1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your eeTao 5V AC/DC USB Power Adapter. This adapter is designed to provide reliable power to compatible Cubii under-desk elliptical exercise machines, including models JR1+ F4A2, JR2+ Cubii GO, and Cubii Pro F3A1. Please read this manual thoroughly before use and retain it for future reference.

2. SETUP INSTRUCTIONS

Follow these steps to properly set up your eeTao 5V AC/DC USB Power Adapter:

- 1. Unpack the Adapter:** Carefully remove the power adapter and any included cables from its packaging.
- 2. Identify Adapter and Cable:** The package includes the USB plug end 5V AC/DC adapter. You will need a compatible USB cable (e.g., USB-A to Micro-USB or USB-A to USB-C) for your Cubii device.

eeTao®AC Adapter Power Supply

Compatible with:

(Machine not Included)

Image 2.1: The eeTao USB Power Adapter, showing its compact design and foldable AC prongs. The USB output port is located on the side.

Image 2.2: An example of a USB-A to Micro-USB charging cable, commonly used with compatible Cubii devices.
Ensure your cable matches your device's port.

3. **Connect the Cable to Adapter:** Insert the USB-A end of your charging cable into the USB port on the eeTao power adapter.
4. **Plug into Power Outlet:** Extend the foldable prongs on the adapter and plug it into a standard 100-240VAC 50/60Hz wall outlet.
5. **Connect to Device:** Connect the other end of the USB cable (e.g., Micro-USB or USB-C) to the charging port of your compatible Cubii elliptical exercise machine.
6. **Verify Connection:** Ensure all connections are secure. Your Cubii device should indicate that it is receiving power or charging according to its own indicators.

3. OPERATING INSTRUCTIONS

The eeTao 5V AC/DC USB Power Adapter is designed for simple operation:

- **Power On:** Once connected to a power outlet and your Cubii device, the adapter will automatically begin supplying power. There is no on/off switch on the adapter itself.
- **Charging Indication:** Refer to your Cubii elliptical machine's user manual for specific charging indicators (e.g., LED lights, screen display).
- **Disconnection:** To disconnect, first unplug the adapter from the wall outlet, then disconnect the USB cable from your Cubii device.

4. MAINTENANCE

Proper care ensures the longevity and safe operation of your power adapter:

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture when not in use. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires, cracked casing, or bent prongs. If damage is observed, discontinue use immediately.

5. TROUBLESHOOTING

If you encounter issues with your power adapter, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not charging/powering on.	<ul style="list-style-type: none">• Loose connection.• Faulty power outlet.• Incorrect cable.• Adapter or device malfunction.	<ul style="list-style-type: none">• Ensure the adapter is firmly plugged into the wall and the USB cable is securely connected to both the adapter and the Cubii device.• Test the power outlet with another device.• Verify that the USB cable is compatible with your Cubii model.• If the issue persists, contact customer support.
Adapter feels warm during use.	Normal operation.	A slight warmth is normal during operation. If the adapter becomes excessively hot, disconnect it immediately and contact customer support.
Adapter suddenly stops working.	<ul style="list-style-type: none">• Over Voltage Protection (OVP).• Over Current Protection (OCP).• Short Circuit Protection (SCP).	The adapter features built-in safety protections. Disconnect the adapter from the power source and the device. Wait a few minutes, then reconnect. If it still does not work, there might be an internal fault or a persistent issue with the connected device. Contact customer support.
