podoru 5000mAh Magnetic Wireless Power Bank Instruction Manual

Model: KT-D003MINI

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your podoru 5000mAh Magnetic Wireless Power Bank. Please read these instructions thoroughly before use and retain them for future reference.

2. WHAT'S IN THE BOX

- Magnetic Wireless Power Bank x1
- USB-C Charging Cable x1
- Instruction Manual x1

3. PRODUCT OVERVIEW

The podoru Magnetic Wireless Power Bank features a compact design with multiple charging options. It includes a magnetic surface for wireless charging, a power button, and LED indicators for battery status. Connectivity ports include a USB-C port for both input and output, and a Lightning port for input.

4. SPECIFICATIONS

| | |
|---------------------------|--|
| Product Dimensions | 5.6 x 3.4 x 0.6 inches |
| Item Weight | 4.2 ounces |
| Item Model Number | KT-D003MINI |
| Battery Type | 1 Lithium Polymer batteries (included) |
| Battery Capacity | 5000 Milliamp Hours |

| | |
|---------------------------------|--|
| Wireless Charging Output | 5W, 7.5W, 10W, 15W Max |
| USB-C Output | 20W Max |
| Lightning Input | 12W Max |
| USB-C Input | 18W Max |
| Special Features | Built-in Cable, Fast Charging, Flashlight, Pocket Size & Slim, Wireless Charging |

5. SETUP

5.1 Initial Charging of the Power Bank

Before first use, fully charge your power bank. Connect the provided USB-C charging cable to the power bank's USB-C port and to a compatible power adapter (not included). Alternatively, use a Lightning cable to charge via the Lightning input port. The LED indicators will show the charging progress.

5.2 Power On/Off

Press the power button located on the side of the power bank to turn it on. The LED indicators will light up to show the current battery level. Press and hold the power button to turn it off.

6. OPERATING INSTRUCTIONS

6.1 Magnetic Wireless Charging

1. Ensure your power bank is sufficiently charged.
2. Align the magnetic surface of the power bank with the back of your compatible iPhone (iPhone 12 series and newer). The power bank will magnetically attach and wireless charging will begin automatically.
3. For optimal magnetic attachment and charging efficiency, use a MagSafe-compatible phone case or no case. Non-magnetic cases may prevent proper adsorption.

6.2 Wired Charging (USB-C Output)

Connect your device to the power bank's USB-C port using a compatible USB-C cable. The power bank supports up to 20W PD fast charging for devices that support this standard.

6.3 Simultaneous Charging of Two Devices

The power bank can charge two devices concurrently: one wirelessly via the magnetic surface and another via the USB-C output port. This allows for shared charging without waiting.

6.4 Recharging the Power Bank

To recharge the power bank, use either the USB-C input (up to 18W) or the Lightning input (up to 12W) with a compatible cable and power adapter.

6.5 Pass-Through Charging

The power bank supports pass-through charging, allowing it to be recharged while simultaneously wirelessly charging a device. This feature supports 5W, 7.5W, 10W, and 15W Max wireless charging.

8. MAINTENANCE

- Keep the power bank clean and dry. Avoid exposure to dust, dirt, and moisture.
- Store in a cool, dry place when not in use.
- Do not attempt to disassemble or modify the device.
- Use only the provided or certified compatible charging cables.

9. SAFETY INSTRUCTIONS

- Always follow the manufacturer's instructions before using the product.

- Do not expose the power bank to excessive heat or fire. Avoid direct sunlight or storing it in a vehicle.
- Avoid using high-wattage adapters to charge the power bank unless explicitly stated as compatible.
- The power bank includes a multi-protect safety system with temperature control, overcharge protection, and short circuit protection.
- During wireless charging, it is normal for the power bank to become slightly warm due to energy transfer. If your iPhone overheats, remove any magnetic case thicker than 2mm or pause charging until it cools down.

10. TROUBLESHOOTING

- **Device not charging wirelessly:** Ensure your phone is MagSafe compatible (iPhone 12 series or newer) and properly aligned. Remove any non-magnetic or excessively thick cases.
- **Slow charging:** Verify that your device and cables support fast charging. Ensure the power bank itself is fully charged.
- **Power bank not recharging:** Check the charging cable and adapter for damage. Ensure connections are secure. Try a different cable or adapter.
- **Overheating:** Discontinue use immediately if the power bank or your device becomes excessively hot. Refer to safety instructions regarding magnetic cases.
