external USB port.
