ARIEL Hepburn 54-inch White Bathroom Vanity Instruction Manual

Model: HBT-054SCQOVOWHT

1. IMPORTANT SAFETY INFORMATION

Always use appropriate safety gear when handling and installing the vanity. Be aware of sharp edges and heavy weight to prevent injuries. Follow the installation manual for proper assembly and mounting. Professional installation is recommended for optimal safety and performance.

2. PRODUCT OVERVIEW

The ARIEL Hepburn 54-inch Bathroom Vanity is crafted from solid hardwood with plywood panels, ensuring durability and resistance to moisture and temperature changes. It features a 1.5-inch edge Carrara Quartz countertop, a single oval under-mount sink, and soft-closing doors and drawers for quiet operation. The design includes nine full-extension dovetail drawers, with one 45-degree open tilt drawer, and a toe kick for convenience.

2.1. Key Features

- **Material:** Solid hardwood construction with plywood panels.
- **Countertop:** 1.5-inch edge Carrara Quartz, pre-drilled for an 8-inch widespread 3-hole faucet.
- **Sink:** One ceramic oval UPC certified under-mount sink.
- **Storage:** Two soft-closing doors and nine full-extension dovetail drawers, including one tilt-out drawer.
- **Design:** Plinth base for a floating effect and toe kick for easy cleaning.
- **Hardware:** Matte Black finish.

3. SETUP AND INSTALLATION

The vanity cabinet arrives fully assembled. The countertop and sink need to be attached following the provided installation instructions. The countertop is pre-drilled for an 8-inch widespread 3-hole faucet. DIY or professional installation is an option.

3.1. Pre-Installation Checklist

- Ensure all components are present and undamaged.
- Verify plumbing rough-ins are correctly positioned for the vanity size.
- Gather necessary tools: silicone gun, pencil, towel, and appropriate safety gear.

3.2. Installation Steps

1. **Prepare the Basin:** Place the basin on the bottom of the countertop. Use a pencil to mark the position of the basin.
2. **Apply Silicone to Basin:** Apply a bead of silicone sealant around the top edge of the basin.
3. **Attach Basin to Countertop:** Flip the basin and carefully place it onto the marked position on the underside of

the countertop. Allow 12 to 24 hours for the silicone to dry.

4. **Secure Basin with Clips:** Attach the provided under-mount clips to secure the basin firmly to the countertop.
5. **Prepare the Cabinet:** Apply a bead of silicone sealant around the top perimeter of the vanity base cabinet where the countertop will rest.
6. **Set Countertop:** With assistance, carefully lift and set the countertop with the attached basin onto the vanity base cabinet, aligning it properly.
7. **Install Backsplash:** Apply silicone to the back edge of the countertop and the back of the backsplash. Carefully set the backsplash in place against the wall and countertop.
8. **Wipe Excess Silicone:** Immediately wipe away any excess silicone with a damp cloth or towel for a clean finish.
9. **Connect Plumbing:** Connect the faucet and drain according to manufacturer instructions and local plumbing codes. The vanity features an open back for easier plumbing access.

4. OPERATING INSTRUCTIONS

The ARIEL Hepburn vanity is designed for ease of use and long-lasting functionality. Its primary operational features involve the soft-closing doors and full-extension drawers.

4.1. Soft-Closing Doors and Drawers

- The vanity is equipped with soft-closing hinges and drawer slides. This feature prevents slamming, reducing noise and extending the lifespan of the cabinet components.
- To close, gently push the door or drawer. The soft-close mechanism will engage, slowly and quietly pulling it shut.

4.2. Full-Extension Dovetail Drawers

- The drawers feature full-extension slides, allowing complete access to the entire drawer space.
- One top drawer is a 45-degree open tilt drawer, ideal for small items and quick access.

5. MAINTENANCE

Proper care and maintenance will ensure the longevity and beauty of your ARIEL Hepburn vanity.

5.1. Countertop Care (Carrara Quartz)

- **Daily Cleaning:** Wipe the surface with a soft cloth and warm, soapy water. Rinse thoroughly and dry to prevent water spots.
- **Stain Prevention:** Quartz is highly stain-resistant, but it is best to wipe up spills immediately, especially acidic liquids like lemon juice or wine.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong acids, alkalis, or harsh chemicals like oven cleaner, paint remover, or drain cleaner, as these can damage the surface.
- **Heat Protection:** While quartz is heat-resistant, always use trivets or hot pads under hot pots, pans, or heat-generating appliances to prevent potential damage.

5.2. Cabinet Care (Painted Wood)

- **Cleaning:** Use a soft, damp cloth with a mild, non-abrasive cleaner. Wipe dry immediately to prevent moisture

damage.

- **Avoid Excess Moisture:** Do not allow water to sit on the cabinet surfaces for extended periods.
- **Protect from Scratches:** Use felt pads under items placed on the vanity surface to prevent scratches.

5.3. Hardware Care (Matte Black)

- Wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can strip the finish.

6. TROUBLESHOOTING

Here are some common issues and their potential solutions:

| Problem | Possible Cause | Solution |
|------------------------------------|--|---|
| Drawers not closing smoothly | Obstruction in drawer slides; misaligned slides; excessive weight. | Check for obstructions and remove. Ensure drawer slides are properly aligned and secured. Redistribute weight if overloaded. |
| Cabinet doors not closing properly | Misaligned hinges; obstruction. | Adjust hinges as needed (refer to hinge manufacturer's instructions). Check for and remove any obstructions. |
| Water leak from sink or faucet | Loose plumbing connections; improper sealant application. | Tighten all plumbing connections. Reapply plumber's putty or silicone sealant if necessary. Consult a professional plumber if the issue persists. |
| Countertop staining | Spills left for extended periods; use of harsh chemicals. | Clean spills immediately. Use only recommended cleaners for quartz surfaces. |
