## OPERATING INSTRUCTIONS

The MOKiN 65W Power Bank offers versatile charging options for multiple devices simultaneously.

1. **Power On/Off:** Press the power button located on the side of the unit to activate the digital display and begin charging. The display will automatically turn off after a period of inactivity to conserve power.

2. **Digital Display:** The smart digital display provides real-time information:

- **Battery Percentage:** Shows the remaining battery life of the power bank.
- **Output/Input Power:** Displays the voltage (V) and amperage (A) for both charging (OUT) and recharging (IN).

3. **Charging Devices:**

- **Using Built-in Cables:** Extend the integrated USB-C or iOS cable and plug it directly into your compatible device.
- **Using USB-A Port:** For devices requiring a standard USB-A connection, use your own USB-A cable and plug it into the designated USB-A output port on the power bank.
- **Using USB-C Port:** The additional USB-C port can be used for both input (recharging the power bank) and output (charging devices).
- **Multi-Device Charging:** The power bank supports charging up to four devices simultaneously using a combination of its built-in cables and external ports. Note that total output power will be distributed among connected devices.
