## 2. SETUP GUIDE

### 2.1 Initial Charging

Before first use, fully charge your smart watch. The watch uses a magnetic charger. Ensure the charger is correctly aligned with the charging points on the back of the watch. A full charge typically takes approximately 2 hours.

## Answer/ Make calls

## 2.2 App Download and Pairing

To unlock the full functionality of your Dakofied Smart Watch, you need to connect it to your smartphone via the companion app. The watch is compatible with iOS 9.0/Android 5.0 and Bluetooth 5.0 or above.

1. **Download the App:** Scan the QR code in your physical manual or search for 'GloryFit' in your phone's app store (Apple App Store for iOS, Google Play Store for Android).
2. **Enable Bluetooth:** On your smartphone, go to settings and ensure Bluetooth is turned on.
3. **Add New Device:** Open the 'GloryFit' app, navigate to the device section, and select 'Add a new device'.
4. **Bind Watch:** The app will search for nearby devices. Select 'D1' (or similar identifier) from the list. Confirm the pairing request on both your phone and watch.

## 3. OPERATING INSTRUCTIONS

### 3.1 Basic Navigation

The Dakofied Smart Watch features a 1.85-inch touchscreen display. Swipe left, right, up, or down to navigate through menus and functions. Tap to select an option.

### 3.2 Bluetooth Calls and Notifications

Once paired with your phone, you can make and answer calls directly from your watch. You will also receive notifications for emails, SMS, and social media messages. Note that replying to messages directly from the watch is not supported.

# Notification

## 3.3 Sport Modes

The watch offers over 100 sport modes, including running, cycling, yoga, and ballet. Select the appropriate mode before starting your activity for accurate tracking of calories, distance, and steps.

# 100+ Sport Modes

Image: A person engaged in tennis, with the watch displaying activity metrics and various sport mode icons.

## 3.4 Health Tracking

The watch monitors several health metrics:

- **Heart Rate Monitor:** Tracks your heart rate in real-time.
- **Blood Oxygen Monitor:** Measures your blood oxygen saturation levels.
- **Sleep Tracker:** Analyzes your sleep patterns, including light sleep, deep sleep, and awake times, to help assess sleep quality.

## 3.6 Additional Functions

The Dakofied Smart Watch supports a wide range of additional features:

- Find Phone
- Weather Display
- Music Control
- Remote Camera Shutter
- Stopwatch

- Timer
- Sedentary Reminder
- Calculator
- Breathing Training
- Voice Assistant

### 3.7 Waterproof Rating

The watch has an IP68 waterproof rating, making it suitable for daily tasks such as hand washing or exposure to rain. It is not recommended for swimming or diving.

## 4. MAINTENANCE

### 4.1 Charging

As mentioned in the setup guide, use the provided magnetic charging cable. Ensure proper alignment for efficient charging. Avoid using damaged cables or chargers.

### 4.2 Cleaning

Wipe the watch screen and strap regularly with a soft, dry cloth to remove dust and sweat. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.

### 4.3 Band Replacement

The watch comes with a 22mm comfortable silicone band that is changeable. You can replace it with other compatible 22mm watch bands to suit different styles or preferences.

## 5. TROUBLESHOOTING

### 5.1 Connection Issues

- Ensure the connection range of Bluetooth is within approximately 8 meters.
- Allow the 'GloryFit' app to run in the background and set it as a 'Trusted' app in your phone's app permissions management.

### 5.2 Notification Issues

1. Turn on SMS and social app notifications within the 'GloryFit' app settings.
2. On your phone, go to Settings > Bluetooth > D1 (your watch) > Share System Notifications.
3. In your phone settings, navigate to Apps > GloryFit > Notifications and ensure 'Allow Notifications' and 'Show Previews' are enabled.
4. After these settings, you should receive notifications directly on your watch.

**100+**  
Sport Modes

Image: Illustrated steps for configuring notification reception from your phone to the smart watch.

### 5.3 Inaccurate Workout Data

1. Enter your personal information (gender, age, height, weight) correctly in the 'GloryFit' app (Go to GloryFit app > Profile).
2. Wear the watch correctly according to the user's manual, ensuring it is snug but comfortable on your wrist.
3. Wait until the tracking data is stable before reading.
4. Please select the correct sport modes for accurate calorie and distance tracking.

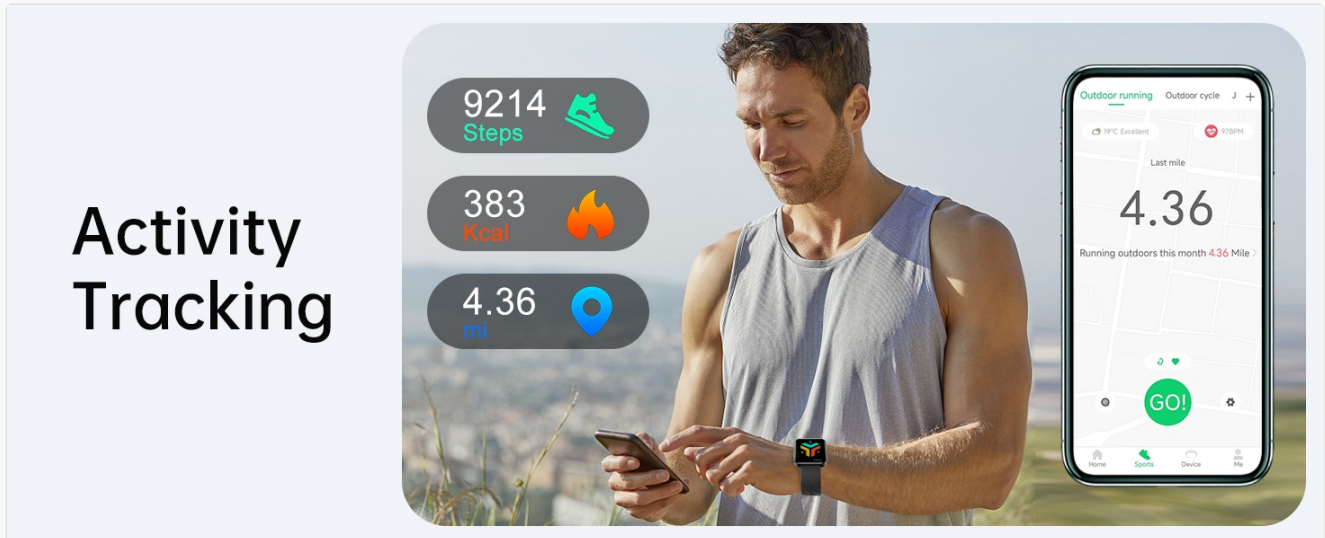

Image: Text instructions detailing how to ensure accurate workout data collection.

### 5.4 Weather Information Issues

1. Ensure that the watch is connected to the 'GloryFit' app.
2. Allow the app access to location information and ensure your phone's network connection is active.
3. Go to 'GloryFit' app > Home, and swipe down the screen to synchronize weather information.

## 6. SPECIFICATIONS
