## SETUP

Before first use, wash the bowl thoroughly. To attach the bowl to your KitchenAid Tilt-Head Stand Mixer:

1. Ensure your mixer is unplugged and the head is tilted back.
2. Place the mixer bowl onto the clamping plate.
3. Turn the bowl clockwise until it locks firmly into place.
4. Lower the mixer head and attach your desired accessory (beater, whisk, dough hook).

To remove the bowl, reverse these steps: tilt the head back, turn the bowl counter-clockwise to unlock, and lift it off the clamping plate.

## OPERATING INSTRUCTIONS

The KITOART Stainless Steel Mixer Bowl functions identically to your original KitchenAid bowl. Once securely attached to your

mixer, you can proceed with your recipes as usual. Its robust construction is suitable for mixing, kneading, and whipping various ingredients.

- Always ensure the bowl is properly locked into place before operating the mixer.
- Do not overfill the bowl; refer to your mixer's manual for maximum capacity guidelines for different ingredients.
- For best results, add ingredients gradually while the mixer is running at a low speed to prevent splashing.

## CARE AND MAINTENANCE

Maintaining your KITOART Stainless Steel Mixer Bowl is simple:

- **Dishwasher Safe:** The bowl is designed to be dishwasher safe for convenient and thorough cleaning.
- **Hand Wash:** For optimal care and to preserve its shine, hand washing with warm, soapy water is also recommended. Rinse thoroughly and dry immediately to prevent water spots.
- **Avoid Abrasive Cleaners:** Do not use steel wool, abrasive pads, or harsh chemical cleaners, as these can scratch the stainless steel surface.
- **Storage:** Store the bowl in a dry place. Its design allows for easy nesting with other bowls or storage within your mixer.

## TROUBLESHOOTING

### Bowl Does Not Fit or Lock Securely

If the bowl does not seem to fit or lock properly, please check the following:

- **Verify Mixer Model:** Double-check that your KitchenAid mixer is a Tilt-Head model and is listed in the compatible models section. This bowl is not compatible with Bowl-Lift mixers or the Artisan Mini 3.5 QT.
- **Proper Alignment:** Ensure the bowl is correctly aligned with the clamping plate before turning it clockwise to lock. Sometimes a slight adjustment is needed.
- **Obstructions:** Check for any debris or obstructions on the clamping plate or the bottom of the bowl that might prevent a secure fit.
- **Firm Turn:** Apply firm, but not excessive, pressure when turning the bowl clockwise until it clicks into place.

If issues persist after checking these points, please contact KITOART customer support for assistance.
