## Biliyer Q02S

# Biliyer Q02S Selfie Stick Tripod User Manual

Model: Q02S | Brand: Biliyer

## PRODUCT OVERVIEW

The Biliyer Q02S is an innovative all-in-one selfie stick and tripod designed to enhance your mobile photography and videography experience. It features an extendable pole, a stable tripod base, and an integrated fill light, all controlled by a convenient wireless remote. This versatile tool is perfect for capturing high-quality selfies, group photos, and stable videos, whether for personal use or content creation.

## PACKAGE CONTENTS

- Biliyer Q02S Selfie Stick Tripod with integrated fill light
- Wireless Bluetooth Remote Control
- USB Charging Cable (for fill light)
- User Manual (this document)

## SETUP GUIDE

### 1. Charging the Fill Light

Before first use, ensure the integrated fill light is fully charged. Connect the provided USB charging cable to the charging port on the light and to a standard USB power source (e.g., computer, wall adapter). The charging indicator will show the

charging status.

## 2. Pairing the Wireless Remote Control

1. Turn on the remote control by pressing and holding the button until the indicator light flashes.
2. On your smartphone, go to Bluetooth settings and enable Bluetooth.
3. Search for available devices and select "Biliyer Q02S" or a similar name.
4. Once paired, the indicator light on the remote will stop flashing and remain solid.
5. The remote control supports a range of up to 10 meters (33 feet).

# WIRELESS REMOTE CONTROL HANDS FREE

Support 10 meters remote control, one - button shooting

Figure 3: The wireless remote control allows for hands-free operation from up to 10 meters away, ideal for group photos or stable shots.

### 3. Attaching Your Smartphone

Gently pull open the phone holder clamp and securely place your smartphone inside. Ensure the phone is centered and stable. The holder is designed to accommodate most smartphone models.

## OPERATING INSTRUCTIONS

### 1. Extending the Selfie Stick

Hold the base of the selfie stick and gently pull the top section upwards to extend the pole. The Q02S features a 7-section extendable pole that can reach up to 1045mm (approximately 41 inches).

# BILIVER

— REFRESH YOUR HOME —

Figure 4: The telescopic rod fully extended to 1045mm, providing a wide range for capturing photos and videos.

## 2. Using as a Tripod

To use the device as a tripod, unfold the three legs at the base of the stick. Ensure the legs are fully extended and stable on a flat surface before mounting your phone. This provides a stable platform for hands-free shooting.

# LIGHT AND PORTABLE

Easy storage, arbitrary recording, shooting

19.4CM 165G

### 3. Adjusting the Fill Light

The integrated LED fill light offers multiple modes and color temperatures. Press the power button on the light to cycle through the 3 modes and 9 color temperatures to achieve your desired lighting effect. The light is USB rechargeable.

### 4. Taking Photos/Videos with Remote

Once your phone is mounted and the remote is paired, open your phone's camera app. Press the button on the wireless remote control to trigger the shutter and capture photos or start/stop video recording. This allows for stable, shake-free shots.

# REMOTE CONTROL ONE-CLICK PHOTO

## MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, fold the selfie stick to its compact size and store it in a cool, dry place away from direct sunlight.
- **Battery Care:** Recharge the fill light regularly, even if not in frequent use, to maintain battery health.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote control not pairing.	Remote battery low; Bluetooth not enabled on phone; remote not in pairing mode.	Charge remote (if applicable); ensure phone Bluetooth is on; press and hold remote button to enter pairing mode.

Problem	Possible Cause	Solution
Fill light not turning on.	Light battery low; light not charged.	Connect the fill light to a USB power source and charge it fully.
Selfie stick feels unstable.	Sections not fully extended/locked; tripod legs not fully spread.	Ensure all extendable sections are pulled out completely and locked. When using as a tripod, ensure legs are fully splayed on a flat, stable surface.
