PAWPRO PAWPRO Series: ULTIMATE

PAWPRO Series: ULTIMATE Dog Training Collar User Manual

Model: PAWPRO Series: ULTIMATE | Brand: PAWPRO

INTRODUCTION

The PAWPRO Series: ULTIMATE Dog Training Collar is designed to assist in effective dog training across various environments. This system features an extensive 4-mile range, 124 adjustable training levels, and four distinct modes to help manage and correct canine behavior. It is suitable for dogs of all sizes and breeds, from 5lb puppies to 135lb canines, and is built with durable, waterproof materials for reliable outdoor use.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- Remote Control
- Dog Collar Receiver
- 4 Contact Points (Short and Long)
- 4 Protective Caps for Contact Points
- Light-test Tool
- Wrist Strap for Remote
- 2-in-1 Charging Cable
- User Manual (this document)
- Dog Training Ebook (digital access)

SETUP

1. Charging the Devices

Both the remote control and the collar receiver are rechargeable. Use the provided 2-in-1 charging cable to charge both units simultaneously. A full charge typically takes approximately 2 hours. The collar receiver can last up to 15 days on a single charge, while the remote can last up to 50 days.

Figure 2: Remote and receiver with charging cable, illustrating long battery life.

2. Adjusting the Collar Fit

The collar is adjustable and can be cut to fit your dog's neck size. Ensure the collar fits snugly but comfortably, allowing two fingers to fit between the collar and your dog's neck. This ensures proper contact of the probes for effective training modes. The collar is designed for dogs weighing 5lb to 135lb.

FITS EVERY DOG 100% WATERPROOF

**Perfect for Small, Medium,
and Large Dogs**

**Fully Submersible, Perfect
for Water Activities**

**Adjustable for a Secure,
Comfortable Fit**

**Train Your Dog Rain or
Shine, Anytime**

Figure 3: The collar is adjustable to fit all dog sizes and is fully waterproof.

3. Attaching Contact Points

Select the appropriate length of contact points (short or long) based on your dog's coat length. For dogs with longer coats, use the longer contact points to ensure proper skin contact. Place the protective caps over the contact points if desired for added comfort, especially during initial training phases or for sensitive dogs.

OPERATING THE COLLAR

The PAWPRO remote features dedicated buttons for each training mode, eliminating the need to toggle between functions. This allows for quick and precise corrections during training sessions.

Training Modes and Levels:

- **Beep Mode:** Offers 8 adjustable levels of audible tone.
- **Vibration Mode:** Provides 16 adjustable levels of vibration.
- **Safe Shock Mode:** Features 99 adjustable levels of static stimulation. Start at the lowest level and gradually increase until

your dog responds.

- **Light Mode:** An intense night-light feature on the collar for visibility in low-light conditions.

ULTIMATE CONTROL

4 MILE RANGE COLLAR

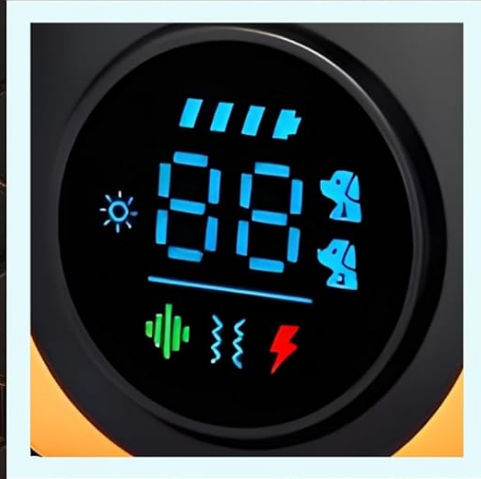

The image displays a hand holding a black and orange remote control with a digital display and buttons for Beep, Vibration, Shock, and Light. Next to it is a black and orange woven dog collar with a glowing light bar and the PAWPRO logo.

Mode	Levels
BEEP	8 levels

DURABILITY AND WATERPROOFING

The PAWPRO Dog Training Collar is built to withstand various environmental conditions. It features an IPX7 waterproof rating, making it fully submersible and suitable for training in rain or during water activities. The collar is crafted from premium hypoallergenic materials to ensure your dog's comfort and durability.

MAINTENANCE

To ensure the longevity and proper function of your PAWPRO Dog Training Collar, follow these maintenance guidelines:

- Regularly inspect the collar and contact points for any signs of wear or damage.
- Clean the collar receiver and contact points with a damp cloth and mild soap as needed. Ensure they are completely dry before recharging or re-use.
- Avoid exposing the remote control to extreme temperatures or direct water immersion, as it is not waterproof.

- Store the collar and remote in a dry, cool place when not in use.

TROUBLESHOOTING

If you encounter issues with your PAWPRO Dog Training Collar, please refer to the following common solutions:

Problem	Possible Cause	Solution
Collar not responding to remote.	Low battery on either device, devices not paired, out of range.	Ensure both devices are fully charged. Re-pair the remote and collar according to the included training guide. Ensure you are within the 4-mile operational range.
No static stimulation.	Contact points not making proper skin contact, level too low.	Adjust collar fit to ensure snug contact. Use longer contact points for dogs with thick fur. Increase the static stimulation level gradually. Use the light-test tool to verify functionality.
Collar light not working.	Light mode not activated, low battery.	Press and hold the light button on the remote. Ensure the collar is charged.

For further assistance, please contact customer support.
