4. MAINTENANCE

Cleaning

To keep your phone in good condition, wipe it regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the phone's surface.

Battery Care

The 1000 mAh battery provides up to 6 days of standby time. To maximize battery life:

- Avoid extreme temperatures.
- Charge the phone regularly, but avoid overcharging or letting the battery completely drain too often.
- Use only the provided USB-C cable or a certified compatible charger.

Storage

When not in use for extended periods, store the phone in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery has some charge before storing.

5. TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Phone not turning on	Low battery; Power button not pressed long enough	Charge the phone for at least 30 minutes; Press and hold the power button for several seconds.
Poor call quality	Weak signal; Network congestion	Move to an area with better network coverage; Try making the call again later.
Battery not holding charge	Battery degradation; Improper charging	Ensure you are using the correct charger; Consider replacing the battery if it's old.
SIM card not detected	SIM card improperly inserted; Damaged SIM card	Reinsert the SIM card carefully, ensuring it is correctly seated; Try a different SIM card to rule out a faulty SIM.
