ILIFE W90

ILIFE W90 Cordless Wet Dry Vacuum Cleaner User Manual

Model: W90
Brand: ILIFE

Introduction

Thank you for purchasing the ILIFE W90 Cordless Wet Dry Vacuum Cleaner. This manual provides important information on the safe operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before use and keep it for future reference.
The ILIFE W90 is designed to vacuum and mop hard floors simultaneously, leaving them dry and stain-free. It features a dual water tank system to ensure continuous cleaning with fresh water and prevent secondary contamination.

Important Safety Information

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Read all instructions before using the appliance.
- Use only as described in this manual.
- Do not immerse the appliance in water or other liquids.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Use only ILIFE recommended attachments and cleaning solutions.
- Do not pick up flammable or combustible materials, or anything that is burning or smoking.
- Store the appliance indoors in a dry place.

Package Contents

Verify that all items are included in your package:

- ILIFE W90 Wet Dry Vacuum Cleaner x 1
- ILIFE W90 Hard Floor Cleaning Solution (PW-D020) x 2 bottles

Product Overview

Familiarize yourself with the main components of your ILIFE W90 vacuum cleaner.

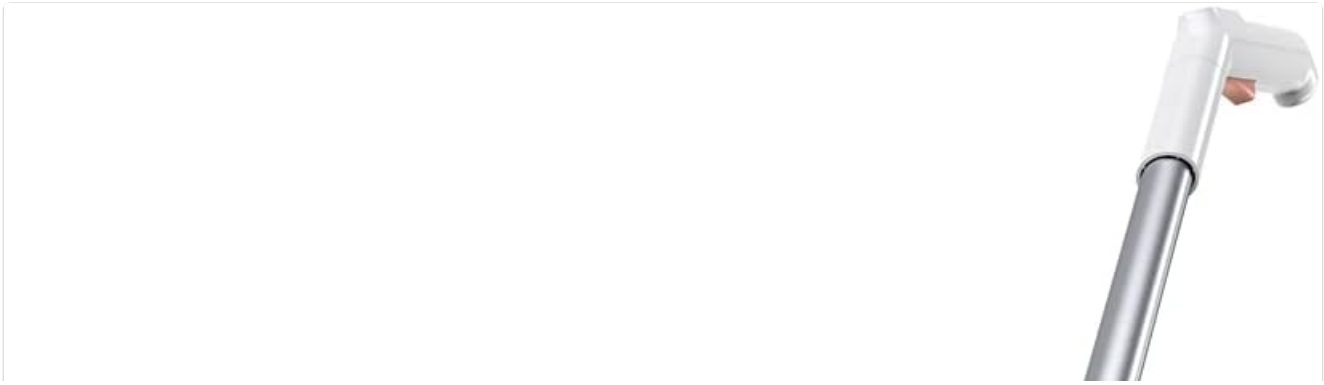

Image: A side view of the ILIFE W90 Cordless Wet Dry Vacuum Cleaner, highlighting its sleek design and main body.

Key Components:

- **Handle:** Ergonomic design for comfortable grip.
- **Clean Water Tank:** Holds 700ml of clean water and cleaning solution.
- **Dirty Water Tank:** Holds 500ml of dirty water collected during cleaning.
- **Brush Roller:** Cleans floors with a combination of vacuuming and mopping.
- **Main Body:** Houses the motor and battery.
- **LED Display/Indicator:** Provides status updates and alerts.

Setup

1. Assembly

Assemble the handle to the main body of the vacuum cleaner until it clicks into place.

2. Charging

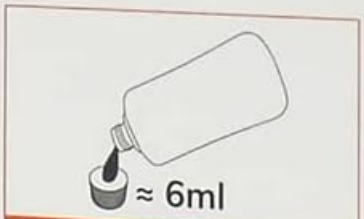

Before first use, fully charge the ILIFE W90. Connect the power adapter to the charging port on the vacuum and plug it into a wall outlet. The indicator light will show charging status.

3. Filling the Clean Water Tank

1. Remove the clean water tank from the vacuum.
2. Open the tank cap.
3. Fill the tank with clean water.
4. Add the ILIFE Hard Floor Cleaning Solution. The recommended dilution ratio of cleanser to water is 1:150. Add approximately two caps (approx. 6ml per cap) of cleanser to the fresh water tank each time.
5. Close the tank cap securely and reattach the tank to the vacuum.

Instructions

The dilution ratio of cleanser to water is 1:150. It is recommended to add two caps of cleanser to the fresh water tank each time.

Bottle cap capacity: 6ml

Operating Instructions

1. Power On/Off

Press the power button on the handle to turn the vacuum cleaner on or off.

2. Cleaning

The ILIFE W90 vacuums and mops simultaneously. Simply guide the vacuum over the hard floor surfaces you wish to clean. It is suitable for hardwood, marble, laminate, and tile floors.

Image: The ILIFE W90 in use, demonstrating its ability to clean both dry messes (pet hair, debris, footprints) and wet messes (eggs, milk, yogurt, coffee) simultaneously.

Image: An overhead view of the ILIFE W90's cleaning head on various floor types including hardwood, marble, laminate, and tile, illustrating its multi-surface cleaning capability.

3. Intelligent Voice Prompting System

The W90 features a real-time voice broadcasting system that provides updates on its working status and alerts for faults. This includes reminders for low battery, checking the roller brush, clean water tank shortage, and emptying the dirty water tank.

Image: The ILIFE W90 standing upright, with speech bubbles indicating various voice prompts such as "Low Battery Indicator," "Checking Roller Brush," "Clean Water Tank Shortage," and "Empty Dirty Water Tank." The vacuum also shows a green light indicator.

Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your ILIFE W90.

1. Emptying and Cleaning the Dirty Water Tank

1. After each use, or when the voice prompt indicates, remove the dirty water tank.
2. Carefully open the tank and dispose of the dirty water.
3. Rinse the dirty water tank thoroughly with clean water.
4. Allow the tank to air dry completely before reattaching it to the vacuum.

2. Cleaning the Roller Brush

1. Turn off the vacuum and remove the dirty water tank.
2. Remove the roller brush cover and then the roller brush.
3. Clean any hair, debris, or tangled material from the roller brush. You can rinse it under running water.
4. Ensure the roller brush is completely dry before reinstalling it.

3. Cleaning the Filter

The filter inside the dirty water tank should also be cleaned regularly to maintain suction power. Rinse it under running water and allow it to air dry completely before reinstallation.

4. Storage

Store the ILIFE W90 in a cool, dry place when not in use. Ensure the clean and dirty water tanks are empty and clean before storage.

Troubleshooting

Problem	Possible Cause	Solution
Vacuum does not turn on	Battery is low or dead	Charge the vacuum cleaner fully.
Poor suction or cleaning performance	Dirty water tank is full; Roller brush is clogged; Filter is dirty; Clean water tank is empty.	Empty and clean the dirty water tank; Clean the roller brush; Clean the filter; Refill the clean water tank.
Voice prompts for errors	Specific issue indicated by voice prompt (e.g., low battery, full dirty tank).	Follow the instructions given by the voice prompt.
