HUAWEI Dove-T0017

HUAWEI FreeClip Wireless Earbuds User Manual

Model: Dove-T0017 | Brand: HUAWEI

INTRODUCTION

The HUAWEI FreeClip Wireless Earbuds offer an open-ear listening experience with a unique C-bridge design, providing comfort and awareness of your surroundings. These lightweight earbuds feature AI crystal clear sound and IP54 resistance to dust and water, making them suitable for various environments and activities. This manual provides comprehensive instructions for setting up, operating, and maintaining your FreeClip earbuds.

WHAT'S IN THE BOX

- HUAWEI FreeClip Wireless Earbuds (Left and Right)
- Charging Case
- USB-C Charging Cable (not explicitly listed but implied for charging case)
- Quick Start Guide / Safety Information (standard inclusion, not explicitly listed)

PRODUCT OVERVIEW

SETUP

Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Connect the USB-C charging cable to the charging port on the case and to a power source. The indicator light on the case will show the charging status. The case also supports wireless charging.

Bluetooth Pairing

1. Ensure the earbuds are in the charging case and the lid is open.
2. Press and hold the Function button on the charging case until the indicator light flashes white, indicating pairing mode.
3. On your device (smartphone, tablet, PC), enable Bluetooth and search for available devices.
4. Select "HUAWEI FreeClip" from the list to connect.
5. Once connected, the indicator light will turn solid white or green.

OPERATING INSTRUCTIONS

Wearing the Earbuds

The HUAWEI FreeClip earbuds feature an innovative C-bridge design that clips securely onto your ear without entering the ear canal. They are lightweight (approx. 5.6g each) and designed for comfort during extended wear. The earbuds are interchangeable, meaning either earbud can be worn on the left or right ear, and the audio channels will self-adapt.

Touch Controls

The FreeClip earbuds utilize touch controls on three main areas: the acoustic ball (speaker part), the C-bridge (connecting band), and the comfort bean (part resting behind the ear). You can customize double-tap and triple-tap functions via the companion app.

- **Double-tap:** Play/Pause music, Answer/End calls, Next song, Previous song, Wake voice assistant (customizable).
- **Triple-tap:** Next song, Previous song (customizable).
- **Tap & Hold (Experimental):** Tap and hold the acoustic ball to increase volume, or the comfort bean to decrease volume. This feature requires firm tapping and provides haptic feedback.

Head Control (Call Management)

With Head Control enabled in the app, you can manage incoming calls by simply moving your head:

- **Nod Head:** Answer incoming call.
- **Shake Head:** Reject incoming call.

Connectivity Features

- **Bluetooth 5.3:** Ensures stable and efficient wireless connection.
- **Audio Codecs:** Supports SBC, AAC, and L2HC (Huawei-specific for better latency with Huawei devices).
- **Multipoint Connection:** Connect to two devices simultaneously (e.g., phone and laptop). Pause playback on one device to switch audio to the other.
- **Smart Wear Detection:** Automatically pauses music when an earbud is removed and resumes when put back on.
- **Drop Detection:** If an earbud falls off, the remaining earbud will emit a beep to alert you.
- **Auto-Switch Left & Right:** Earbuds automatically detect which ear they are in and adjust audio channels.
- **Low Audio Latency Mode:** Improves audio-visual synchronization for gaming and video.
- **Increase Volume When Noisy:** Automatically adjusts volume based on ambient noise (can be toggled off).

MAINTENANCE

Cleaning

Regularly clean your earbuds and charging case to ensure optimal performance and hygiene. Use a soft, dry, lint-free cloth. Do not use abrasive materials or harsh chemicals. For the speaker mesh, gently brush away any debris.

Water and Dust Resistance

The HUAWEI FreeClip earbuds are rated IP54 for dust and water resistance. This means they are protected against limited dust ingress and water splashes from any direction. The charging case is NOT waterproof. While resistant, this is not a permanent condition, and resistance may decrease with normal wear and tear. Avoid charging the device in damp environments. Liquid damage is not covered under warranty.

TROUBLESHOOTING

- **Earbuds not pairing:** Ensure earbuds are charged, Bluetooth is enabled on your device, and the earbuds are in pairing mode. Try restarting both devices.
- **Sound quality issues:** Check the fit of the earbuds. Ensure they are clean. Adjust volume on both the earbuds and your connected device.
- **Controls not responding:** Ensure you are tapping the correct area with sufficient firmness. Check the companion

app for gesture settings.

- **App connectivity issues:** Ensure the Huawei AI Life app is updated to the latest version. For Android users, you may need to download the app directly from Huawei's website due to regional restrictions.
- **Earbuds falling out:** While designed for a secure fit, individual ear shapes vary. Experiment with slight adjustments to find the most stable position.

SPECIFICATIONS

Brand	HUAWEI
Model Name	FreeClip
Item Model Number	Dove-T0017
Connectivity Technology	Wireless (Bluetooth 5.3)
Ear Placement	Open Ear
IP Rating	IP54 (Earbuds only)
