2. Important Safety Instructions

Your Midea Electric Pressure Cooker is designed with 10 professional safety functions to ensure secure operation. Always follow these basic safety precautions:

- **Overheat Protection:** The appliance automatically shuts off if it detects overheating.
- **Automatic Pressure Release:** Excess pressure is automatically released to prevent dangerous build-up.
- **Lid Lock:** The lid locks securely during operation and cannot be opened until pressure is safely released.
- **Anti-Clog Cover:** Prevents food particles or grease from blocking the pressure release valve.
- Always ensure the lid is properly closed and locked before starting any pressure cooking program.

- Do not fill the inner pot above the MAX fill line.
- Keep hands and face clear of the steam release valve when releasing pressure.
- Unplug the appliance when not in use and before cleaning.

7. Troubleshooting

If you encounter issues with your Midea Electric Pressure Cooker, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|-------------------------|--|---|
| Cooker does not turn on | Not plugged in; power outage; faulty outlet. | Ensure power cable is securely plugged in; check household circuit breaker; try a different outlet. |
| Lid will not close/lock | Sealing ring not properly installed; food debris blocking lid; inner pot not seated correctly. | Check and reposition the sealing ring; clean lid and rim; ensure inner pot is fully seated. |

| Problem | Possible Cause | Solution |
|---------------------------|--|--|
| Steam leaking from lid | Sealing ring damaged or improperly installed; food debris on sealing ring; steam release handle not in 'Sealing' position. | Inspect and clean sealing ring; ensure steam release handle is set correctly. Replace sealing ring if damaged. |
| Food not cooking properly | Insufficient liquid; incorrect program/time selected; pressure not building. | Add more liquid; verify program and time settings; check for steam leaks (see above). |

If the problem persists, please contact customer support.
