PawHut Large Chicken Run Instruction Manual

Model: D51-407V01GY

INTRODUCTION

Thank you for choosing the PawHut Large Chicken Run. This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your new chicken run. Designed to provide a safe and spacious environment for your flock, this chicken run features durable construction, a weather-resistant cover, and convenient access points for feeding and cleaning. Please read this manual thoroughly before assembly and use to ensure proper setup and long-lasting performance.

SAFETY INFORMATION

- Always ensure all parts are securely fastened before allowing animals into the run.
- Regularly inspect the structure for any damage or loose components.
- Keep children and pets away from the assembly area during installation.
- This product is designed for outdoor use.
- The secure mesh design protects chickens from unwanted visitors. Ensure latches are always locked.

COMPONENTS LIST

Please verify that all components are present before beginning assembly. Refer to the included parts diagram for identification.

- Prefabricated wooden panels (various sizes)
- Steel wire mesh sections
- Waterproof and Anti-UV cover

- Nesting boxes (4 units)
- Roosting bar
- Split door components
- Small door components
- Ramp
- Hardware (screws, latches, hinges, etc.)

SETUP AND ASSEMBLY

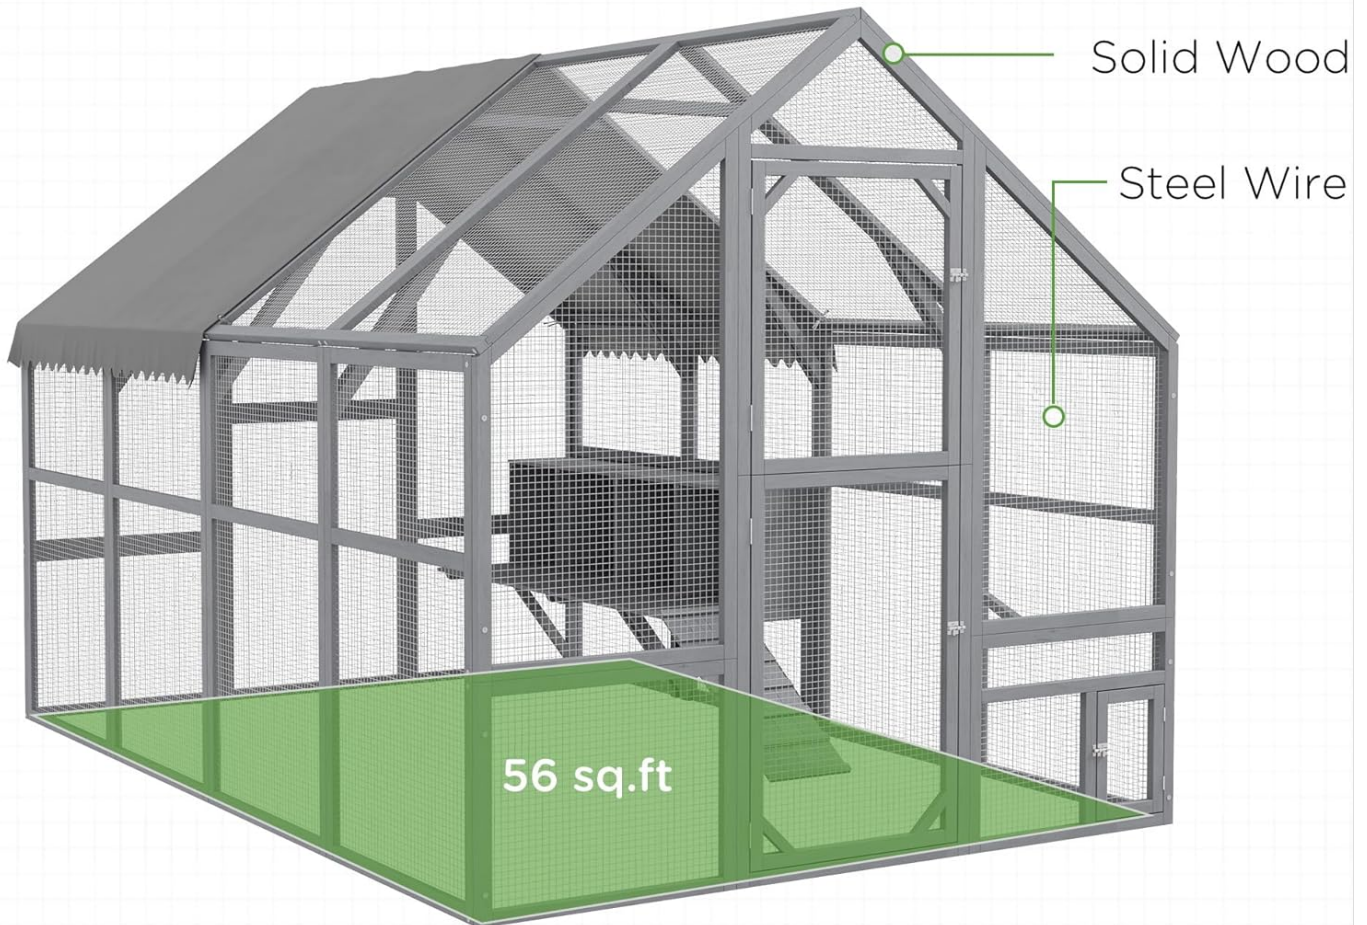

