## 4. MAINTENANCE

To keep your SONGMICS Storage Cubes in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the exterior and interior surfaces with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Drying:** Allow the cubes to air dry completely before storing items inside or folding them away. Do not machine wash or tumble dry.
- **Storage:** When not in use, remove the bottom panel and fold the cubes flat to save space. Store them in a dry place to prevent moisture damage.

## 5. TROUBLESHOOTING

Here are some common issues and their solutions:

- **Wrinkles from Shipping:** If the cubes have wrinkles upon arrival due to packaging, a quick pass with a garment steamer or a low-heat iron can help smooth them out.
- **Loss of Shape:** Ensure the bottom panel is fully inserted and pressed down firmly. Overloading the cubes with items exceeding the 6.6 lb (3 kg) weight limit can also cause them to lose shape.
- **Unpleasant Odor:** The cubes are made with odorless PP plastic sheets. If a slight odor is present upon unpacking, allow them to air out in a well-ventilated area for a few hours.
