AEG 14004449808

AEG Dryer Door Trim Ring User Manual

Model: 14004449808 | Brand: AEG

1. Product Overview

This document provides essential information regarding the AEG Dryer Door Trim Ring, part number 14004449808. This component is an original manufacturer spare part designed for specific AEG dryer models. Its primary function is to provide a finished edge around the dryer door opening, ensuring proper fit and aesthetic integration.

Figure 1: AEG Dryer Door Trim Ring (Part No. 14004449808)

This image displays the AEG Dryer Door Trim Ring, a circular grey plastic component designed to fit around the dryer door opening. It features multiple screw holes and various tabs for secure attachment to the appliance.

2. Compatibility

This original spare part is compatible with the following AEG dryer models:

- T7DBG832R - 91609812200
- T7DEE832R - 91609811800

- T7DEE835R - 91609811700
- T7DSE83B - 91609815500
- T8DB68EX - 91609807802
- T8DBG842R - 91609811500
- T8DBG862 - 91609817200
- T8DE76585 - 91609792701
- T8DE76585 - 91609792702
- T8DEC48SP - 91609817100
- *And other compatible models not explicitly listed.*

Always verify compatibility with your specific appliance model before installation. The model number of your appliance can typically be found on a rating plate located on the appliance itself.

3. Installation

The AEG Dryer Door Trim Ring is a component that requires careful installation to ensure proper function and safety of the appliance. Due to the nature of appliance repair, it is highly recommended that installation be performed by a qualified technician or an individual with experience in appliance servicing.

General Installation Guidelines (for qualified personnel):

1. **Safety First:** Always disconnect the dryer from the main power supply before attempting any installation or repair.
2. **Access:** Gain access to the dryer's door assembly, which may involve removing the front panel or other components depending on the dryer model.
3. **Removal of Old Part:** Carefully unfasten and remove the old or damaged door trim ring. Note the orientation and attachment points.
4. **Preparation:** Clean the area where the new trim ring will be installed, ensuring no debris interferes with the fit.
5. **New Part Installation:** Position the new AEG Door Trim Ring (Part No. 14004449808) correctly and secure it using the appropriate fasteners. Ensure all tabs and screw holes align perfectly.
6. **Reassembly:** Reassemble any panels or components that were removed to access the door assembly.
7. **Testing:** Once fully reassembled, reconnect the dryer to the power supply and perform a functional test to ensure the door opens and closes smoothly and the trim ring is securely in place.

Refer to your specific dryer model's service manual for detailed, step-by-step installation instructions and safety precautions.

4. Maintenance

The AEG Dryer Door Trim Ring is designed for durability and typically requires minimal maintenance. However, periodic inspection can help prolong its lifespan and ensure optimal dryer performance.

- **Regular Inspection:** Periodically check the trim ring for any signs of cracks, warping, or loose fasteners.
- **Cleaning:** If lint or debris accumulates around the trim ring, gently wipe it clean with a soft, damp cloth. Avoid abrasive cleaners that could damage the plastic.
- **Secure Fit:** Ensure the trim ring remains securely attached to the dryer. If it becomes loose, it may need to be re-secured or replaced.

5. Troubleshooting

If you experience issues related to the dryer door trim ring, consider the following:

- **Loose or Detached Trim Ring:** If the trim ring is loose, inspect its attachment points. It may need to be re-secured with screws or clips. If the plastic is broken, the part will need replacement.
- **Cracked or Broken Trim Ring:** Physical damage to the trim ring, such as cracks or breaks, typically necessitates replacement of the part. A damaged trim ring can affect the dryer's appearance and potentially its door seal.
- **Door Not Closing Properly:** While less common for a trim ring, if the door is not closing correctly and the trim ring appears misaligned or damaged, it could be a contributing factor. Inspect for proper seating of the trim ring.

For complex issues or if you are unsure about the cause of a problem, it is advisable to consult a professional appliance repair technician.

6. Specifications

Attribute	Detail
Part Name	Dryer Door Trim Ring
Brand	AEG
Manufacturer	Electrolux
Manufacturer Reference / Model Number	14004449808
ASIN	B0CSPHRD21
First Available Date	January 18, 2024

7. Warranty and Support

For specific warranty information regarding the AEG Dryer Door Trim Ring (Part No. 14004449808), please refer to the terms and conditions provided by the original manufacturer, AEG/Electrolux, or the retailer from whom the part was purchased. Warranty coverage typically applies to manufacturing defects.

For technical support or assistance with installation, it is recommended to contact a certified appliance technician or the official AEG customer service channels. Always provide your appliance's full model number and serial number when seeking support.