Assembly of the PawHut Large Chicken Run is designed to be straightforward. It is recommended that two people work together for optimal efficiency, with assembly typically taking under 180 minutes.

1. **Prepare the Area:** Choose a level, dry outdoor location for the chicken run. Ensure adequate space for the dimensions of 110.2"L x 73.0"W x 74.0"H.
2. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the parts list and diagrams provided in the physical manual to identify each piece.
3. **Assemble Base Panels:** Begin by connecting the base wooden panels according to the numbered instructions. Ensure all connections are secure.
4. **Install Side and Roof Panels:** Attach the side panels and then the roof panels. The prefabricated panels simplify this process. Extra care should be taken when lifting and securing roof sections.
5. **Integrate Nesting Boxes and Roosting Bar:** Install the four nesting boxes and the roosting bar within the designated areas of the run.
6. **Attach Doors and Ramp:** Secure the split front door and the smaller access door. Install the ramp leading to the elevated section. Ensure all latches operate smoothly.
7. **Apply Weather-Resistant Cover:** Drape and secure the waterproof and anti-UV cover over the designated roof section. Ensure it is taut and properly fastened to provide maximum protection.
8. **Final Inspection:** Double-check all screws, bolts, and latches to ensure they are tight and secure. Verify the stability of the entire structure.

