\* Varies depending on the actual usage and environmental factor.

\* Due to logistics transportation restrictions, batteries are not included.

Door compatibility and dimensions for installation.

## Installation Steps

The Anweller Smart Door Knob is designed for easy DIY installation. A screwdriver is included in the package to assist you. Follow these general steps:

1. Remove your existing door knob.
2. Install the new latch into the door edge.
3. Connect the front and rear handles, ensuring the connecting pipes and wires are properly aligned and secured.
4. Insert 4 AAA batteries into the designated compartment (batteries not included).
5. Test the lock's functionality and proceed to set up your preferred unlocking methods.

# 4 WAYS TO UNLOCK

Convenient, Quick and High-Security

No longer worry about:

Overview of the four convenient unlocking methods.

## OPERATING INSTRUCTIONS

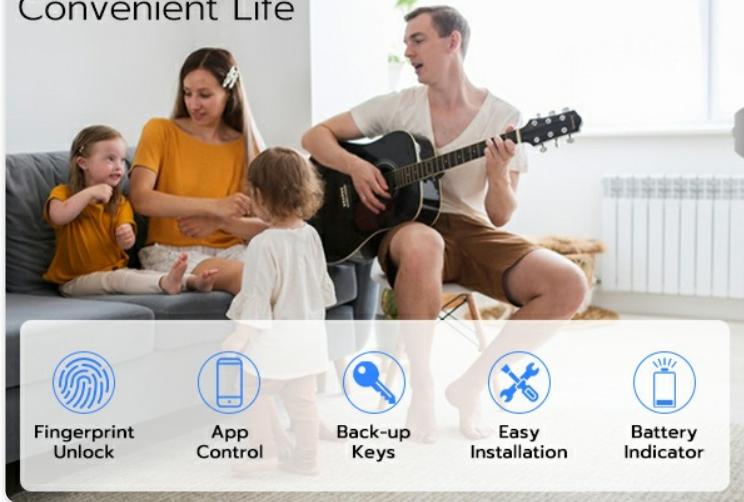

### Unlocking Methods

#### 1. Fingerprint Unlock

Place your registered finger on the fingerprint reader. The lock will quickly identify your fingerprint and unlock the door. The AI fingerprint reader is designed for sensitive and precise recognition.

## KEYLESS ENTRY DOOR KNOB

### 2. Mobile App Unlock

Download the Anweller app on your smartphone (iOS or Android). Connect the lock via Bluetooth. Use the app interface to remotely unlock the door, manage users, and view history records.

## Auto Lock

 Automatically lock (Default Mode)

A composite image showing a woman in a white shirt carrying a large paper bag full of groceries (bread, tomatoes, etc.) standing in front of a white door. To the right, a close-up of the smart door knob is shown with a green light glowing from the sensor. Below the knob, a blue callout box contains the text 'Passage Mode' and 'The lock keeps unlocked, free access' with a lock icon.

## Passage Mode

 The lock keeps unlocked, free access

Controlling the smart door knob via the mobile application.

### 3. Apple Watch Unlock

For compatible Apple Watch users, the Anweller app allows you to unlock the door directly from your watch, providing quick and convenient access.

# NEWEST UPGRADED

## 3rd Generation

**Battery Indicator**  
(Relieve Battery Anxiety)

VS

## 1st/2nd Generation

**No Indicator**

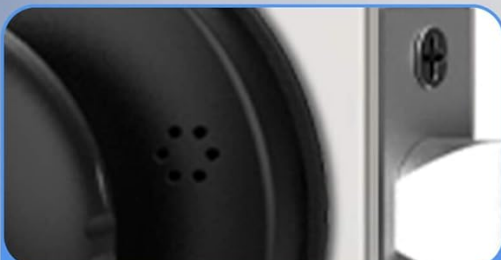

**2 Mode Switch Buttons**  
(Simple and Convenient)

VS

**No Button**

**Anti-Slip Silicone Pad**  
(Protect your door)

VS

**No Silicone Pad**  
(Damage your door)

## 4. Mechanical Key Unlock

In situations where electronic unlocking is not possible (e.g., completely drained batteries), use one of the two provided mechanical keys. The keyhole is discreetly located on the front handle.

# EASY DIY INSTALLATION

Compatible with wider thickness and hole diameter of doors

**2-3/8" or 2-3/4"**  
**(60mm or 70mm)**

**Backset:**

**Door Thickness:**

**1-3/16" to 2-1/8"**  
**(30mm to 55mm)**

**Hole Diameter:**

**1-17/20" to 2-3/8"**  
**(47mm to 60mm)**

## Compatibility

## Reversible

Emergency unlock options: via power bank or mechanical key.

## Operating Modes

### Auto-Lock Mode (Default)

The lock is set to automatically re-lock after a short period by default. This ensures your door is always secured after entry or exit.

Understanding Auto Lock and Passage Modes.

### Passage Mode

To enable continuous free access, press the Passage Mode button on the rear handle. A green light will indicate that the lock remains unlocked. Press it again to deactivate and return to Auto-Lock mode.

### Privacy Mode

Activate Privacy Mode by pressing the dedicated button on the rear handle. A blue light will illuminate, indicating that the lock cannot be unlocked from the outside, providing enhanced privacy and security.

Activating Privacy Mode for enhanced security.

### Mute Mode

To silence the lock's operational sounds, activate Mute Mode. This is ideal for maintaining quiet environments, such as nurseries or offices.

# HIGH SECURITY

 Made of High-Quality Durable Aluminum Alloy and Zinc

Using Mute Mode for quiet operation.

## MAINTENANCE

---

### Battery Replacement

The Anweller Smart Door Knob operates on 4 AAA batteries (not included). Thanks to its low power consumption design, batteries can last for over 6 months. The lock will provide a low battery reminder when replacement is needed. To replace, remove the rear handle cover to access the battery compartment.

# LONG-TERM USE GUARANTEE TESTING

Ensuring long-term reliability and durability

**100,000**

Usage Test

**144 Hour**

Salt Spray and Humidity  
Test

**3000N**

Appearance Pressure  
Resistance

Battery compartment and long standby time.

## Cleaning

To maintain the appearance and functionality of your smart door knob, wipe the surface with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or internal components.

## TROUBLESHOOTING

---

- **Fingerprint Reader Unresponsive:** Ensure your finger is clean and dry. Try re-registering your fingerprint through the app.
- **Lock Not Responding (Battery Drained):** Use a power bank connected to the USB-C port on the handle for temporary power, or use the mechanical backup key.
- **App Connectivity Issues:** Verify Bluetooth is enabled on your device and you are within range. Try restarting the app or re-pairing the lock in the app settings.
- **Lock Not Auto-Locking:** Check if Passage Mode is activated. Deactivate Passage Mode to re-enable auto-locking.

## WARRANTY & SUPPORT

---

Anweller is committed to providing excellent customer service. Your Smart Door Knob comes with a **12-month free replacement** period. Additionally, Anweller offers **free lifetime technical support** to assist you with any questions or issues you may encounter.
