## ASSEMBLY INSTRUCTIONS

Assembly is straightforward and typically takes less than 20 minutes. It is recommended to have two people for easier assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Hardware:** Separate and identify all screws, bolts, and tools provided.
3. **Attach Legs to Desktop:** Secure the metal leg frames to the underside of the desktop using the provided hardware. Ensure all connections are firm but do not overtighten initially.
4. **Install Bottom Storage Shelf:** Attach the bottom storage shelf to the designated supports on the leg frames.
5. **Secure Metal Panel:** Fasten the metal privacy panel between the leg frames. This panel also provides structural

support.

6. **Final Tightening:** Once all components are loosely assembled, gradually tighten all screws and bolts until secure. Avoid overtightening to prevent stripping.
7. **Adjust Leveling Feet:** Place the desk in its desired location. Adjust the leveling feet at the bottom of the legs to ensure the desk is stable and level on uneven floors.