SOLID CONSTRUCTION

Holds 8-12 Chickens

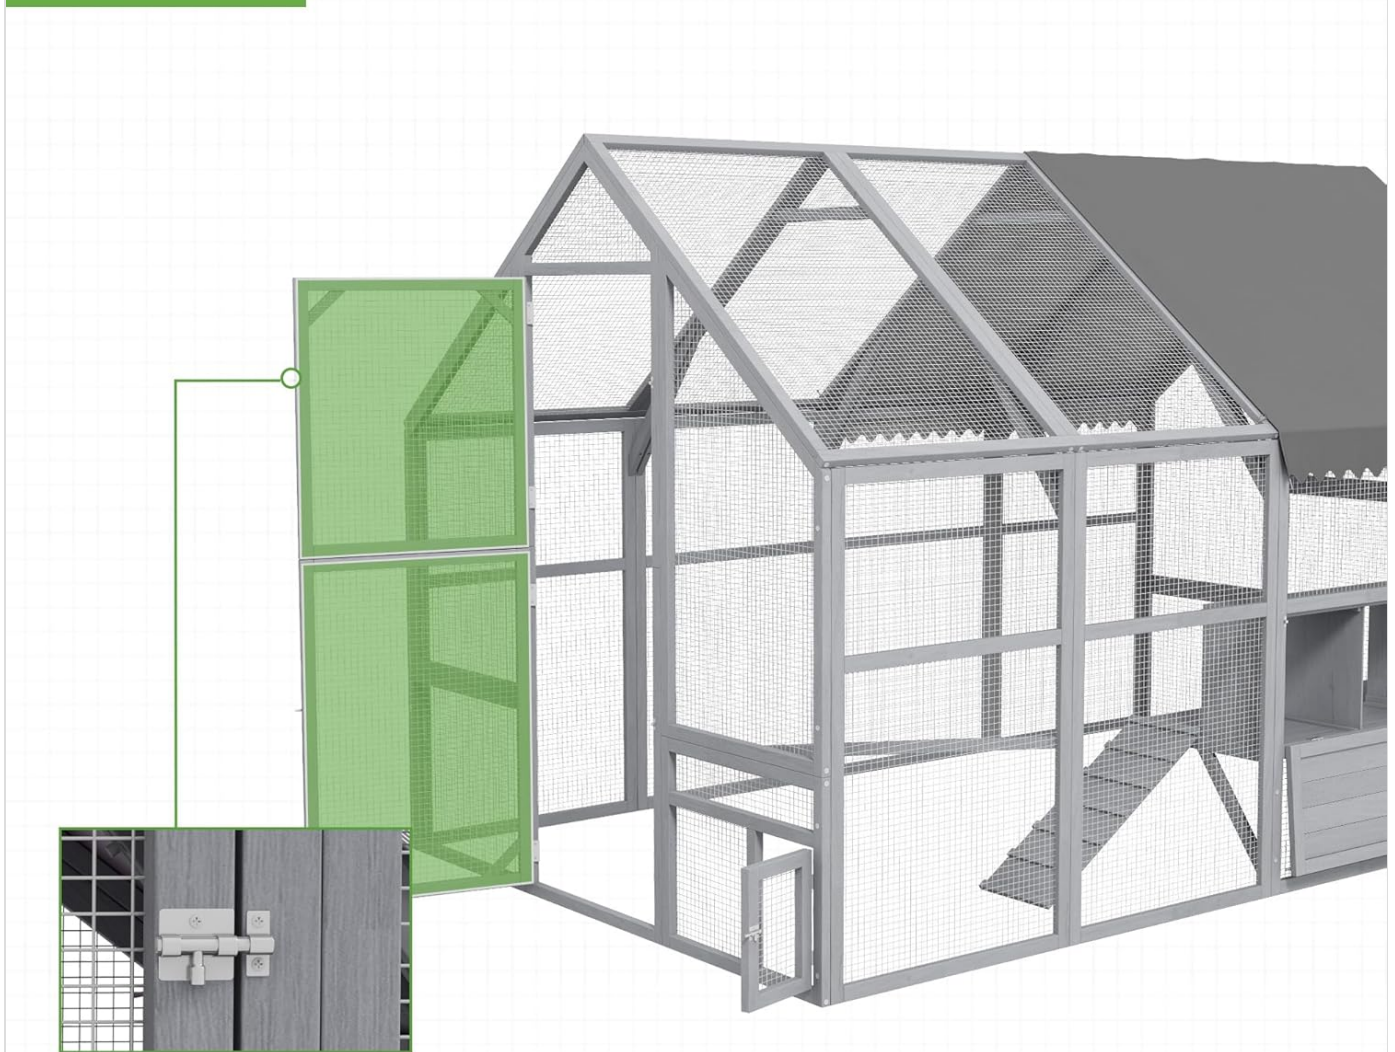

This diagram illustrates the solid wood and steel wire construction, emphasizing the spacious 56 sq ft floor area suitable for 8-12 chickens.

WALK IN DESIGN

You can enter easily to feed or clean

The walk-in design allows for easy access to feed and clean, featuring a secure latch for safety.

