Lyromix Lyromix Dog Kennel Outdoor

Lyromix Outdoor Dog Kennel Instruction Manual

Model: Lyromix Dog Kennel Outdoor

1. INTRODUCTION

Thank you for choosing the Lyromix Outdoor Dog Kennel. This manual provides detailed instructions for the safe and correct assembly, operation, and maintenance of your new dog kennel. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

- Always ensure all components are securely fastened before allowing your pet into the kennel.
- Regularly inspect the kennel for any signs of wear, damage, or loose parts. Repair or replace damaged components immediately.
- Do not allow children to play unsupervised near or inside the kennel.
- Ensure the kennel is placed on a level, stable surface to prevent tipping.
- This kennel is designed for pets. Do not use it for any other purpose.
- Keep small parts away from children and pets during assembly.

3. PACKAGE CONTENTS

Please verify that all parts are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Galvanized Steel Frame Components (Pipes, Connectors)
- Wire Mesh Panels
- Stainless Steel Mesh Ties (approx. 250 pieces)
- Waterproof and UV-Resistant Cover
- Main Door Assembly with Lock
- Feeding Door Assembly with Adjustable Holder
- Stainless Steel Bowls (2)
- Assembly Tools (e.g., gloves, wrench - may vary)

4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your Lyromix Outdoor Dog Kennel.

1. **Unpack and Identify Components:** Carefully remove all parts from the packaging. Lay them out and compare them with the package contents list to ensure everything is present.
2. **Assemble the Galvanized Frame:** Connect the galvanized steel pipes using the provided connectors to form the base and upright structure of the kennel. Ensure all connections are firm. The frame includes additional side support bars for enhanced stability.

Image: Illustration of the galvanized frame structure with highlighted support bars.

3. **Attach Wire Mesh Panels:** Securely attach the wire mesh panels to the assembled frame using the provided stainless steel mesh ties. The mesh features a 2.5mm thickness and wrapped edges for durability and to prevent loosening. Ensure each panel is taut and firmly attached to the frame.

Sturdy Wire Mesh

Effectively preventing dogs from bending the wire to escape

Image: Detail of the sturdy wire mesh installation, designed to resist bending.

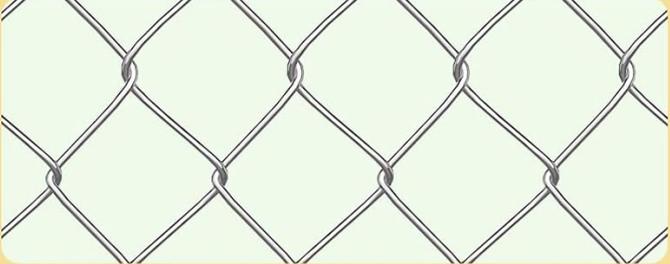

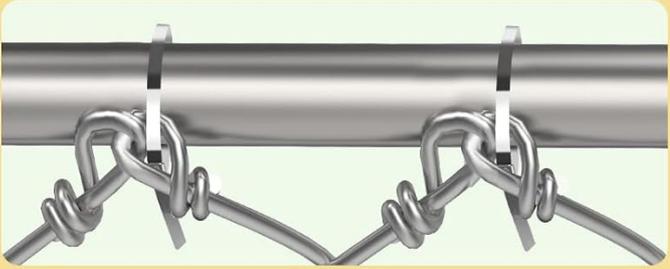

| ours | others |
|---|--|
|  <p>Thicker Galvanized Tube Not Easily Bent By dogs</p> |  <p>Flimsy Rod</p> |
|  <p>Firm Wire Mesh Wire mesh will never be loose again</p> |  <p>Loose Wire Mesh</p> |
|  <p>304 Stainless Steel Mesh Ties Never fall off again</p> |  <p>Plastic Mesh Ties</p> |

6. **Final Check:** Double-check all connections, ties, and the main door lock to ensure the kennel is stable and secure.

5. OPERATING INSTRUCTIONS

- **Main Door Access:** Use the main door for your pet to enter and exit the kennel. Always ensure the door is securely locked when your pet is inside.
- **Feeding:** To feed your pet, open the small upper feeding door. This allows you to add food or water to the bowls without fully opening the main door.
- **Adjusting Bowl Height:** The feeding bowl holder can be adjusted to three different heights. Select the most comfortable height for your dog's size to promote healthy eating posture.

6. MAINTENANCE

- **Regular Cleaning:** Clean the stainless steel bowls daily. The entire kennel should be cleaned regularly with pet-safe cleaning solutions and rinsed thoroughly.
- **Inspect Mesh and Frame:** Periodically check the wire mesh for any signs of damage or bending. Ensure all stainless steel

ties are secure. Inspect the galvanized frame for rust or structural integrity.

- **Cover Care:** Clean the waterproof cover as needed. Ensure it remains securely fastened to the frame, especially during windy conditions.
- **Tighten Connections:** Over time, some connections may loosen. Periodically check and tighten all bolts and fasteners.

7. TROUBLESHOOTING

- **Mesh appears loose or bent:** Ensure all 250 stainless steel ties are correctly installed and tightened. If necessary, add additional ties or replace any damaged mesh panels.
- **Kennel feels unstable:** Verify that the kennel is on a level surface. Check all frame connections and ensure they are fully engaged and tightened. The additional side support bars are designed to enhance stability.
- **Cover is not secure or appears flimsy:** Ensure the cover is properly stretched and all fastening points are securely attached to the frame. Check for any tears or damage to the cover.
- **Difficulty during assembly:** Re-read the assembly instructions carefully, paying close attention to the orientation of each part. Ensure you have all the necessary tools.

8. SPECIFICATIONS

| | |
|---------------------------------------|---|
| Product Dimensions (L x W x H) | 90.0" x 90.0" x 67.2" (approx. 7.5 ft x 7.5 ft x 5.6 ft) |
