CSZZD King Size Bed Frame User Manual

Model: 012

PRODUCT OVERVIEW

The CSZZD King Size Bed Frame with Storage Headboard is designed to provide a comfortable and functional sleeping solution. It features integrated RGB LED lighting, a headboard with a built-in charging station (2 AC outlets, 1 USB, 1 Type-C port), and multi-functional storage shelves. The frame is constructed from heavy-duty metal slats and legs for durability and stability, supporting up to 1100 lbs without the need for a box spring. Its noise-free design ensures a quiet sleep environment.

IMPORTANT SAFETY INFORMATION

WARNING:

- Do not exceed the maximum weight capacity of 1100 lbs. Overloading can lead to structural failure and injury.
- Exercise caution during assembly due to potential sharp edges on metal components.
- Always follow the assembly instructions precisely to ensure the bed frame is stable and safe for use. Improper assembly can result in instability or collapse.
- Keep all small parts and packaging materials away from children to prevent choking hazards.
- Ensure all connections are securely tightened before use and periodically check for loose fasteners.

SETUP AND ASSEMBLY

The bed frame is designed for easy assembly and comes packaged in one box with labeled parts and tools. It is recommended to have two people for assembly.

- Unpack and Identify Parts:** Lay out all components on a clean, soft surface (e.g., carpet) to prevent scratches. Refer to the parts list to identify each piece.
- Assemble Headboard:** Follow the detailed diagrams in the included paper manual to assemble the headboard sections, including the storage shelves and charging station. Ensure all connections are secure.

4. **Install Metal Slats and Support Legs:** Place the 13 heavy-duty metal slats across the frame. Attach the 16 metal support legs, ensuring the 10 central adjustable legs are properly positioned and adjusted for even support. The EVA sound absorbing strips should be positioned under the center bar to prevent noise.

5. **Connect LED Lights:** Secure the RGB LED light strips to the designated areas on the headboard and footboard. Connect them to the power source as instructed.
6. **Final Check:** Verify all screws and bolts are tightened. Ensure the frame is level and stable before placing the mattress.

OPERATING INSTRUCTIONS

LED Lighting System

The integrated RGB LED lights can be controlled via the included remote control or a dedicated smartphone application.

- **Remote Control:** Use the provided remote to power on/off, change colors (over 60,000 options), adjust brightness, select dynamic modes, and set timing functions.
- **Smartphone App Control:** Download the recommended app (refer to the paper manual for QR code or app name). The app allows for more precise control over colors, brightness, modes, and includes a Music Sync mode where lights flash to the rhythm of music. It also features a Mic Mode for sound-activated lighting.

Charging Station

The headboard features a built-in charging station for convenient access to power.

- **AC Outlets:** Two 125V/12A AC outlets are available for powering devices such as lamps or laptops.
- **USB Ports:** One 5V/2.1A USB-A port and one 5V/2.1A Type-C port are provided for charging smartphones, tablets, and other USB-powered devices.

Storage Headboard

The headboard offers multiple storage options to keep your bedside essentials organized.

- **Open Shelves:** Three tiers of open storage shelves are ideal for items like alarm clocks, eyeglasses, and decorative pieces.
- **Hidden Storage:** Two flexible opening and closing back panels provide hidden storage space, suitable for clothing,

bedding, or other private items.

MAINTENANCE

- **Cleaning:** Wipe the bed frame surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all screws, bolts, and connections to ensure they remain tight. Retighten if necessary to maintain stability and prevent noise.
- **LED Lights:** The LED strips are designed for long life and generally require no maintenance. If a strip malfunctions, contact customer support for replacement. Do not attempt to repair the LED strips yourself.
- **Charging Station:** Ensure the charging station ports are free of dust and debris. Do not insert foreign objects into the outlets or USB ports.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose fasteners; uneven support legs; incorrect assembly.	Check and tighten all screws and bolts. Adjust the 10 central adjustable legs to ensure even contact with the floor. Review assembly instructions to confirm correct setup.
Squeaking or noise from the frame.	Loose connections; metal-on-metal friction; missing EVA strips.	Tighten all fasteners. Ensure EVA sound absorbing strips are correctly placed under the center bar and where metal components meet.
LED lights not working.	Power connection issue; remote battery dead; app not connected.	Check if the LED strip is properly plugged into the power source. Replace remote control batteries. Ensure the smartphone app is correctly paired via Bluetooth. If issues persist, contact customer support.
Charging station not providing power.	Bed frame not plugged in; device not compatible; faulty port.	Ensure the bed frame's main power cord is securely plugged into a working wall outlet. Test with a different device. If a specific port is not working, contact customer support.
Mattress sliding on the frame.	Anti-slip design not effective.	Ensure the mattress is correctly seated within the embedded frame design. If sliding persists, consider adding a non-slip mattress pad between the mattress and the slats.