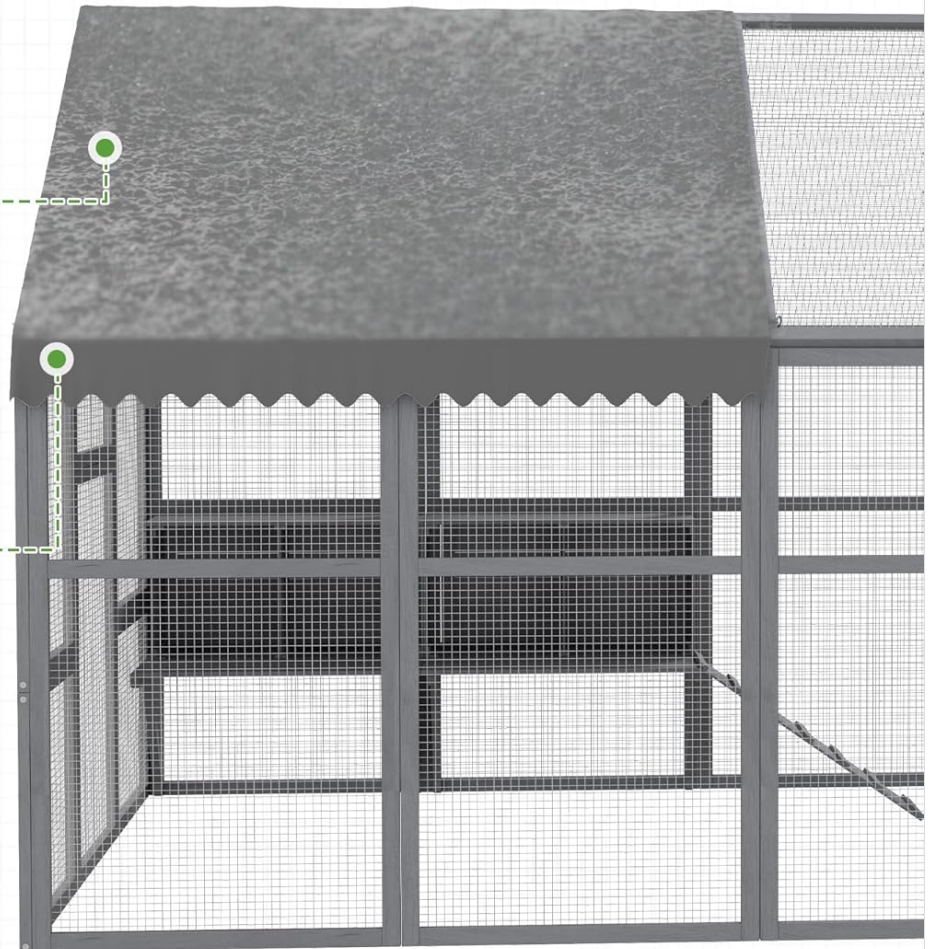

COVER

Water-resistant

UV Protection

The durable cover provides essential water-resistant and UV protection, keeping your flock comfortable in various weather conditions.

OPERATING INSTRUCTIONS

The PawHut Large Chicken Run is designed for ease of use and the well-being of your chickens.

- **Capacity:** This run provides 56 sq ft of space, suitable for housing 8-12 chickens comfortably.
- **Nesting Boxes:** Utilize the four integrated nesting boxes for egg laying. These are designed for convenient collection.
- **Roosting Bar:** The included roosting bar provides a natural and comfortable perch for your chickens.
- **Access:** The split front door allows for effortless feeding and cleaning. A smaller door is also available for potential integration with an automatic door opener (not included).
- **Protection:** The small 0.5" L x 0.5" W grids and strong, lockable latches ensure your flock remains safe from predators.
- **Pairing with a Coop:** For optimal comfort and shelter, especially during colder weather or at night, it is recommended to pair this run with a separate chicken coop (not included).

MORE DETAILS

Nesting Box

Ramp

Perch

Small door

Detailed features include spacious nesting boxes for egg collection, a sturdy ramp for easy access, comfortable perches, and a small door for automated access.

