1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Halitaa Cat Litter Box Enclosure. This versatile furniture piece is designed to discreetly house cat litter boxes while serving as a functional side table, TV stand, or nightstand. It features a double-room design, an integrated scratch pad, and durable construction to provide a comfortable and private space for your cats.

2. SAFETY INFORMATION

- **Weight Capacity:** Do not exceed the maximum weight capacity of 110 lbs (50 kg) on the top surface.
- **Assembly:** Ensure all parts are securely fastened according to the assembly instructions. Loose parts can pose a hazard.
- **Placement:** Place the enclosure on a flat, stable surface to prevent tipping.
- **Children and Pets:** Keep small children and pets away from the assembly area to prevent injury from small parts.
- **Ventilation:** Ensure adequate ventilation around the enclosure, especially if using covered litter boxes, to maintain air quality for your pets.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Furniture Panels (Top, Bottom, Sides, Dividers, Doors)

- Metal Base Frame
- Hardware Pack (Screws, Dowels, Hinges, Magnetic Catches)
- Cat Scratch Pad
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your cat litter box enclosure. It is recommended to have a second person assist with assembly.

Step 1: Prepare the Base

Attach the metal base frame to the bottom panel of the enclosure using the provided screws. Ensure the frame is oriented correctly for stability.

Step 2: Assemble Side and Divider Panels

Connect the side panels and internal divider panels to the bottom panel using dowels and screws. The double-room design requires careful alignment of the central divider.

Step 3: Install the Top Panel

Secure the top panel to the assembled side and divider panels. Ensure all connections are tight for structural integrity.

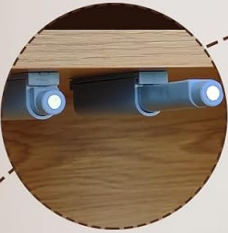

Step 4: Attach Doors and Hardware

Install the doors using the provided hinges. The enclosure features no-handle pop-up doors; ensure the magnetic catches are correctly installed for secure closure. The central opening is designed for cat access.

Step 5: Place the Scratch Pad

Insert the cat scratch pad into the designated area at the entrance of the enclosure. This helps prevent litter tracking and provides a scratching surface for your cat.

5. OPERATING INSTRUCTIONS

5.1 Placing Litter Boxes

The enclosure features two independent compartments designed to accommodate standard litter boxes. Place one litter box in each compartment. Ensure the litter boxes fit within the interior dimensions (16.1"L x 19.7"W x 18.5"H) to allow for easy access and removal.

2 Large Space For Cats

- Provide 2 large spaces for cats
- Satisfy your cat's exploratory nature

5.2 Cat Access

Cats can enter and exit the enclosure through the central opening. The meandering entrance design satisfies a cat's natural inclination to explore and helps contain litter within the unit.

Image: Cat entering the enclosure.

5.3 Using the Scratch Pad

The integrated scratch pad at the entrance provides a dedicated area for your cats to sharpen their claws, helping to protect other furniture. It also aids in trapping loose litter from paws.

5.4 Door Operation

The enclosure features no-handle pop-up doors. To open, gently press the door panel. To close, push the door until the magnetic catch engages, securing it in place. Doors can be opened individually or both simultaneously for full access.

Three Ways To Open The Door

5.5 Multifunctional Use

Beyond its primary function as a litter box enclosure, the unit's spacious tabletop can be used to place various household items such as cat supplies, flower pots, books, or lamps, integrating seamlessly into your home decor.

6. MAINTENANCE

6.1 Cleaning the Enclosure

Regularly wipe down the exterior and interior surfaces of the enclosure with a damp cloth and mild detergent. Avoid abrasive cleaners that may damage the wood finish. The 6.3-inch clearance under the unit allows for easy cleaning underneath, including access for cleaning robots.

6.2 Cleaning the Scratch Pad

The scratch pad can be removed for cleaning or replacement. Shake off loose litter and debris. If heavily soiled, it may be cleaned with a pet-safe cleaner or replaced as needed.

Image: The enclosure helps keep your home clean and free from litter mess.

7. TROUBLESHOOTING

- **Doors not closing securely:** Check if the magnetic catches are properly aligned and installed. Adjust if necessary. Ensure no debris is obstructing the door's path.
- **Cats not using the enclosure:** Introduce the enclosure gradually. Leave the doors open initially to allow cats to explore. Place familiar items or treats inside. Ensure the litter box inside is clean and accessible.
- **Litter tracking:** Ensure the scratch pad is in place. Consider using a litter mat outside the enclosure's entrance to further reduce tracking.
- **Unpleasant odors:** Regularly clean the litter boxes and the enclosure. Ensure proper ventilation. Consider using odor-absorbing products within the litter boxes.

8. SPECIFICATIONS

Feature	Detail
