2. SAFETY INFORMATION

Always use caution when handling and installing this heavy vanity. Keep hands and fingers away from the soft-closing doors and drawers to prevent pinch points. Be careful not to damage or slip on the marble countertop. This vanity is intended for indoor use only.

It is recommended that two people handle the vanity and countertop during installation due to their weight and size.

3. WHAT'S INCLUDED

- Vanity Base Cabinet (36"W)
- Italian Carrara Marble Countertop (37"W, 1.5-inch thick)
- Single Rectangular Porcelain Sink
- Hardware (Satin Brass pulls)

6. INSTALLATION GUIDE

The vanity arrives fully assembled with an open back for plumbing access. Please note the countertop is not attached to the vanity; you will need to attach the sink to the countertop and the countertop to the vanity cabinet. The countertop comes pre-drilled for a 3-hole faucet with an 8-inch widespread configuration.

Video: Step-by-step instructions on how to install a bathroom vanity, including sink and countertop attachment.

Step-by-Step Installation

1. **Prepare the Countertop:** Place the countertop upside down on a soft, protected surface.
2. **Place the Basin:** Position the porcelain basin on the bottom side of the countertop, aligning it with the pre-cut opening.
3. **Mark Basin Position:** Use a pencil to carefully mark the exact position of the basin on the countertop.
4. **Apply Silicone to Basin:** Apply a continuous bead of silicone sealant around the top edge of the basin where it will meet the countertop.
5. **Attach Basin to Countertop:** Flip the basin and carefully place it onto the marked position on the countertop. Press firmly to ensure good adhesion. Allow 12-24 hours for the silicone to dry.
6. **Secure with Undermount Clips:** Attach the provided undermount clips to secure the basin to the countertop. Tighten the screws gently to avoid overtightening.
7. **Prepare Base Cabinet:** Apply a continuous bead of silicone sealant around the top edges of the base cabinet where the countertop will rest.
8. **Set Countertop:** With assistance, carefully lift the countertop (with the attached sink) and place it onto the base cabinet, aligning it properly.
9. **Install Backsplash:** Apply silicone sealant to the back edge of the countertop and to the back of the backsplash piece. Carefully set the backsplash in place against the wall and countertop.
10. **Wipe Excess Silicone:** Immediately wipe away any excess silicone sealant with a damp cloth for a clean finish.
11. **Connect Plumbing:** Connect the faucet and drain according to their respective manufacturer's instructions.

7. CARE AND MAINTENANCE

- **General Cleaning:** Wipe surfaces with a soft, damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that can damage the finish or marble.
- **Marble Care:** Marble is a natural stone and can be porous. Wipe up spills immediately to prevent staining. Avoid acidic cleaners (vinegar, lemon juice) as they can etch the surface. Use pH-neutral cleaners specifically designed for natural stone.
- **Wood Cabinet Care:** Avoid prolonged exposure to moisture. Clean with a soft cloth and a non-abrasive wood cleaner.
- **Soft-Close Mechanisms:** Do not force doors or drawers shut. The soft-close mechanisms are designed for gentle operation.

8. TROUBLESHOOTING

- **Wobbly Vanity:** Adjust the hidden leveling feet located at the bottom of the vanity to stabilize it on uneven floors.
- **Drawers/Doors Not Closing Properly:** Check for any obstructions. Ensure the soft-closing hinges and drawer slides are clean and free from debris. Adjust hinges if necessary.
- **Water Leaks:** Verify all plumbing connections are securely tightened and sealed with plumber's tape or sealant as appropriate. Check the silicone seal around the sink.