A closer look at the four nesting boxes, designed for easy egg collection and providing a private space for hens.

MAINTENANCE

Proper maintenance will extend the life of your PawHut Large Chicken Run.

- **Cleaning:** Regularly clean the interior of the run, including the nesting boxes and roosting bar, to maintain a hygienic environment for your chickens. The split door facilitates easy access for cleaning.
- **Weather Protection:** The product is designed for outdoor use. To maximize longevity, keep the chicken run in a dry place and ensure the waterproof cover is always properly secured, especially during rain or intense sun.
- **Structural Inspection:** Periodically check all wooden components for signs of wear, rot, or damage. Inspect the steel wire mesh for any breaks or weak points. Tighten any loose screws or hardware.
- **Latch Functionality:** Ensure all latches and hinges are functioning correctly to maintain security. Lubricate if necessary.

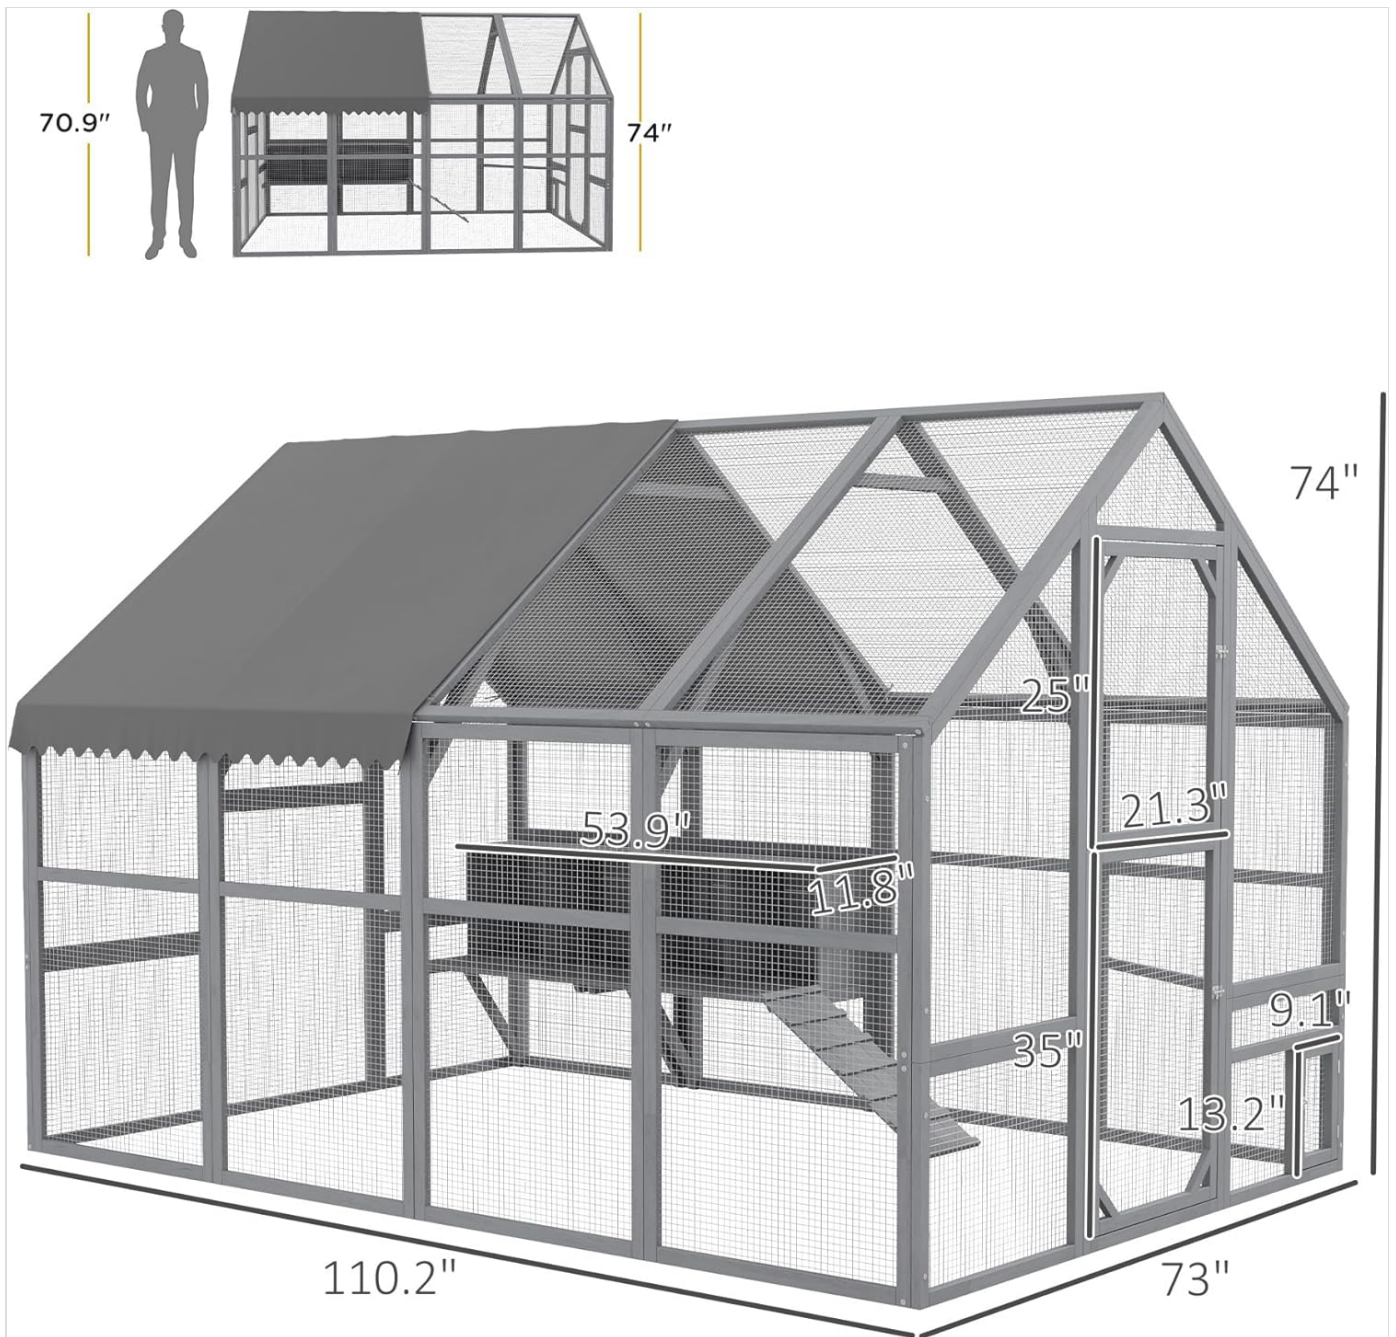

TROUBLESHOOTING

If you encounter any issues with your chicken run, please refer to the following common solutions:

Problem	Possible Cause	Solution
Structure feels wobbly or unstable.	Loose connections or uneven ground.	Ensure all screws and bolts are tightened. Relocate the run to a level surface or use shims to stabilize.
Door does not close or latch properly.	Misalignment or obstructed hinges/latch.	Check for obstructions. Adjust hinges or realign the door. Ensure the latch mechanism is clean and lubricated.
Water pooling inside the run.	Cover not properly installed or damaged.	Ensure the waterproof cover is securely fastened and taut. Inspect the cover for tears or holes and repair or replace if necessary.
Chickens not using nesting boxes.	New environment, lack of bedding, or preference.	Provide soft bedding (straw, wood shavings) in nesting boxes. Give chickens time to adjust. Ensure boxes are clean and private.

SPECIFICATIONS

Feature	Detail
