

## EasyKeys K581

# EasyKeys XL Locks K581 Toolbox Replacement Key Instruction Manual

## 1. PRODUCT OVERVIEW

This manual provides essential instructions for the EasyKeys XL Locks K581 Replacement Key. This key is specifically designed for XL Locks systems, commonly found in toolboxes and other applications requiring a K581 code. It is a custom-cut key made from durable brass material, ensuring reliable operation for compatible locks.

## 2. KEY IDENTIFICATION

Before using your replacement key, it is crucial to verify that the lock code on your existing key or lock matches 'K581'. The lock code is typically stamped directly on the key or engraved on the face of the lock cylinder. In some cases, it may be found on a label inside or behind the lock mechanism, or on a cabinet/door label associated with the lock.

# Where to Find Your Lock Code

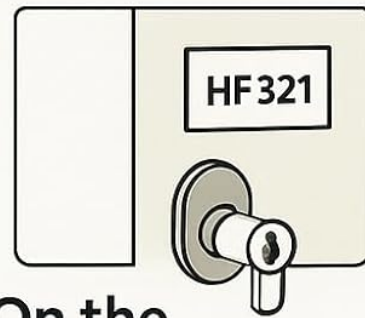

**On the Key**

**On the Lock Face**

**On a Label Inside/  
Behind the Lock**

**On the  
Cabinet/Door Label**

## Important Notes

- Order by Manufacturer → Lock codes are manufacturer-specific.
- Key Cuts Differ → Even if codes look similar, they vary by brand.

This diagram illustrates common locations where you can find the lock code for your XL Locks system. Always ensure the code matches K581 before attempting to use the replacement key.

The EasyKeys K581 replacement key, designed for XL Locks. Note the specific cut and shape.

### 3. USAGE INSTRUCTIONS

---

1. **Insert the Key:** Gently insert the K581 replacement key into the lock cylinder. Do not force the key if it does not slide in smoothly.
2. **Turn the Key:** Once fully inserted, turn the key clockwise or counter-clockwise, depending on the lock mechanism, to engage or disengage the lock.
3. **Remove the Key:** After operating the lock, return the key to its original position (usually vertical) before carefully removing it.

### 4. MAINTENANCE

---

To ensure the longevity and proper function of your K581 replacement key and the corresponding lock:

- Keep the key clean and free from dirt or debris.
- Avoid bending or applying excessive force to the key.
- Store the key in a dry place to prevent corrosion.

### 5. TROUBLESHOOTING

---

#### Key Does Not Insert Smoothly:

- Verify that the lock code on your lock matches K581.
- Check for any obstructions in the lock cylinder.
- Ensure the key is oriented correctly.
- Do not force the key, as this can damage both the key and the lock.
- If the issue persists, the lock mechanism may require professional inspection.

#### Key Turns But Lock Does Not Operate:

- The internal mechanism of the lock may be damaged or jammed. This typically requires professional repair or replacement of the lock.
