ROCKBROS DCBT69

ROCKBROS Cycling Water Bottle User Manual

INTRODUCTION

Thank you for choosing the ROCKBROS Cycling Water Bottle. This manual provides essential information for the proper use, care, and maintenance of your new water bottle. Please read it thoroughly before first use to ensure optimal performance and longevity of your product.

PRODUCT FEATURES

- **100% BPA-free and BPS-free:** Ensures safe and clean hydration.
- **High-Flow:** Designed to boost flow rate and minimize splashes and spills.
- **Easy Squeeze:** Allows for more water flow with less effort.
- **Cage Fit:** Securely fits in a variety of standard bottle cages.
- **Leak-proof:** Provides a reliable seal when closed, preventing water leakage.

YOUR CYCLING COMPANION

- Easy To Squeeze
- BPA-Free
- Cage Fit
- Multiple Options

Figure 3: Demonstrating the easy-squeeze functionality for quick and effortless hydration.

SETUP

Initial Cleaning

Before first use, thoroughly wash the bottle and cap with warm water and mild soap. Rinse completely to remove any manufacturing residue. Ensure all components are dry before assembly.

Filling the Bottle

Unscrew the cap and fill the bottle with your desired beverage. Do not overfill beyond the bottle's capacity. Ensure the cap is securely tightened to prevent leaks during transport and use.

OPERATING INSTRUCTIONS

Drinking from the Bottle

1. To open the spout, pull the nozzle upwards with your teeth or fingers.
2. Squeeze the bottle gently to dispense liquid. The easy-squeeze design allows for efficient hydration with minimal effort.
3. To close the spout, push the nozzle downwards until it is fully sealed. This ensures the bottle remains leak-proof when not in use.

BUILT FOR EXERCISE

Figure 4: User demonstrating drinking from the water bottle during a cycling activity.

MAINTENANCE

Cleaning

The ROCKBROS Cycling Water Bottle is designed for easy cleaning. It is recommended to **hand wash only**. Do not use abrasive cleaners, harsh chemicals, or scrubbers that could damage the bottle's surface or graphics. Avoid washing in a dishwasher as this may cause damage or peeling of graphics.

For thorough cleaning, the valve at the top of the cap can be disassembled. Carefully separate the components, wash them with warm water and mild soap, and ensure they are completely dry before reassembling. This helps prevent mold and odor buildup.

Storage

Store the bottle with the cap open to allow for air circulation and prevent odors when not in use. Keep in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Leaking

- Ensure the cap is securely tightened onto the bottle. A loose cap is the most common cause of leaks.
- Verify that the drinking spout is fully pushed down into the closed position after each use.
- Check the cap's seal and valve components for any damage, wear, or improper assembly after cleaning. Replace if necessary.

Difficulty Squeezing

- Ensure the spout is fully open. A partially open spout can restrict flow and make squeezing difficult.
- The bottle is designed for easy squeezing; if you experience unusual difficulty, check for any internal obstructions or damage to the bottle material.

SPECIFICATIONS

Attribute	Detail
Brand	ROCKBROS
Model Number	DCBT69
Material	Polypropylene
Capacity	719 Milliliters (approx. 25 oz)
Dimensions	2.87"W x 9.65"H
Special Feature	Leak Proof
Product Care	Hand Wash Only
BPA/BPS Free	Yes
