podoru KT-D003MINI

podoru 5000mAh Magnetic Power Bank Instruction Manual

Model: KT-D003MINI

1. PRODUCT OVERVIEW

The podoru 5000mAh Magnetic Power Bank is a compact and portable charging solution designed for iPhone 16/15/14/13/12 series devices. It offers both magnetic wireless charging and wired charging capabilities, ensuring your devices stay powered on the go.

Package Contents:

- Magnetic Wireless Power Bank x 1
- USB-C Charging Cable x 1
- Instruction Manual x 1

2. SETUP AND INITIAL USE

Charging the Power Bank:

Before first use, fully charge your podoru Magnetic Power Bank. Use the included USB-C cable or a Lightning cable to connect the power bank to a compatible power adapter (not included).

- **USB-C Input:** Supports up to 18W Max.
- **Lighting Input:** Supports up to 12W Max.

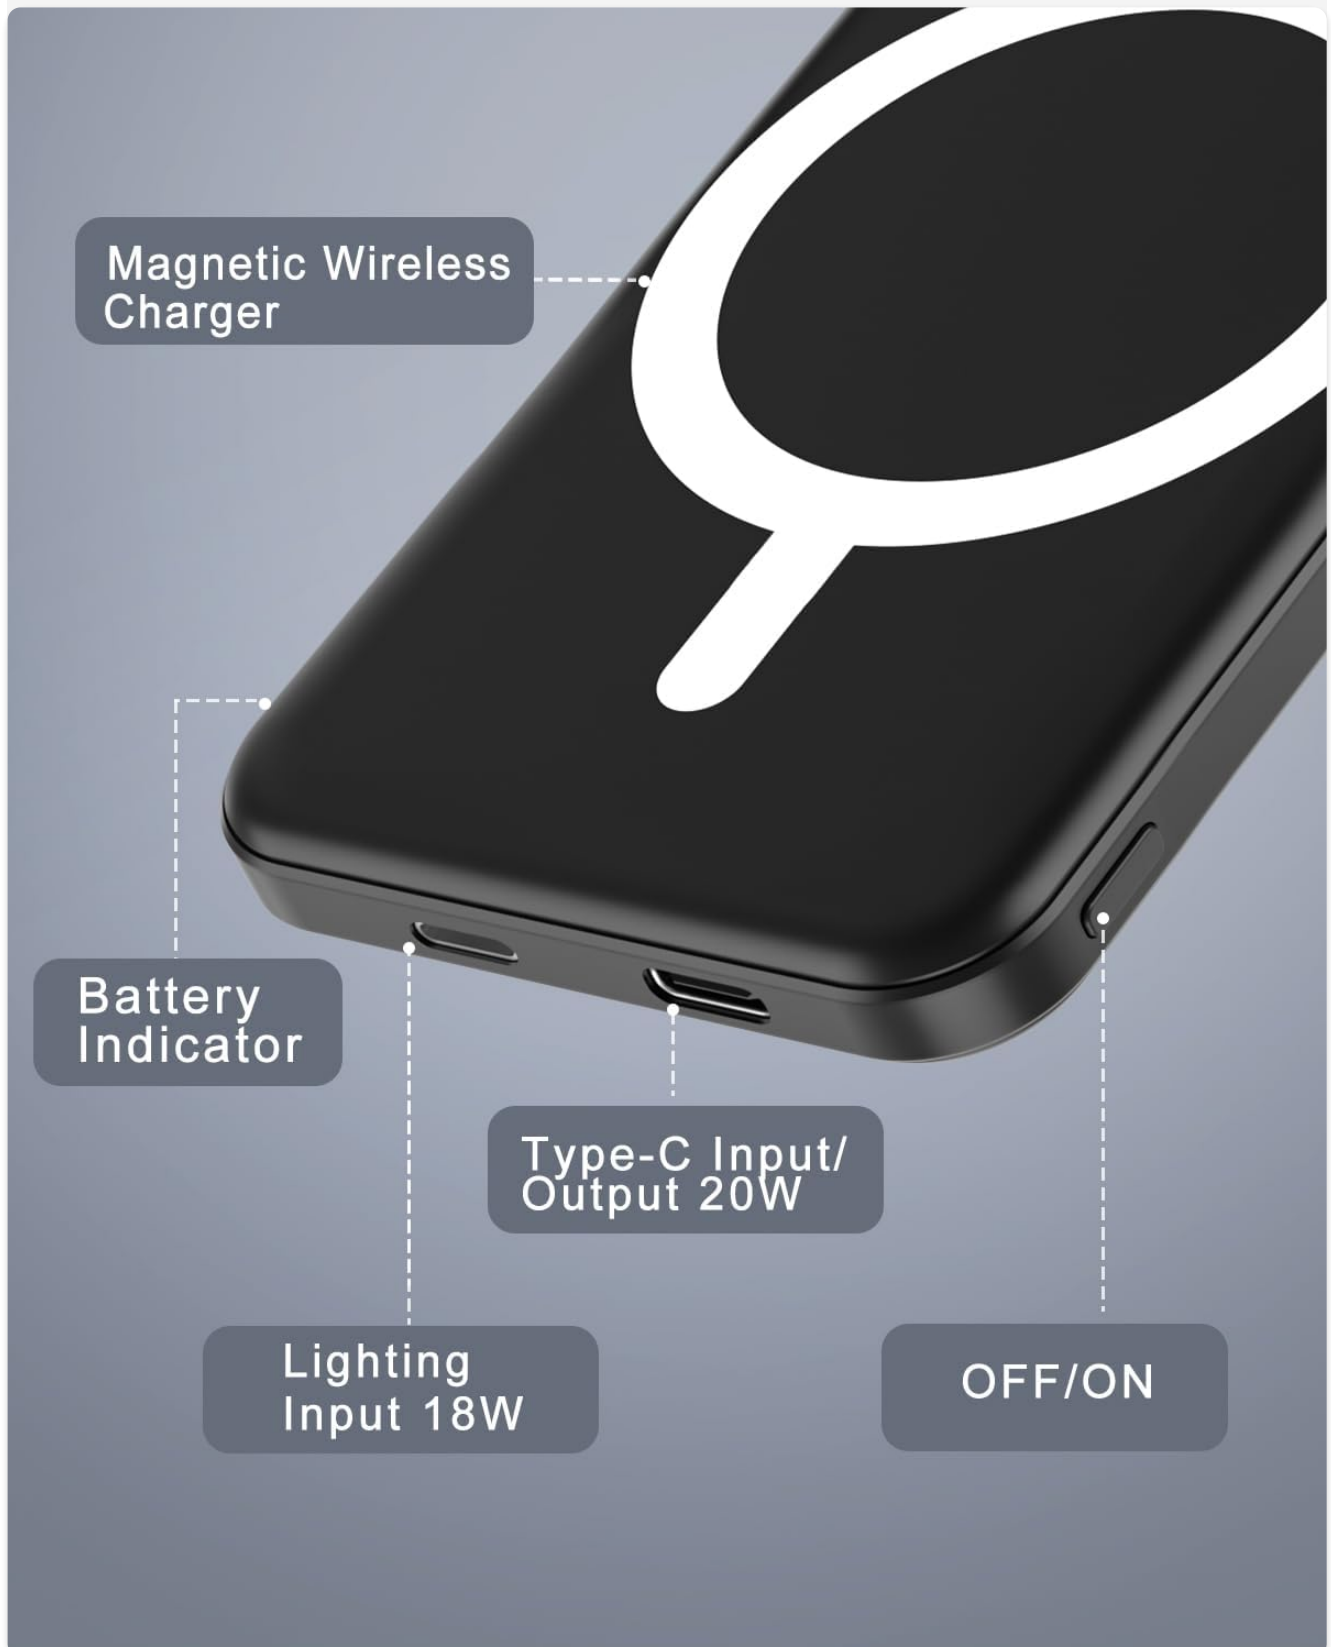

Image: A detailed view of the power bank's input/output ports and battery indicator lights.

Battery Indicator:

The power bank features LED indicator lights to show the remaining battery level. Refer to the product's physical indicators for precise battery status.

3. OPERATING INSTRUCTIONS

Magnetic Wireless Charging:

Align the power bank with the MagSafe area on the back of your compatible iPhone (iPhone 16/15/14/13/12 Series). The strong magnetic connection will secure the power bank and initiate wireless charging automatically.

- Supports 5W, 7.5W, 10W, and 15W Max wireless charging.
- For optimal magnetic suction and charging efficiency, use with a MagSafe compatible phone case or without a case. Non-magnetic cases may hinder proper adsorption.

Wired Charging:

Connect your device to the power bank using a USB-C to USB-C cable (for compatible devices) or a USB-C to Lightning cable (for iPhones).

- **USB-C Output:** Supports up to 20W Max.

Charging Multiple Devices:

The power bank can charge two devices simultaneously: one wirelessly via MagSafe and another via the USB-C

4. MAINTENANCE

- Keep the power bank dry and away from moisture.
- Avoid exposing the device to extreme temperatures (hot or cold).
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.

- Store in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

Device Not Charging:

- Ensure the power bank itself is sufficiently charged.
- Check all cable connections for wired charging.
- For wireless charging, ensure your iPhone is correctly aligned with the magnetic ring on the power bank.
- Verify that your phone case is MagSafe compatible or thin enough (less than 3MM) to allow for proper magnetic connection and wireless charging.

Power Bank Overheating:

- It is normal for the power bank to become slightly warm during charging.
- If it becomes excessively hot, disconnect it immediately and allow it to cool down.
- Ensure proper ventilation around the device during charging.
- The power bank has built-in temperature control for safety.
